2007	V	5.090-5.097	Add <i>Integrated-Commercial Industrial 2 (ICI-2) district</i>
2007	VI	6.030	<i>Floodplain Management District</i> ; replaced in entirety
2007	VII	7.060	<i>Sign ordinance</i> ; replaced in entirety
2007	VIII	8.050 Administration	Amend with <i>2003 International Property Maint. Code</i>
2007	X	10.030/10.060 Admin Relief	Amend <i>30 day time frame and expiration</i>
2006	IV	4.010 Definitions	<i>Frontage</i> definition deleted/replaced
2006	VII	7.010-7.067	<i>Sign ordinance</i> ; replaced in its entirety
2006	XII	12.010-12.009	<i>Growth Mgmt Ordinance</i> replaces <i>Interim GMO</i>
2005	III	3.010 Districts	Rezone portion of Residential "A" to Residential "R"
2005	IV	4.010 Definitions	<i>Height</i> definition added
2005	V	5.022.K, 5.032.L, 5.042.N	Special exception for height greater than allowed
2005	V	5.026/5.038/,5.047.A,B,C	Height requirements
2005	V	5.052.E/5.062.A/5.072.E	Special exception for height greater than allowed
2005	V	5.058/5.067/5.077, A, B, C	Height requirements
2005	V	5.082.E	Special exception for height greater than allowed
2005	V	5.087.A, B, C	Height requirements
2005	VII	8.024	Delete and replace with IRC 2003 edition
2005	XII	12.010-12.011	<i>Interim Growth Management Ordinance</i>
2004	VI	6.040-6.045	Replace <i>Open Space & Conservation Zoning District</i>
2003	III	3.010 Districts	Rezone portion of ICI to C; Res. R to C; Res. A to C
2003	V	5.052.D	Special Exception for manufacturing use
2003	V	5.061	Revise <i>light manufacturing</i> to <i>manufacturing</i>
2003	V	5.081	Revise <i>light manufacturing</i> to <i>manufacturing</i>
2003	VI	6.010-6.014	Amend <i>Groundwater Protection District</i>
2003	VI	6.020-6.027	Amend <i>Wetland Conservation District</i>

2003	X	10.025	Special Exception for manufacturing in the C District
2003	XI	11.010-11	<i>Impact fees</i> ; replaced in its entirety
2002	I, III	1.030, 3.010	<i>Town vote</i> replaced <i>Town meeting</i>
2002	I	1.050 Amendments	<i>Open Space</i> replaced <i>Cluster Development</i>
2002	II	2.060-2.062	<i>Equitable waiver of dimensional requirements</i>
2002	IV	4.010 Definitions	Multiple definition revisions
2002	VII	7.070-7.085	<i>Senior Housing Development</i>
2002	X	10.010-10.070	<i>Impact fees</i>
2001	II	2.030	Delete “conforming uses” in section
2001	IV	4.010 Definitions	Amend <i>Church, House of worship, Structure</i>
2001	V	5.040-5.046	Revisions to Residential “R” District
2001	V	5.022.H, 5.032.K	Replace <i>reduced front, side & rear setbacks</i>
2001	V	5.025.C, 5.036.C	Delete sections
2001	V	5.042.I, 5.052.C	Replace <i>reduced front, side & rear setbacks</i>
2001	V	5.045.C, 5.055.C	Delete section
2001	V	5.072.D	Replace <i>reduced front, side & rear setbacks</i>
2001	V	5.075.C	Delete section
2001	VI	6.044.D.2.c	Replace <i>open space design</i>
2001	VII	7.040 Private ways	Delete section

ARTICLE I: INTRODUCTION

1.010 PURPOSE

The regulations set down in this Ordinance are for the purpose of promoting the public health, safety, morals, general welfare and civil rights of the inhabitants of the Town of Milford as provided by Title 64 of the NH RSA, Chapters 672-677 inclusive, and as such may be amended from time to time. (1986)

1.020 AUTHORIZATION

1.021 The Planning Board is hereby authorized to make such textual revisions as may be necessary and appropriate to correctly restate statutory citations throughout the remainder of the ordinance so as to achieve consistency with the purpose and authority, provided that such changes result in no contradictions within the ordinance or with state law, and further provided that no substantive changes shall occur as a result of any such correction. (1985)

1.022 The Planning Board has the authority to assign such section numbers to the Zoning Ordinance as it may deem appropriate provided that no substantive change to the ordinance shall occur as a result of this renumbering. (1985)

1.030 AMENDMENTS

This Ordinance may be amended by a majority vote of any legally constituted Town vote when such amendment has received public notices and hearings in accordance with the procedure established in Chapter 31, NH RSA, 1955 as amended.

1.040 EFFECTIVE DATE

This Ordinance shall take effect immediately upon its passage.

1.050 OTHER REGULATIONS, ORDINANCES AND STATUTES

In addition to complying with the regulations established herein, the applicant shall comply with all other applicable regulations, ordinances and statutes of the Town, the State of New Hampshire, and the United States Government, particularly but not limited to the Zoning Ordinance, Open Space and Conservation Zoning District, Wetland Conservation District, Flood Plain Management Ordinance, Subdivision Regulations, Road Specifications, Non-Residential Site Plan Review Regulations, Building Codes and Permits, and the State of New Hampshire Statutes and Regulations relating to land sales and pollution.

1.060 SEVERABILITY

If any section, clause, provision, portion or phrase of this Ordinance shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of this Ordinance.

ARTICLE II: GENERAL PROVISIONS

2.010 LOT OF RECORD

Lot of record shall be considered to meet the minimum lot size and frontage requirements of the Ordinance prior to the adoption of the Zoning Ordinance (3/11/69) as long as the lot of record has fifteen (15) feet of frontage on a principal route of access as defined in Article IV, Definitions. (1999)

2.020 NON-CONFORMING USES

Uses of land and buildings in existence at the time of passage of this Ordinance may be continued although such use does not conform to the provisions of this Ordinance.

2.030 NON-CONFORMING USE AND STRUCTURE (2001)

2.031 INTENT: The intent of this section is to allow for the lawful continuance of non-conforming uses, and/or structures and to allow a certain reasonable level of alteration, expansion or change that will not change the nature of the use and unduly impact the neighborhood.

- A. Continuance: A non-conforming use may be continued, although such use does not conform to the current provisions of this Ordinance.
- B. Discontinued use: Whenever a non-conforming use has been discontinued for more than one (1) year for any reason, such non-conforming use shall not thereafter be reestablished, and the future use of the property shall be in conformity with the provisions of this Ordinance.
- C. Alterations: Alteration, expansion or change of a non-conforming use or structure shall only be permitted by Special Exception by the Zoning Board of Adjustment if it finds that:
 - 1. The proposed alteration, expansion or change will not change the nature of the original use; and
 - 2. The proposed alteration, expansion or change would involve no substantially different effect on the neighborhood. (1999)

2.040 PUBLIC NUISANCE (2008)

No residential, business, commercial or industrial use shall be permitted which could cause any undue hazard to health or safety or which is offensive to the public because of noise, vibration, noxious odor, smoke or other similar reason.

2.050 USES/STRUCTURES NOT PERMITTED

Any uses of land and/or structures not specifically included in each zoning district as either acceptable or acceptable by special exception shall be considered as not permitted within that zoning district. (1997)

2.060 EQUITABLE WAIVER (2008)

All equitable waivers of dimensional requirements shall be governed by RSA 674:33-a (as amended) as stated below.

I. When a lot or other division of land, or structure thereupon, is discovered to be in violation of a physical layout or dimensional requirement imposed by a zoning ordinance enacted pursuant to RSA 674:16, the zoning board of adjustment shall, upon application by and with the burden of proof on the property owner, grant an equitable waiver from the requirement, if and only if the board makes all of the following findings:

- A. That the violation was not noticed or discovered by any owner, former owner, owner's agent or representative, or municipal official, until after a structure in violation had been substantially completed, or until after a lot or other division of land in violation had been subdivided by conveyance to a bona fide purchaser for value;
 - B. That the violation was not an outcome of ignorance of the law or ordinance, failure to inquire, obfuscation, misrepresentation, or bad faith on the part of any owner, owner's agent or representative, but was instead caused by either a good faith error in measurement or calculation made by an owner or owner's agent, or by an error in ordinance interpretation or applicability made by a municipal official in the process of issuing a permit over which that official had authority;
 - C. That the physical or dimensional violation does not constitute a public or private nuisance, nor diminish the value of other property in the area, nor interfere with or adversely affect any present or permissible future uses of any such property; and
 - D. That due to the degree of past construction or investment made in ignorance of the facts constituting the violation, the cost of correction so far outweighs any public benefit to be gained, that it would be inequitable to require the violation to be corrected.
- II. In lieu of the findings required by the board under subparagraphs I(a) and (b), the owner may demonstrate to the satisfaction of the board that the violation has existed for 10 years or more, and that no enforcement action, including written notice of violation, has been commenced against the violation during that time by the municipality or any person directly affected.
- III. Application and hearing procedures for equitable waivers under this section shall be governed by RSA 676:5 through 7. Rehearings and appeals shall be governed by RSA 677:2 through 14.
- IV. Waivers shall be granted under this section only from physical layout, mathematical or dimensional requirements, and not from use restrictions. An equitable waiver granted under this section shall not be construed as a nonconforming use, and shall not exempt future use, construction, reconstruction, or additions on the property from full compliance with the ordinance. This section shall not be construed to alter the principle that owners of land are bound by constructive knowledge of all applicable requirements. This section shall not be construed to impose upon municipal officials any duty to guarantee the correctness of plans reviewed by them or property inspected by them.

ARTICLE III: ZONING MAP - ZONING DISTRICT CHANGES (2007)

3.010 DISTRICTS

For the purpose of this Ordinance, the Town of Milford is hereby divided into districts located and bounded as shown on a map entitled “1997 Official Zoning Map, Town of Milford, New Hampshire”, copies of which are on file and may be obtained in the Town offices. The official zoning map, with all accompanying explanatory material, is hereby made a part of this Ordinance. The official zoning map shall be revised by the Planning Board to incorporate such amendments as may be made by Town vote. This official zoning map shall be the final authority as to the current zoning status of land in the Town.”

REZONING OF THE FOLLOWING LOTS:

1. Rezone the following parcels on Elm St. from Industrial to ICI (Integrated Commercial-Industrial): Map 11, Lots 11 and 12; Map 12, Lot 15, also, Map 12, Lot 14 on Elm St. from Commercial to ICI (Integrated Commercial-Industrial). (1996)
2. Rezone the following parcels on Nashua St. from Industrial to ICI (Integrated Commercial-Industrial): Map 44, Lots 12, 13 and 13-1. (1996)
3. Rezone the following parcels on Nashua St. from Residence "B" to Limited Commercial-Business: Map 32, Lots 2, 3, 4, 5, and 6; Map 43, Lots 51, 52 and 53; and Map 44, Lot 3. (1996)
4. Rezone the following parcels on Emerson Rd. from Residence "R" to ICI (Integrated Commercial-Industrial): Map 48, Lots 35, 35-1, 35-2, 37, 38 and 39. (1997)
5. Rezone the following parcels on Emerson Rd. from ICI (Integrated Commercial-Industrial) to "C" Commercial: Map 48, Lots 35, 35-1, 35-2, 37, 38 and 39. (2003)
6. Rezone the following parcels on Emerson Rd. from Residence "R" to "C" - Commercial: Map 48, Lots 36, 36-1, and that portion of Lot 52 lying westerly of a line beginning at a point on the southerly right-of-way line of Emerson Road, said point being 223.67 feet westerly of the northeasterly corner of Lot 52; said line extending in a southeasterly direction to a point on the southerly boundary line of Lot 52 lying 234.52 feet southwest of the southeast property corner of said lot. (2003)
7. Rezone the following parcels on Emerson Rd. and Federal Hill Rd. from Residence "A" to "C" - Commercial: Map 48, Lot 42, and that portion of Map 48, Lot 41 lying northerly of a line extended from the southeasterly corner of Map 48, Lot 44 to the southwesterly corner of Map 48, Lot 52. (2003)
8. Rezone the following parcels of land on: Bear Court, Bobby Lane, Colburn Road, Dear Lane, Federal Hill Road, Foster Road, Fox Run Road, Heritage Way, Mountain View Court, Ponemah Hill Road, Settlement Ln, Stone Court, Tarry Lane, Wallingford Road, and Wildflower Way from Residence “A” to Residence “R”:
Map 48, Lot 15-1 (that portion zoned “A” only), Lots 20, 20-1, 21, 22, 23, 23-1, 24, 25, 26, 27, 28, 29, 30, 46, 47, 51; Map 53, Lots 1, 2, 2-1, 2-2, 2-3, 3, 3-1, 4, 5, 6, 6-1, 6-2, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 21-1, 21-2, 21-3, 21-4, 22, 22-A, 23, 23-1, 24, 25, 29, 30, 30-1, 30-2, 31, 32, 33, 33-1, 34, 34-1, 34-2, 34-3, 34-4, 34-5, 34-6, 35, 35-1, 35-2, 35-3, 35-4, 35-5, 35-6, 35-7, 35-8, 35-9, 35-10, 35-11, 35-12, 35-13, 35-14, 35-15, 35-16, 35-17, 35-18, 35-19, 35-20, 35-21, 35-22, 35-23, 35-24, 35-25, 35-26, 35-27, 35-28, 35-29, 35-30, 35-31, 35-32, 35-33, 35-34, 35-35, 35-36, 35-37, 35-38, 35-39, 35-40, 35-41, 35-42, 35-43, 35-44, 35-45, 35-46, 35-47, 35-

48, 35-49, 36, 37, 37-1, 37-2, 38, 38-1, 38-2, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 67-1, 67-2, 68, 69, 70, 70-1, 71, 72, 79-1, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, PSNH R.O.W, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106; Map 56, Lots: 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, PSNH R.O.W., 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43. (2005)

9. From Industrial (I) to Integrated Commercial-Industrial 2 (ICI-2): Map 7, Lots 16, 16-1, 18, 19, 20, 21, 22, 23, 25, 26, 27, and 28; Map 14, Lots 4 and 5; Map 38, Lots 3,4,5,5-1, 6,9,10,11,12, 13 and 14; from Residence "R" to Integrated Commercial-Industrial 2 (ICI-2) that portion of Map 38, Lot 9 currently zoned "R"; and from Industrial "I" to Residence "R" that portion of Map 38, Lot 50 currently zoned "I". (2007)

ARTICLE IV: DEFINITIONS

4.010 PURPOSE

For the purpose of this Ordinance, the word "shall" is mandatory, the word "may" is permissive, and the following terms shall have the following meanings.

Abutter – Any person whose property is located in New Hampshire and adjoins or is directly across the street or stream from the land under consideration by the local land use board. For purposes of receiving testimony only, and not for purposes of notification, the term “abutter” shall include any person who is able to demonstrate that his/her land will be directly affected by the proposal under consideration. For purposes of receipt of notification by a municipality of a local land use board hearing, in the case of an abutting property being under a condominium or other collective form of ownership, the term abutter means the officers of the collective or association, as defined in FSA 356-B:3, XXIII. For purposes of receipt of notification by a municipality of a local land use board hearing, in the case of an abutting property being under a manufactured housing park form of ownerships defined in RSA 205-A:1, the term “abutter” includes the manufactured housing park owner and the tenants who own manufactured housing which adjoins or is directly across the street or stream from the land under consideration by the local land use board. (2007)

Accessory Dwelling Unit (ADU) – A second, accessory dwelling unit incorporated within an owner-occupied existing or proposed single family home or detached accessory structure. The total area of the accessory dwelling unit shall not exceed 700 SF and shall include not more than one bedroom. Use of the existing curb cut is required and any additional parking should be accommodated by the existing driveway or to the side or rear of the property. (2008)

Accessory Use or Structure - A use or structure on the same lot with, and of a nature incidental and subordinate to, the principal use or structure.

Agriculture - The word agriculture shall mean all operations of a farm such as the cultivation, conserving, and tillage of the soil; dairying; greenhouse operations; the production, cultivation, growing and harvesting of any agricultural, floricultural, sod or horticultural commodities; the raising of livestock, bees, fur-bearing animals, freshwater fish or poultry; or any practices on the farm incidental to or in conjunction with such farming operations. This includes, but is not necessarily restricted to, the following: preparation for market, delivery to storage or to market, or to carriers for transportation to market, of any products or materials from the farm, the transportation to the farm of supplies and materials, the transportation of farm workers, forestry or lumbering operations, the marketing or selling at wholesale or retail or in any other manner any products from the farm and of other supplies that do not exceed in average yearly dollar volume the value of products from such farm. (1997)

Animal feedlot - Land on which livestock is kept for the purpose of feeding.

Aquifer - Geological formation composed of rock or sand and/or gravel that contains significant amounts of potentially recoverable potable water.

Assisted Living Facility - units for persons sixty-two (62) years of age and older where rooms, meals, personal care and supervision of self-administered medication are provided. Other services may be provided as an accessory use only, such as recreational activities, financial services, and transportation. (2002)

Bed & Breakfast - A building for transient occupancy which also provides breakfast to registered guests only and is owner occupied. (1997)

Building - Any structure used or intended for supporting or sheltering any use or occupancy. (1992)

Church - A building or structure, or groups of buildings or structures that by design and construction are primarily intended for conducting organized religious services. See also House of Worship (1996)

Community Center - A building used for recreational, social, educational and cultural activities, open to the public or a designated part of the public, usually owned and operated by a public or non-profit group or agency. (1996)

Congregate Care Facility - units for persons sixty-two (62) years of age and older where communal dining facilities and services such as housekeeping, organized social and recreational activities, transportation services, and other support services appropriate for the residents are provided. (2002)

Day Care Facility - Those facilities, as licensed by the State of New Hampshire, and defined by NH RSA 170-E:2 as providing child care under one or more of the following categories: (2007)

A. Pre-School Program - A facility regularly providing a structured program up to five (5) hours per day for seven (7) or more children who are three (3) years of age or older and who are not attending a full-day school program. The number of children shall include all children present during the period of the program.

B. Group Pre-School Center - A facility regularly providing full-day or half-day child care for thirteen (13) or more pre-school children, whether or not the service is known as a day nursery, nursery school, kindergarten, cooperative, child development center, day care center, center for the developmentally disabled, progressive school, Montessori school, or by any other name.

C. After-School Program - A facility in which child care is regularly provided up to five (5) hours per school day, before and/or after regular school holidays, for six (6) or more children who are enrolled in a full day program.

Day Care facility, for the purposes of this Ordinance, does not include "family day care home" as defined in RSA 170-E:2.

Density - For the purposes of this Ordinance, density is used to define residential dwelling units per acre, and is based on the allowable units per acre in each residential district. High density refers to allowable densities in the Residence "B" District, medium density refers to allowable densities in the Residence "A" District; and low density refers to allowable densities in the Residence "R" District. (1997)

Distribution and Mailing Facilities - Uses which constitute the temporary storage and/or shipping of goods, including mail order processing, package distribution and mailing. (1995)

Drive Aisle - the traveled passageway by which vehicles enter and depart parking spaces. (2002)

Driveway - a vehicular passageway providing access between a road and a parcel of land. (2002)

Driveway, common commercial/industrial - a single driveway that provides access between a road and two (2) or more conforming commercial and industrial lots. (2002)

Driveway, common residential - a single driveway that provides access between a road and not more than two (2) conforming residential lots. (2002)

Dwelling Unit - One room or rooms connected together, constituting a separate, independent housekeeping establishment physically separated from any other dwelling units in the same structure, and containing independent cooking and sleeping facilities.

Dwelling, Single-family - A detached residential dwelling unit, other than a mobile home, designed for one family only.

Dwelling, Two-family - A structure which contains two (2) separate dwelling units, each provided with complete and independent living facilities for one or more persons, including provisions for living, sleeping, eating, cooking, and sanitation as well as independent access and egress to and from each living unit. (1986)

Dwelling, Multi-family - A structure consisting of three (3) or more dwelling units designed for occupancy by three or more families. (1995)

Family - One or more persons occupying a dwelling unit and living as a single non-profit housekeeping unit.

Family Day Care Home - An occupied residence in which child care is regularly provided for less than twenty-four (24) hours per day, except in emergencies, for one (1) to six (6) children from one or more unrelated families. The six (6) children shall include any foster children residing in the home and all children who are related to the caregiver except children who are (ten) 10 years of age or older. In addition to the six (6) children, one (1) to three (3) children attending a full-day school program may also be cared for up to five (5) hours per day on school days and all day during school holidays. (1994)

Filling Station - A building or structure, or part thereof, or any premises used in connection with tanks, pumps, and other appliances for supplying motor vehicles with gasoline, oil, water, compressed air and similar supplies, but not used for the purpose of making repairs. (1995)

Frontage, minimum – that continuous portion of a lot bordering on a road(s) from which access can be taken, that meets the minimum requirements of the underlying zoning district. (2006)

Funeral Home - A building used for the preparation of the deceased for burial and the display of the deceased and rituals connected therewith before burial or cremation. (1996)

Groundwater - Slowly moving subsurface water present in aquifers and recharge areas.

Groundwater Recharge Areas - Areas composed of permeable stratified sand and/or gravel and certain wetlands, which collect precipitation surface water and carry it to aquifers.

Hazardous or Toxic Materials or Liquids - Materials or liquids that pose a threat present or future to the environment whether in use, storage or transit, including without exception hazardous waste identified and listed in accordance with Section 3001 of the Resource Conservation and Recovery Act of 1976 as amended. (1993)

Height – the height of a building or structure shall mean the vertical distance from the average elevation of the finished grade within five feet of the building or structure to the highest point of the building or structure. (2005)

Home Occupation - Any use conducted entirely within a dwelling or an accessory building which is clearly incidental and secondary to the use of the dwelling for dwelling purposes and does not change the character thereof, and in connection with which there is no outside display or storage, nor emission of dust, noise, fumes, vibration or smoke beyond the lot line (See Article X, Para. 10.023).

Hotel/Motel - A building or any part of a building, containing rooming units without individual cooking facilities, for transient occupancy and having a common entrance(s), including an inn, motel, motor inn and tourist court, but not including a boarding house, lodging house, or bed and breakfast. (1995)

House of Worship - A building or structure, or groups of buildings or structures, that by design and construction are primarily intended for conducting organized religious services. See also Church (2001)

Independent Senior Housing Units - dwelling units for persons sixty-two (62) years of age and older. (2002)

Junkyard - An establishment or place of business which is maintained, operated, or used for storing, keeping, buying or selling junk, or for the maintenance or operation of an automotive recycling yard, and includes garbage dumps and sanitary fills. Also includes any business and any place of storage or deposit, whether in connection with another business or not, which has stored or deposited two (2) or more unregistered motor vehicles which are no longer intended or in condition for legal use on the public highways, or used parts of motor vehicles or old iron, metal, glass, paper, cordage, or other waste or discarded or second-hand material which has been a part, or

intended to be a part, of any motor vehicle, the sum of which parts or material shall be equal in bulk to two (2) or more motor vehicles. Junkyard shall also include any place of business or storage or deposit of motor vehicles purchased for the purpose of dismantling the vehicles for parts or for use of the metal for scrap and where it is intended to burn material, which are parts of a motor vehicle or cut up the parts thereof. Also, includes any yard or field used as a place of storage in which there is displayed to the public view, junk machinery or scrap metal that occupies an area of five hundred (500) square feet. (1995)

Kennel - Any lot or premises on which four (4) or more dogs other than personal pets, at least four (4) months of age, are kept, boarded or trained whether in special structures or runways or not. The foregoing definition shall specifically exclude veterinary clinics. (1983)

Leachable Wastes - Waste materials including solid wastes, sewage, sludge, and agricultural wastes that are capable of releasing waterborne contaminants to the surrounding environment.

Lot - The whole area of a single parcel of land, with ascertainable boundaries in single or joint ownership undivided by a street and established by deeds of record. (1999)

Lot line, front - the lot line of record separating a lot from a road. (2002)

Lot of Record - A lot or parcel described by metes and bounds, the description of which has been so recorded in the Hillsborough County Registry of Deeds. (1999)

Lot Use - A parcel of land occupied or capable of being occupied by a building(s) or use(s), and the buildings or uses accessory thereto, including such open spaces and yards as are required by this Ordinance. (2007)

Manufactured Housing - Any structure, transportable in one or more sections, which, when in the traveling mode, is eight (8) body feet or more in width and forty (40) body feet or more in length, or when erected on site is three hundred twenty (320) sq. ft. or more, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to required utilities, which include plumbing, heating and electrical heating systems contained herein. Manufactured housing as defined in this section does not include pre-site built housing as defined in RSA 674:31-A or recreational vehicles as defined in this code (See Pre-site Housing). (1995)

Manufactured Housing Park - A parcel of land upon which two (2) or more manufactured homes are, or are intended to be, placed and occupied as dwellings. (1995)

Manufacturing - The making of goods or materials from raw materials or unfinished products, includes assembling and processing. (1997)

Mining of Land - The removal or relocation of geological materials such as topsoil, sand, gravel, metallic ores or bedrock.

Motor Vehicle Repair Facility - A building or structure or part thereof, or any premises used for making changes, adjustments or repairs to motor vehicles, may also include structural repairs, painting and work involving use of machinery. May also include retail sale of motor vehicle parts and accessories and retail sale of petroleum products. (1995)

Motorized Vehicles Sales Facility - A building or structure, or part thereof, or any premises used for the commercial display, sale, lease, or rental of new or used internal combustion engine vehicles in operable condition and where no repair work is done. (2007)

Net Tract Area - Deleted 2007.

Nursery - The grounds and premises, private or public, on or in which nursery stock is propagated, grown or cultivated for the purpose of distributing or selling nursery stock as a business. This shall include the on-site retail

distribution of nursery stock provided, however, under this definition it is not intended that such retail distribution will be in the form of a retail store or be the principal use of the premises. (1990)

Nursery Stock - All hardy deciduous and evergreen trees and shrubs, brambles, woody vines, woody florist stock and herbaceous annuals and perennials, their roots, cuttings, grafts, scions, buds, seeds and plant parts thereof, including any collected plants, for and capable of propagation. (1990)

Office - The building, room or series of rooms in which the affairs of a business, profession or branch of government are conducted. (1995)

Open space - Permeable surface on a lot that is unoccupied by buildings, unobstructed to the sky, not devoted to service driveways or off-street parking that is available to all occupants of the premises. (1995)

Parking Space - An off-street space sufficient in size to accommodate the parking of one motor vehicle exclusive of the area necessary for internal access driveways and passageways on any site. The Planning Board shall develop such standards and requirements regulating the size and arrangement of parking spaces, as it may deem necessary and appropriate. (1985)

Person - Any individual, firm, co-partnership, corporation, company, association, joint stock association or body politic, trustee, receiver, assignee, or other similar representative thereof.

Portable Sign - Any sign that is not permanently affixed to a structure or the ground shall be considered a portable sign. (1988)

Pre-site Built Housing - Any structure designed primarily for residential occupancy which is wholly or in substantial part made, fabricated, formed or assembled in off-site manufacturing facilities in conformance with the United States Department of Housing and Urban Development minimum property standards and local building codes, for installation, or assembly and installation on the building site. For the purposes of this definition, pre-site built housing does not include manufactured housing. (See manufactured housing) (1995)

Principal Route of Access - A principal route of access within the meaning of this Ordinance shall be deemed to consist of any public way, which the Town has a duty to maintain. (1985)

Private Way - A driveway which the Town has no duty to maintain which provides access to no more than two (2) building lots but not including any Class VI Highway as defined by NH RSA and subject to Section 7.040 Private Ways. (See Driveway; Driveway, Common) (1995)

Processing and Warehousing - The storage of materials in a warehouse or terminal where such materials may be combined, broken down, or aggregated for distribution or storage and where the original material is not chemically or physically changed. Processing and warehousing is considered to be storage and shipment as opposed to manufacturing. (1997)

Processing of Natural Resources - A series of operations, usually in a continuous and regular action or succession of actions, performed to create products from materials supplied by nature. (1997)

Public Utility - Buildings, structures and facilities, including generating and switching stations, poles, lines, pipes, pumping stations, repeaters, antennas, transmitters and receivers, valves and all buildings and structures relating to the furnishing of utility services, such as electric, gas, telephone, communications, water, sewer and public transit, to the public. (1996)

Recreation, active - leisure time activities, usually of a formal nature and often performed with others, requiring equipment and taking place at prescribed places, sites, or fields. (2002)

Recreation, passive - leisure time activities that involve relatively inactive or less energetic activities such as walking, sitting, picnicking, card games, chess, checkers, or similar table games. (2002)

Recreational Facility, Commercial - A place designed and equipped for the conduct of leisure-time activities, operated as a business for profit and open to the public for a fee. This includes, but is not limited to, places of amusement such as bowling alleys, miniature golf courses, movie theaters, health and fitness clubs, sports fields, golf courses, accessory food service and concessions, and similar types of establishments. (1997)

Recreational Facility, Not-for-Profit - A place designed and equipped for the conduct of leisure-time activities open to the general public, owned and operated by a not-for-profit organization. (1996)

Recreational Vehicle - A temporary dwelling for travel, recreation, and vacation use including but not limited to, camping trailer, travel trailer, pick-up coach to be mounted on a truck chassis, or a self-propelled motor home.

Research and Development - A place devoted to activities engaged in refinement, investigation or experimental study of methods to improve processes or products. Manufacturing of products is not included within this definition. (1994)

Retail Businesses - Uses which constitute the sale of goods or the delivery of service and/or repair. (1994)

Right-of-way - a section of land acquired by easement, reservation, dedication, prescription, or condemnation, duly recorded in the Hillsborough County Registry of Deeds, and intended to be occupied by a road, crosswalk, railroad, utility lines, and/or other similar uses; and furthermore, the right to pass over the property of another. (2002)

Road - any vehicular right-of-way that: (1) is an existing federal, state, Town, or privately owned and maintained roadway; (2) is shown upon a plan approved pursuant to NH RSAs; (3) is shown on a plan duly filed and recorded in the Office of the Hillsborough County Registry of Deeds; or (4) is approved by any other official action of the Town of Milford. A road contains all the land within the right-of-way. (2002)

Roadway - the traveled portion of a road within a right-of-way. (2002)

Self-Service Storage Facilities - A structure containing separate, individual, and private storage spaces of varying sizes leased or rented on individual leases for varying periods of time. (1997)

Setback - That horizontal distance measured between the right-of-way of a road or a side or rear lot line and the closest point of any building or structure contained on the lot.

Schools - Any building, part thereof, or group of buildings, the use of which meets State requirements for elementary, secondary, vocational or higher education. (1996)

Sign - Any device for visual communication that is used for the purpose of bringing the subject thereof to the attention of the public, but not including any flag.

Solid Waste Disposal Sites - Areas for disposal of any matter consisting of putrescible material, refuse, or residue from an air pollution control facility; and other discarded or abandoned material. It includes solid, liquid, semi-solid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations and from community activities. For the purpose of this Chapter, namely RSA 149-M and the rules specified in ENV-WM 101.01 Applicability, "it does not include hazardous wastes as defined in RSA 147-A:2; solid or dissolved materials in irrigation return flows; cut or uprooted tree stumps incident to clearing of land depicted on a site plan showing burial locations and mailed to the director, provided that such burial locations are not located within seventy-five (75) feet of any well as defined in RSA 485:37; municipal and industrial discharges which are point sources subject to permits under Section 402 of the Federal Water Pollution Control Act, as amended; source, special nuclear or by-product materials as defined by the atomic energy act of 1954, as amended, or septage or sludge as defined in RSA 485-a:2, IX-a and XI a" ("Solid Waste" shall not include deceased persons). (1995)

Solid Wastes - Useless, unwanted, or discarded solid material with insufficient liquid content to be free flowing including, but not limited to rubbish, garbage, scrap materials, junk refuse, inert fill material and landscape refuse.

Structure - A combination of materials for occupancy or use, such as, but not limited to, a building, bridge, trestle, tower, tunnel, pier, wharf, fences and retaining walls over six (6) feet in height above grade, and swimming pools. (1992) (amended 2001)

Structure, Non-conforming - A structure which is lawfully maintained at the time this Ordinance became effective and which does not conform with the regulations of the district in which it is located.

Usable land - land that does not consist of wetland and slopes over fifteen (15) percent. (2002)

Use, Non-conforming - A use which is lawfully occupied or used as a structure or lot at the time this Ordinance became effective and which does not conform with the use regulations of the district in which it is located.

Veterinary Clinics - A structure in which animals are given medical or surgical treatment and are cared for during the time of treatment only. (1994)

Warehouse - A building used primarily for the storage of goods and materials. (1997)

Wetland - An area that is inundated or saturated by surface or ground water at a frequency or duration sufficient to support, and under normal conditions, does support a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands include, but are not limited to, swamps, marshes, bogs and similar areas. (1996)

Wholesale Businesses - Uses which constitute the sale of goods in quantity, usually for resale. (1994)

Yard - A required open space parallel to the lot lines which is open to the sky and unoccupied and unobstructed by a building or buildings.

Yard, Front - A yard between the building and front lot line, extending the full width of the lot or, in case of a corner lot, extending along all streets.

Yard, Rear - A yard extending between side lot lines across the rear of the lot.

Yard, Side - A yard extending from the rear line of the required front yard to the front line of the required rear yard.

ARTICLE V: ZONING DISTRICTS AND REGULATIONS

5.020 RESIDENCE "A" DISTRICT (1995)

INTENT: The intent of the Residence "A" District is to provide for low-density or low-intensity uses, primarily single-family residential on individual lots.

5.021 ACCEPTABLE USES

- A. Single-family dwellings and their accessory uses and structures
- B. Telecommunication facilities (2000)

5.022 ACCEPTABLE USES AND YARD REQUIREMENTS BY SPECIAL EXCEPTION

- A. Home occupations in accordance with Section 10.023
- B. Recreational facility, not-for-profit (1997)
- C. Day care facilities
- D. Family day care homes
- E. Churches
- F. Public utility uses necessary for public welfare
- G. Schools
- H. Reduced front, side and rear setbacks (2001)
- I. Bed & breakfast (1997)
- J. Recreational facility, commercial (1997)
- K. Building and structure height greater than allowed in 5.026.A and B (2005)
- L. Senior Housing Developments (2002)
- M. Accessory Dwelling Units (2008)

5.023 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the "A" District as either acceptable or acceptable by special exception shall be considered as not permitted.

5.024 LOT SIZES AND FRONTAGES

The minimum lot size and frontage for single-family residence and all other acceptable uses in the Residence "A" District shall be:

1. Those areas serviced by both municipal sewerage and water systems shall have lots not less than fifteen thousand (15,000) square feet in area with one hundred (100) feet of frontage on a principal route of access.
2. Those areas not serviced by both municipal sewerage and water systems shall have single-family lots not less in area than forty thousand (40,000) square feet, or larger depending on soil and slope conditions, as may be suitable to sustain development according to State standards, with one hundred fifty feet (150') of frontage on a principal route of access.

5.025 YARD REQUIREMENTS (1996)

- A. Each structure shall be set back at least thirty (30) feet from the front property line.
- B. Each structure shall be at least fifteen (15) feet from the side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.
- C. Accessory structures, one hundred-twenty (120) square feet or less, on lots serviced by municipal sewerage and water systems shall have a minimum setback from the side and rear property lines of six (6) feet.

5.026 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Residence "A" District shall be thirty-five (35) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Residence "A" District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.030 RESIDENCE "B" DISTRICT (1995)

INTENT: The intent of the Residence "B" District is to provide areas for increased residential density and other uses which are compatible with these residential densities.

5.031 ACCEPTABLE USES

- A. Single-family dwellings and their accessory uses and structures
- B. Two-family dwellings and their accessory uses and structures
- C. Multi-family dwellings with municipal sewerage and water systems and their accessory uses and structures
- D. Telecommunication facilities (2000)
- E. Senior Housing Developments (2002)

5.032 ACCEPTABLE USES AND YARD REQUIREMENTS BY SPECIAL EXCEPTION

- A. Hospital and/or related facilities licensed by the State of NH
- B. Schools
- C. Funeral homes
- D. Home occupations in accordance with Section 10.023
- E. Day care facilities
- F. Family day care homes
- G. Recreational facility, commercial (1997)
- H. Recreational facility, not-for-profit (1997)
- I. Public utilities necessary for public welfare
- J. Bed & breakfast (1997)
- K. Reduced front, side and rear setbacks, (amended 2001)
- L. Building and structure height greater than allowed in 5.038.A and B (2005)
- M. Accessory Dwelling Units (2008)

5.033 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the "B" District as either acceptable or acceptable by Special Exception shall be considered as not permitted.

5.034 ALLOWABLE DENSITY

Multi-family residences in the Residence "B" District shall adhere to the following conditions for development:

- A. Multi-family dwellings shall be served by both municipal sewerage and water systems and may have a maximum of five (5) units per acre. The maximum density may be reduced by the Planning Board based on recommendations of other qualified consultants.
 - 1. Section Deleted. (2007)
- B. In the conversion of an existing house to apartments or multi-family dwellings, a maximum of five (5) units per acre of land associated with the existing house shall be permitted, given the following conditions:
 - 1. The proposal meets the standards set forth for maximum density (5.034), yard requirements (5.036) and usable open space (5.037). (1996)

5.035 LOT SIZES AND FRONTAGES (1987)

- A. The following provisions shall apply to all other acceptable uses in this District, except single family residences.
 - 1. In those areas serviced by both municipal sewerage and water systems, the minimum lot size in Residence "B" shall have as a minimum, twenty thousand (20,000) square feet in area with one hundred fifty (150) feet of frontage on a principal route of access.
 - 2. In those Residential "B" areas not serviced by both municipal sewerage and water systems, the minimum lot size shall be sixty thousand (60,000) square feet in area or larger, depending on soil and slope conditions, as may be necessary to sustain development according to state standard with two hundred, twenty-five (225) feet of frontage on a principal route of access.
- B. The minimum lot size and frontage for a single-family residence in this District shall be the same as those set forth for the Residence "A" District in section 5.024 of this article.

5.036 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be at least fifteen (15) feet from side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.

5.037 OPEN SPACE

Open space shall be provided for all uses, other than single-family and two-family dwellings in an amount equal to not less than thirty (30) percent of the total lot area.

5.038 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Residence "B" District shall be thirty-five (35) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Residence "B" District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.040 RESIDENCE "R" DISTRICT (2001)

INTENT: The intent of the Residence "R" District is to provide for low-density residential and agricultural land uses, and other compatible land uses, that are sensitive to the rural character and environmental constraints existing in the district.

5.041 ACCEPTABLE USES

- A. One single-family dwelling and its accessory uses and structures, per lot
- B. Agriculture (1997)
- C. One single family manufactured housing unit, per lot
- D. Harvesting of natural resources
- E. Telecommunication facilities (2000)

5.042 ACCEPTABLE USES BY SPECIAL EXCEPTION

- A. One two-family dwelling per lot (2001)
- B. Veterinary clinics
- C. Home occupations in accordance with Section 10.023
- D. Day care facilities
- E. Family day care home
- F. Schools
- G. Reduced front, side and rear setbacks (2001)
- H. Bed & breakfast (1997)
- I. Processing of natural resources on parcels of a minimum ten (10) acres in size (1997)
- J. Recreational facility, not-for-profit (1997)
- K. Recreational facility, commercial (1997)
- L. Self-service storage facilities in accordance with Section 10.024 (1997)
- M. Churches and Houses of Worship (2001)
- N. Building and structure height greater than allowed in 5.047.A or B. (2005)
- O. Accessory Dwelling Units (2008)

5.043 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the "R" District as either acceptable or acceptable by Special Exception shall be considered as not permitted.

5.044 LOT SIZES AND FRONTAGES

- A. The minimum lot size and frontage for a single-family dwelling or a single-family manufactured housing unit and all other permitted uses, unless stated otherwise, in the residence "R" District shall be two (2) acres (87,120 SF), or greater, depending on soil and slope conditions, with a minimum two hundred (200) feet of frontage on a principal route of access.
- B. The minimum lot size and frontage for a two-family dwelling as allowed by Special Exception in the Residence "R" District shall be four (4) acres (174,240 SF), or greater, depending on soil and slope conditions, with a minimum three hundred (300) feet of frontage on a principal route of access.

5.045 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be at least fifteen (15) feet from side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.

5.046 OPEN SPACE

Open space shall be provided for all uses, other than single family and two-family dwellings, in an amount equal to not less than thirty (30) percent of the total lot area.

5.047 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Residence "R" District shall be thirty-five (35) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Residence "R" District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.050 COMMERCIAL DISTRICT (1995)

INTENT: The intent of this District is to provide areas for those businesses, institutional, financial, governmental and compatible residential uses which constitute the commercial requirements of the Town.

5.051 ACCEPTABLE USES

- A. Retail businesses
- B. Wholesale businesses
- C. Restaurants
- D. Filling stations and motor vehicle repair facilities
- E. Offices
- F. Banks and financial institutions
- G. Hospitals and/or medical facilities licensed by the State of New Hampshire
- H. Schools
- I. Hotels/motels
- J. Churches
- K. Bed & breakfast (1997)
- L. Laundries and dry cleaning
- M. Newspaper and job printing
- N. Funeral homes
- O. Single-family dwellings and their accessory uses and structures, with their respective related conditions set forth in Residence "A" District
- P. Two-family and multi-family dwellings and their accessory uses and structures, with their respective related conditions set forth in Residence "B"
- Q. Home occupations in accordance with Section 10.023
- R. Recreational facility, not-for-profit (1997)
- S. Recreational facility, commercial (1997)
- T. Telecommunication facilities (2000)
- U. Motorized vehicles sales facilities (2007)
- V. Senior Housing Developments (2002)

5.052 ACCEPTABLE USES AND YARD REQUIREMENTS BY SPECIAL EXCEPTION

- A. Day care facilities
- B. Family day care homes
- C. Reduced front, side and rear setbacks.
- D. Manufacturing in accordance with Section 10.025. (2003)
- E. Building and structure greater than allowed in 5.058.A and B. (2005)
- F. Accessory Dwelling Units (2008)

5.053 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the Commercial District as either acceptable or acceptable by Special Exception shall be considered as not permitted.

5.054 LOT SIZES AND FRONTAGES

- A. In those areas serviced by both municipal sewerage and water systems, the minimum lot size in Commercial District shall be twenty thousand (20,000) square feet, together with one hundred and fifty (150) feet of frontage on the principal route of access.
- B. In those commercial areas not serviced by municipal sewerage and water systems, the minimum lot size shall be sixty thousand (60,000) square feet, together with two hundred twenty-five (225) feet of frontage on the principal route of access.

5.055 YARD REQUIREMENTS (1995)

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be at least fifteen (15) feet from side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.

5.056 OPEN SPACE

Open space shall be provided for all uses, other than single family and two-family dwellings, in an amount equal to not less than thirty (30) percent of the total lot area.

5.057 OVAL SUBDISTRICT -Exemption from yard and Open Space requirements (2007)

The following area shall be exempt from the open space and yard requirements for all allowable uses in the Commercial District except multi-family residences: bounded by and beginning at the intersection of Great Brook and the Souhegan River, proceeding East along the southern bank of the Souhegan River to the Swinging Bridge, proceeding south along the west line of Pine Street to the intersection with Nashua Street, continuing south along the west line of Franklin Street to its intersection with High Street, then proceeding west along the north line of High Street and continuing west along the south line of Lot 39 on Tax Map 25 to the southwest corner of that parcel intersection with Great Brook and then proceeding north along the east bank of Great Brook to the beginning.

5.058 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Commercial District shall be forty (40) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Commercial District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.060 INDUSTRIAL DISTRICT (1995)

INTENT: The intent of the Industrial District is to provide areas for manufacturing, processing, assembly, wholesaling, research and development.

5.061 ACCEPTABLE USES

- A. Harvesting and/or processing of natural resources
- B. Manufacturing (from Light manufacturing 2003)
- C. Office buildings in excess of fifteen thousand (15,000) square feet
- D. Research and development
- E. Distribution and mailing facilities
- F. Processing and warehousing
- G. Telecommunication facilities (2000)

5.062 ACCEPTABLE USES AND YARD REQUIREMENTS BY SPECIAL EXCEPTION

- A. Building and structure greater than allowed in 5.067.A and B (2005)
- B. Accessory Dwelling Units for existing single-family dwellings (2008)

5.063 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the Industrial District as either Acceptable or Acceptable by Special Exception shall be considered as not permitted.

5.064 LOT SIZES AND FRONTAGES

- A. In those areas serviced by both municipal sewerage and water systems, no minimum lot size and frontage shall be required, other than those requirements that relate to usable open space so long as access to sewer and water is obtained.
- B. In those areas not serviced by municipal sewerage and water systems, a minimum of forty thousand (40,000) square feet shall be required, depending on soil and slope. No minimum frontage shall be required.

5.065 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be at least fifteen (15) feet from side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.

5.066 OPEN SPACE

Open space shall be provided for all uses in an amount equal to not less than thirty (30) percent of the total lot area.

5.067 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Industrial District shall be forty (40) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Industrial District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.070 LIMITED COMMERCIAL-BUSINESS DISTRICT (1988)

INTENT: The intent of the Limited Commercial-Business District is to provide areas for those business activities which are compatible with surrounding residential neighborhoods.

5.071 ACCEPTABLE USES

- A. Offices
- B. Hospitals and/or medical facilities licensed by the State of NH
- C. Schools
- D. Bed and breakfast
- E. Churches
- F. Funeral homes
- G. Single-family dwellings and their accessory uses and structures, with their respective related conditions set forth in the Residence "A" District
- H. Two-family and multi-family dwellings and their accessory uses and structures, with their related conditions set forth in the Residence "B" District
- I. Home occupations in accordance with Section 10.023
- J. Telecommunication facilities (2000)
- K. Senior Housing Developments (2002)

5.072 ACCEPTABLE USES AND YARD REQUIREMENTS BY SPECIAL EXCEPTION

- A. Day care facilities
- B. Family day care homes
- C. Recreational facility, not-for-profit (1997)
- D. Reduced front, side and rear setbacks.
- E. Building and structure height greater than allowed in 5.077.A and B (2005)
- F. Accessory Dwelling Units (2008)

5.073 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the Limited Commercial-Business District as either Acceptable or Acceptable by Special Exception shall be considered as not permitted.

5.074 LOT SIZES AND FRONTAGES

- A. In those areas serviced by both municipal sewerage and water systems, the minimum lot size in Limited Commercial-Business District shall be twenty thousand (20,000) square feet, together with one hundred and fifty (150) feet of frontage on the principal route of access.
- B. In those Limited Commercial-Business areas not serviced by municipal sewerage and water systems, the minimum lot size shall be sixty-thousand (60,000) square feet, together with two hundred twenty-five (225) feet of frontage on the principal route of access.

5.075 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be at least fifteen (15) feet from the side and rear property lines. In case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the street, lane or public way.

5.076 OPEN SPACE

Open space shall be provided for all uses, other than single-family and two-family dwellings, in an amount equal to not less than thirty (30) percent of the total lot area.

5.077 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Limited Commercial-Business District shall be thirty-five (35) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Limited Commercial-Business District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.080 INTEGRATED COMMERCIAL-INDUSTRIAL DISTRICT (ICI) (1995)

INTENT: The intent of the Integrated Commercial-Industrial District is to provide an area for sales and service activities, both wholesale and retail, as well as industrial activities. This District is intended to be the area in which vehicular oriented business can occur.

5.081 ACCEPTABLE USES

- A. Wholesale businesses
- B. Retail businesses
- C. Restaurants
- D. Offices
- E. Hotels/motels
- F. Day care facilities as an accessory to the principal use
- G. Public utility uses necessary for public welfare
- H. Manufacturing (from Light manufacturing 2003)
- I. Distribution and mailing facilities
- J. Research and development laboratories
- K. Motor vehicle repair facilities
- L. Harvesting of natural resources
- M. Banks and financial institutions
- N. Processing and warehousing (1997)
- O. Adult Entertainment Businesses (2000)
- P. Telecommunication facilities (2000)
- Q. Motorized vehicles sales facilities (2007)

5.082 ACCEPTABLE USES BY SPECIAL EXCEPTION

- A. Schools
- B. Recreational facility, not-for-profit (1997)
- C. Recreational facility, commercial (1997)
- D. Processing of natural resources (1997)
- E. Building and structure height greater than allowed in 5.087.A and B (2005)
- F. Senior Housing Developments (2002)
- G. Accessory Dwelling Units for existing single-family dwellings (2008)

5.083 USES NOT SPECIFIED (1997)

Any uses of land and/or structures not specifically included in the ICI (Integrated Commercial-Industrial) District as either Acceptable or Acceptable by Special Exception shall be considered as not permitted.

5.084 LOT SIZES AND FRONTAGES

- A. In those areas serviced by both municipal sewerage and water systems, the minimum lot size in the Integrated Commercial-Industrial District shall be twenty thousand (20,000) square feet, together with a minimum of one hundred fifty (150) feet of frontage on the principal route of access.

- B. In those areas not serviced by municipal sewerage and water systems, a minimum of forty thousand (40,000) square feet shall be required, depending upon soil and slope conditions, together with a minimum of one hundred fifty (150) feet of frontage on the principal route of access.

5.085 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be set back at least fifteen (15) feet from side and rear property lines. In the case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the public way.

5.086 OPEN SPACE

Open space shall be provided in an amount equal to not less than thirty (30) percent of the total lot area.

5.087 HEIGHT REQUIREMENTS (2005)

- A. The maximum height of a building or structure in the Integrated Commercial-Industrial District shall be forty (40) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Integrated Commercial-Industrial District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

5.090 INTEGRATED COMMERCIAL-INDUSTRIAL 2 (ICI-2) (2007)

Intent: The intent of the Integrated Commercial-Industrial 2 District is to provide an area for mixed commercial and industrial development in commercial and industrial park-like settings.

5.091 ACCEPTABLE USES

- A. Wholesale businesses
- B. Retail businesses
- C. Restaurants
- D. Offices
- E. Hotels/motels
- F. Day care facilities as an accessory use to the principal use
- G. Public utility uses necessary for public welfare
- H. Manufacturing
- I. Distribution and mailing facilities
- J. Research and development
- K. Motor vehicle repair facilities
- L. Harvesting of natural resources
- M. Processing and warehousing
- N. Telecommunication facilities
- O. Recreational facility, commercial

5.092 ACCEPTABLE USES BY SPECIAL EXCEPTION

- A. Schools
- B. Processing of natural resources
- C. Building and structure height greater than allowed in 5.097 A and B
- D. Accessory Dwelling Units for existing single-family dwellings (2008)

5.093 USES NOT SPECIFIED

Any uses of land and/or structures not specifically included in the ICI-2 (Integrated Commercial-Industrial 2) District as either Acceptable or Acceptable by Special Exception shall be considered as not Permitted.

5.094 LOT SIZES AND FRONTAGES

- A. In those areas serviced by both municipal sewerage and water systems, the minimum lot size in the ICI-2 (Integrated Commercial-Industrial 2) District shall be twenty thousand (20,000) square feet, together with a minimum of one hundred fifty (150) feet of frontage on the principal route of access.
- B. In those areas not serviced by municipal sewerage and water systems, a minimum of forty thousand (40,000) square feet shall be required, depending upon soil and slope conditions, together with a minimum of one hundred fifty (150) feet of frontage on the principal route of access.

5.095 YARD REQUIREMENTS

- A. Each structure shall be set back at least thirty (30) feet from the front lot line.
- B. Each structure shall be set back at least (15) feet from side and rear property lines. In the case of a corner lot, the side distance shall be increased to thirty (30) feet on the side bordering the public way.

5.096 OPEN SPACE

Open space shall be provided in an amount equal to not less than thirty (30) percent of the total lot area.

5.097 HEIGHT REQUIREMENTS

- A. The maximum height of a building or structure in the Integrated Commercial-Industrial 2 (ICI-2) District shall be forty (40) feet, except as noted in B. below.
- B. The maximum height of school and municipal buildings or structures in the Integrated Commercial-Industrial 2 (ICI-2) District shall be forty-five (45) feet.
- C. A Special Exception shall be required for heights greater than allowed in either A. or B. above.

ARTICLE VI: OVERLAY DISTRICTS

6.010 GROUNDWATER PROTECTION DISTRICT (2003)

6.011 GENERAL

A. PURPOSE

In the interest of public health, safety, and general welfare, the purpose of this ordinance is to preserve, maintain, and protect from contamination existing and potential groundwater supply areas.

This is to be accomplished by regulating land uses that could contribute pollutants to existing and/or planned public and/or private wells and/or ground water resources identified as being needed for present and/or future public water supply.

B. DEFINITIONS

Groundwater: subsurface water that occurs beneath the water table in soils and geologic formations. [RSA 485-C, Groundwater Protection Act]

Impervious: (with respect to stormwater infiltration) not readily permitting the infiltration of water.

Impervious surface: (with respect to containment of regulated substances) a surface through which regulated substances cannot pass when spilled. Impervious surfaces include concrete unless unsealed cracks or holes are present. Asphalt, earthen, wooden, or gravel surfaces; or other surfaces which could react with or dissolve when in contact with the substances stored on them are not considered impervious surfaces. [Env-Ws 421.03(c)]

Junkyard: An establishment or place of business which is maintained, operated, or used for storing, keeping, buying or selling junk, or for the maintenance or operation of an automotive recycling yard, and includes garbage dumps and sanitary fills. Also includes any business and any place of storage or deposit, whether in connection with another business or not, which has stored or deposited two (2) or more unregistered motor vehicles which are no longer intended or in condition for legal use on the public highways, or used parts of motor vehicles or old iron, metal, glass, paper, cordage, or other waste or discarded or second-hand material which has been a part, or intended to be a part, of any motor vehicle, the sum of which parts or material shall be equal in bulk to two (2) or more motor vehicles. Junkyard shall also include any place of business or storage or deposit of motor vehicles purchased or acquired for the purpose of dismantling the vehicles for parts or for use of the metal for scrap. Also, includes any yard or field used as a place of storage in which there is displayed to the public view, junk machinery or scrap metal that occupies an area of five hundred (500) square feet. The word does not include any motor vehicle dealers registered with the department of motor vehicles under RSA 261:104 and in compliance with RSA 236:126.

Outdoor storage: storage of materials where they are not protected from the elements by a roof, walls, and a floor with an impervious surface.

Public water system: a system for the provision to the public of piped water for human consumption, if such system has at least fifteen (15) service connections or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year. [RSA 485:1-a, XV]

Regulated substance: petroleum, petroleum products, and substances listed under 40 CFR 302, 7-1-90 edition or as amended, excluding the following substances: (1) ammonia, (2) sodium hypochlorite, (3) sodium hydroxide, (4) acetic acid, (5) sulfuric acid, (6) potassium hydroxide, (7) potassium permanganate, and (8) propane and other liquefied fuels which exist as gases at normal atmospheric temperature and pressure. [1-7 are used in the treatment of water supplies and are not considered to pose a significant risk to groundwater]

Sanitary protective radius : The area around a well, which must be maintained in its natural state as required by Env-Ws 378 or 379 (for community water systems) and Env-Ws 372.13 (for other public water systems).

Secondary containment: a structure such as a berm or a dike with an impervious surface that is adequate to hold at least one hundred ten (110) percent of the volume of the largest regulated substance container that will be stored. [Env-Ws 421.03(g)]

Snow dump: a location where snow, which is cleared from roadways and/or motor vehicle parking areas, is placed for disposal.

Stratified-drift aquifer: A geologic formation of predominantly well-sorted sediment deposited by or in bodies of glacial meltwater including gravel, sand, silt, or clay, which contains sufficient saturated permeable material to yield significant quantities of water to wells. [RSA 485-C:2, XIV]

Surface water: streams, lakes and ponds, including marshes, watercourses and other bodies of water, natural or artificial. [RSA 485-A:2 XIV]

Temporary Storage: means storage for less than six months.

Wellhead protection area: The surface and subsurface area surrounding a water well or well-field supplying a community water system, through which contaminants are reasonably likely to move toward and reach such water well or well-field. [RSA 485-C:2, XVIII]

C. LOCATION

The Groundwater Protection District includes all land areas designated as Level I and/or Level II Protection Areas on the map entitled “Groundwater Protection District - Milford, NH”, dated October 24, 2002 or as amended. A copy of the map is located in the offices of the Town of Milford Planning Department.

The Groundwater Protection District is an overlay district which is superimposed over the existing underlying zoning.

D. APPLICABILITY

This Ordinance applies to all uses in the Groundwater Protection District, except for those uses exempt under 6.013.E of this Ordinance.

6.012 PERFORMANCE STANDARDS

The following Performance Standards apply to all uses in the Groundwater Protection District unless exempt under 6.013.E

- A. For any use that will render impervious more than fifteen (15) percent or more than two thousand five hundred (2,500) square feet of any lot, whichever is greater, a stormwater management plan shall be prepared which the planning board determines is consistent with Town of Milford Regulations;
- B. Stormwater management plans prepared pursuant to paragraph A shall demonstrate that stormwater recharged to groundwater will not result in violation of Ambient Groundwater Quality Standards (Env-Wm 1403.05) at the property boundary;
- C. All stormwater discharges to surface waters must be in compliance with EPA Phase II regulations;
- D. Post development stormwater discharges must be no greater than predevelopment stormwater discharges;
- E. Animal manures, fertilizers, and compost must be stored in accordance with Manual of Best Management Practices for Agriculture in New Hampshire, NH Department of Agriculture, Markets, and Food, August 1998, and any subsequent revisions;

- F. All regulated substances stored in containers with a capacity of five (5) gallons or more must be stored in product-tight containers on an impervious surface designed and maintained to prevent flow to exposed soils, floor drains, and outside drains;
- G. Facilities where regulated substances are stored must be secured against unauthorized entry by means of a door and/or gate which is locked when authorized personnel are not present;
- H. Outdoor storage areas for regulated substances must be protected from exposure to precipitation and must be located at least one hundred (100) feet from surface water or storm drains, at least seventy-five (75) feet from private wells, and outside the sanitary protective radius of wells used by public water systems;
- I. Secondary containment must be provided for outdoor storage of regulated substances if an aggregate of three hundred thirty (330) gallons or more of regulated substances are stored outdoors on any particular property;
- J. Containers in which regulated substances are stored must be clearly and visibly labeled and must be kept closed and sealed when material is not being transferred from one container to another.

6.013 USES

A. PERMITTED USES

All uses permitted by Milford Zoning Ordinance in the underlying district or allowed by special exception in the underlying district are permitted in the Groundwater Protection District unless they are Prohibited Uses, 6.013B or Uses Requiring a Permit, 6.013C. All uses must comply with 6.012 Performance Standards unless specifically exempt under section 6.013E.

B. PROHIBITED USES

The following uses are prohibited in the Groundwater Protection District Level I Protection Area:

1. The siting or operation of a hazardous waste disposal facility as defined under RSA 147-A;
2. The siting or operation of a solid waste landfill;
3. The outdoor storage of road salt or other deicing chemicals in bulk;
4. The siting or operation of a junkyard;
5. The siting or operation of a snow dump;
6. The siting or operation of a wastewater or septage lagoon;
7. Storage of liquid petroleum products, except the following:
 - a. That product necessary for the private business use occupying the lot, subject to all applicable State and Federal requirements. The aggregate tank capacity on each lot shall not exceed five thousand (5,000) gallons. No wholesale or retail sale of petroleum products.
 - b. Normal household use and heating of a structure;
 - c. Waste oil retention facilities required by statute, rule, or regulation;
 - d. Emergency generators required by statute, rule, or regulation;
 - e. Treatment works approved by NHDES for treatment of ground or surface waters;

Provided that such storage, listed in items a. through e. above, is in free-standing containers within buildings or above ground with secondary containment adequate to contain a spill one hundred ten (110) percent the size of the aggregate capacity of the stored containers.

C. USES REQUIRING A PERMIT IN LEVEL I AND/OR LEVEL II

1. The Code Administrator may grant a Permit for a use which is otherwise permitted within the underlying district, if the permitted use is or is involved in the storage, handling and/or use of a regulated substance in quantities exceeding five (5) gallons or forty (40) pounds dry weight at any one time. Prior to issuing a permit, a containment plan shall be provided or in place to prevent, contain, and/or minimize releases from a spill, which may cause large releases of regulated substances.
2. Planning Board approval is required for any use that will render impervious more than fifteen (15) percent or two thousand five hundred (2,500) square feet of any lot, whichever is greater.
 - a. Prior to the granting of such approval, the Code Administrator must first determine that the proposed use is not a prohibited use.
 - b. The Planning Board shall determine that the use will be in compliance with all the Performance Standards as well as all applicable local, state and federal requirements. The Planning Board may, at its discretion, require a performance guarantee or bond, in an amount and with surety conditions satisfactory to the Board, to be posted to ensure completion of construction of any facilities required for compliance with the Performance Standards.

D. EXISTING NONCONFORMING USES

Existing nonconforming uses may continue without expanding or changing to another nonconforming use, but must be in compliance with all applicable state and federal requirements, including NH Code of Administrative Rules Env-Ws 421, Best Management Practices.

E. EXEMPTIONS

The following uses are exempt from the specified provisions of this ordinance as long as they are in compliance with all applicable local, state, and federal requirements:

1. All private residences are exempt from the provisions of this ordinance provided no portion of the residence is part of a home business that violates the standards or conditions set forth in sections 6.012 and 6.013 of this ordinance;
2. Any business or facility where regulated substances are not stored in containers with a capacity of five (5) gallons or more is exempt from Performance Standards G through J;
3. Storage of heating fuels for on-site use or fuels for emergency electric generation, provided that storage tanks are indoors on an impervious concrete floor or have corrosion control, leak detection, and secondary containment in place, is exempt from Performance Standard G;
4. Storage of motor fuel in tanks attached to vehicles and fitted with permanent fuel lines to enable the fuel to be used by that vehicle is exempt from Performance Standards G through J;
5. Storage and use of office supplies is exempt from Performance Standards G through J;

6. Temporary storage of construction materials on a site where they are to be used is exempt from Performance Standards G through J;
7. The sale, transportation, and use of pesticides as defined in RSA 430:29 XXVI. are exempt from all provisions of this ordinance;
8. Household hazardous waste collection projects regulated under NH Code of Administrative Rules Env-Wm 401.03(b)(1) and 501.01(b) are exempt from Performance Standards G through J.

6.014 ADMINISTRATIVE

A. RELATIONSHIP BETWEEN STATE AND LOCAL REQUIREMENTS

Where both the State and the municipality have existing requirements the more stringent shall govern.

B. MAINTENANCE AND INSPECTION

1. For uses requiring planning board approval for any reason, a narrative description of maintenance requirements for structures required to comply with 6.012 Performance Standards, shall be recorded so as to run with the land on which such structures are located, at the Town of Milford Planning Department. All maintenance required is the responsibility of the owner and as such shall be maintained by the owner. The description so prepared shall comply with the requirements of RSA 478:4-a.
2. Inspections may be required to verify compliance with 6.012 Performance Standards. Such inspections shall be performed by the Code Administrator at reasonable times with prior notice to the landowner.
3. All properties within the Groundwater Protection District known to the Code Administrator as using or storing regulated substances in containers with a capacity of five (5) gallons or more, except for facilities where all regulated substances storage is exempt from this Ordinance under section 6.013E, shall be subject to inspections under this section.
4. The Board of Selectmen may require a fee for compliance inspections. The fee shall be paid by the property owner. A fee schedule shall be established by the Board of Selectmen as provided for in RSA 41:9-a.
5. Underground storage tank systems and above-ground storage tank systems that are in compliance with applicable state rules are exempt from inspections under 6.014.B of this ordinance.

C. ENFORCEMENT PROCEDURES AND PENALTIES

Any violation of the requirements of this ordinance shall be subject to the enforcement procedures and penalties in RSA 676.

D. SAVING CLAUSE

If any provision of this ordinance is found to be unenforceable, such provision shall be considered separable and shall not be construed to invalidate the remainder of the ordinance.

6.020 WETLAND CONSERVATION DISTRICT (2003)

6.021 GENERAL

- A. The Wetland Conservation District shall be considered as overlaying any other district established by this ordinance. Any use permitted in the portions of the district so overlaid shall only be permitted subject to all provisions of this section.
- B. Except for the permitted uses as listed in 6.025 of this section, there shall be no impact of wetlands or surface waters, unless all federal, state and local permits are in place.
- C. All impacts to wetlands shall be regulated in accordance with NH Code of Administrative Rules, Wt. 100-800 and require the receipt of the appropriate permit from the State of New Hampshire Department of Environmental Services Wetlands Bureau. The state process requires a review by the Milford Conservation Commission.
- D. The Milford Conservation Commission, established under RSA 36-A, has statutory standing before the Department of Environmental Services under RSA 482-A:11, III and provides a local source of assistance to both the department and the applicants for Dredge & Fill Permits.
- E. A special exception approved by the Milford Zoning Board of Adjustment shall be required for any use within the wetland except for those listed in 6.025. Note that state and/or federal permits may be required for uses not requiring a special exception under this ordinance.

6.022 PURPOSE

By the authority granted in New Hampshire RSA 674:16-17 and 674:20-21, the purpose of the Wetlands Conservation District is to protect the values and functions of wetlands, surface waters and their associated buffer zones. It is further intended, but shall not be limited to:

- A. Protect the public health, safety, general welfare and property;
- B. Reduce sedimentation of wetlands and surface waters;
- C. Aid in the control of non-point pollution;
- D. Provide a vegetative cover in the case of the buffer zones for filtration of runoff and the prevention of erosion;
- E. Protect fish spawning grounds, aquatic life, and bird and other wildlife habitats;
- F. Conserve natural beauty and open spaces;
- G. Preserve ponds, rivers and streams in their natural state,
- H. Protect persons and property from flood damage by preserving the natural flood storage areas,
- I. Control the development of structures and land uses which contribute to the pollution of surface and groundwater by sewerage, hazardous substances or siltation;
- J. Protect aquifers, which serve as existing or potential water supplies as well as the aquifer recharge system;
- K. Prevent unnecessary or excessive expenses to the Town to provide and maintain essential services and utilities which arise because of the inharmonious use of wetlands;

6.023 LOCATION OF THE WETLAND CONSERVATION DISTRICT

The areas within the town of Milford to which this section applies are as follows:

- A. **Streams:** This includes both perennial and intermittent streams wherever fresh water flows for sufficient time to develop and maintain a defined channel. The area of the stream shall lie within the banks as defined by the ordinary high water mark established by the fluctuations of water and indicated by physical characteristics such as a clear natural line impressed on the immediate bank, or shelving, or changes in the character of the

soil, destruction of terrestrial vegetation, the presence of litter and debris, or other appropriate means that consider the characteristics of the surrounding areas.

- B. **Ponds:** The pond area shall be the extent of water at the full pond as determined by the top of the impoundment structure in artificial ponds or by the natural high water mark in natural ponds.
- C. **Wetlands:** A wetland area shall be delineated based on hydrophytic vegetation, hydric soils and wetland hydrology in accordance with techniques outlined in the Corps of Engineers wetlands Delineation Manual, Technical Report Y-87-1 (January 1987).
- D. **Buffers:** The buffer area shall be measured from the edge of any stream, pond, or wetland in a horizontal plane. The buffer is the area adjacent to a wetland and/or open water which should be kept free of uses that may introduce or facilitate pollution, sedimentation or other harmful effects to the wetland. The buffer shall include the area within twenty-five (25) feet from any wetland, stream, or pond area. For the water bodies named in 6.023 E, the buffer shall be fifty (50) feet from the edge of any stream, pond, or wetland in a horizontal plane.
- E. **Surface waters with 50 foot buffer area:** These water bodies are marked on a copy of the 7.5 minute USGS Milford Quadrangle Photo revised 1985 map located in the Planning Department. A copy of said map with the water bodies marked on it shall also be in the Conservation Commission Office.

The following water bodies together with any adjacent very poorly drained wetlands are protected by a fifty (50) foot buffer.

1. **Birch Brook:** from its commencement at the wetland lying between Whitten Road and Chappell Drive to its junction with Great Brook,
2. **Compressor Brook:** from its commencement as follows:
 - a. Compressor Brook, East Branch: from its entry into Milford at the Milford/Brookline Town Line in the southeast portion of Milford to its junction with Compressor Brook south of Melendy Road and east of Ruonala Road,
 - b. Compressor Brook, West Branch: from its beginning at a wetland on the west side of Ball Hill Road to its junction with Compressor Brook, East Branch, as described in a. above,
 - c. Compressor Brook: from the junction of the East Branch and the West Branch south of Melendy Road and east of Ruonala Road to its junction with Great Brook,
3. **Great Brook:** from its commencement at Mile Slip Road, approximately one thousand five hundred (1,500) feet south of Mason Rd. to Railroad Pond, and from Railroad Pond to the Souhegan River, including its passage through said pond,
4. **Hartshorn Brook:** from the Mont Vernon/Milford Town line, through Hartshorn Pond to its junction with the Souhegan River,
5. **Mitchell Brook:** from its entrance into Milford at the Milford/Mason Town line to its junction with Spaulding Brook,
6. **Ox Brook:** from its beginning in a wetland west of Melendy Road to its junction with Compressor Brook,
7. **Purgatory Brook:** from its entrance into Milford at the Milford/Lyndeborough Town line, to its junction with the Souhegan River,

8. **Spaulding Brook:** from its entrance into Milford at the Milford/Mason Town line to its exit from Milford at the Milford/Brookline Town line,
9. **Tucker Brook:** from its entrance into Milford in the vicinity of the granite bound on the Milford/Wilton Town line, to its junction with the Souhegan River,
10. **Compressor Pond,**
11. **Hartshorn Pond,**
12. **Railroad Pond,**
13. **Osgood Pond,**
14. **Souhegan River**

F. Surface waters with one hundred (100) foot buffer:

Peatlands: Due to their rarity and fragility, these unique wetlands shall be protected by a one hundred (100) foot buffer.

G. Comprehensive Shoreland Protection Act

Osgood Pond and the Souhegan River shall also be subject to the Comprehensive Shoreland Protection Act, New Hampshire RSA 483-b as may be amended from time to time. The Comprehensive Shoreland Protection Act addresses activities within two hundred and fifty (250) feet of great ponds and fourth order streams. The Souhegan River is a fourth order stream.

6.024 DEFINITIONS

Bank/Edge of Wet: the transitional slope immediately adjacent to the edge *of* a surface water body, the upper limit of which is usually defined by a break in slope, or, for a wetland, where a line delineated in accordance with Wetland Bureau Code of Administrative Rules Chapter Wt 301.01 indicates a change from wetland to upland.

Buffer: an upland area adjacent to a wetland and/or surface water which serves to filter surface water flowing into the wetland.

Bog: a wetland distinguished by stunted evergreen trees and shrubs, peat deposits, poor drainage, and/or highly acidic soils and/or water conditions.

Great Pond: Any natural water body having an area of ten (10) acres or more.

Fen: unique wetlands characterized by saturated organic soils (well-decomposed peat) fed by neutral to somewhat alkaline groundwater.

Marsh: a wetland that is distinguished by the absence of trees and shrubs, which is dominated by soft-stemmed herbaceous plants such as grasses, reeds, and sedges; and where the water table is at or above the surface throughout the year, but can fluctuate seasonally.

Peatlands: wetlands with thick organic soil, often with a characteristic floating mat of mosses, sedges, shrubs, and/or trees in very acidic conditions, includes bogs and fens.

Stream, Intermittent: a place where water flows for sufficient duration and/or in sufficient quantity to maintain a channel.

Stream, Perennial: any channel, natural or man made, which has water present for twelve (12) months of a normal year but which may dry up during a period in which the rainfall is less than sixty (60) per cent of average for more than three consecutive months.

Surface water: perennial and intermittent streams, lakes, ponds, marshes, watercourses, and other bodies of water, natural or artificial.

Very poorly drained: water is removed from the soil so slowly that free water remains at or on the surface during most of the growing season.

Wetland: an area that is inundated or saturated by surface or ground water at a frequency and duration sufficient to support and that under normal conditions does support, a prevalence of vegetation typically adapted for life in saturated soil conditions.

6.025 A SPECIAL EXCEPTION IS NOT REQUIRED FOR:

- A. **Wetlands:** Any of the following uses that do not alter the surface configuration by the addition of fill, removal of soil, or obstruct in any manner the natural flow of ground or surface water, or disturb in any manner the ground itself to any depth and that are otherwise permitted by the Zoning Ordinance.
1. Projects that fall under the Wetland Bureau's Minimum Impact Expedited Permit Application. These projects, however, must be reviewed by the Conservation Commission prior to approval by the Wetlands Bureau.
 2. Repair or reconstruction of an existing legal structure that meets the following conditions:
 - a. Where the size, location and configuration remain the same
 - b. There shall be no work on any portion of the structure located in wetlands and/or surface waters.
 - c. The work shall not require the utilization of tracked or wheeled equipment in the water or wetland;
 - d. The structure has not been abandoned. Failure to maintain an existing structure in a state so that it is functional, and intact, for a period of five (5) years shall be prima facie evidence of abandonment or non-use.
 3. Mowing or cutting of vegetation in a wet meadow, red maple swamp, hemlock swamp, spruce/fir swamp, or white pine swamp, provided that the roots of the vegetation are not disturbed, and that the ground is frozen or sufficiently dry to avoid making ruts and that the area is stabilized once thawed and that the project is not located in prime wetlands.
 4. Hand raking of leaves or other organic debris from the shoreline or lake bed provided that:
 - a. At the time raking is done, the area is exposed by draw down, or
 - b. Raking does not disturb vegetative roots and is limited to less than nine-hundred (900) square feet of area.
 5. Removal of a beaver dam by hand or machine provided:
 - a. Machinery does not enter the water or create any impact by filling or dredging to adjacent surface waters, wetlands, or their banks;
 - b. All dredged materials are placed out of wetlands and out of the defined buffer area, and
 - c. Removal of the dam is done in a gradual manner that does not allow a sudden release of impounded water to cause erosion or siltation.
 6. Addition of native vegetation to enhance wetlands, but not the removal of wetlands vegetation except as provided in 6.025-A:3.
 7. Drilling of test wells by a public agency for purposes of exploring for public water supplies or hazardous materials.
 8. Other activities as noted in NH Wetlands Bureau Code of Administrative Rules Wt. 303.05.

- B. Buffer Zones:** Any of the following uses that do not alter the surface configuration by the addition of fill, removal of soil, or obstruct in any manner the natural flow of ground or surface water, or disturb in any manner the ground itself to any depth and that are otherwise permitted by the Zoning Ordinance.
1. All projects as described in the Wetland Bureau's Minimum Impact Expedited Permit Application
 - a. Buildings and structures not to exceed one hundred twenty (120) square feet and without sanitary plumbing and raised above-ground on concrete or similar blocks placed on the ground surface in such a manner as to permit the natural flow of any surface water,
 - b. Decks raised above the ground so as to permit the natural flow of any surface waters,
 - c. Potable water supply wells and their associated water lines and associated power lines, provided there are adequate erosion control measures in place during work and repair of any disturbance,
 - d. Monitoring wells for observation purposes, provided there are adequate erosion control measures in place during work and there is repair of any disturbance,
 - e. Forestry and tree farming in accordance with good silvicultural practices,
 - f. Agriculture, including growing and harvesting of crops.

6.026 A SPECIAL EXCEPTION IS REQUIRED FOR:

- A. Wetland:** Any project that requires a NH Wetlands Bureau Standard Dredge & Fill Permit and is not in the right-of-way of a public road shall require a Special Exception from the Milford Zoning Board of Adjustment.

Standard Dredge & Fill Permit is required if the proposed work includes any one or more of the following:

1. Temporary or permanent construction in a bog, marsh, or Atlantic white cedar swamp.
2. Dredge or fill for the purpose of creating a buildable lot. This does not include driveway crossings.
3. Fill to obtain adequate setback under NH DES subsurface systems bureau rules.
4. Impact of fifty (50) or more linear feet, measured along the shoreline, of a lake or pond or its bank.
5. Alteration of the course of or disturbance of fifty (50) or more linear feet, measured along the thread of the channel, of an intermittent stream channel or its banks or construction during periods when the stream is flowing.
6. Combined temporary and permanent impacts of more than three thousand (3,000) square feet in a swamp or wet meadow.
7. Relates to other work done on the property within the last twelve (12) months which, when taken in aggregate, would exceed minimum impact criteria.
8. Any work within a wetland on the property that has already begun or was previously completed without a permit.
9. Dredge or fill in a great pond.
10. Work in a perennial stream.

- B. Buffer:** a Special Exception is required for:
Any project not listed in 6.025 that involves the impact of more than three thousand (3,000) square feet of buffer, and is not in the right-of-way of a public road, shall require a Special Exception from the Milford Zoning Board of Adjustment.
- C.** The Board of Adjustment, in acting on an application for a special exception in the Wetlands Conservation District, shall take into consideration the conditions as noted in 10.021.
- D.** The Board of Adjustment may grant a Special Exception for such projects after the application for the Special Exception has been reviewed and reported upon by the Milford Conservation Commission and forwarded to the Board of Adjustment within forty (40) days of a public meeting at which the Conservation Commission first received detailed plans on the project.

- E. The Planning Board may also be required to submit a report to the Board of Adjustment, if requested by the Board of Adjustment. The Planning Board shall submit its report within the above specified forty (40) day period.

6.027 CRITERIA FOR EVALUATION

- A. For all projects requiring a Special Exception the applicant shall demonstrate by plan or example that the following factors have been considered in their design:
 - 1. The need for the proposed project;
 - 2. The plan proposed is the alternative with the least impact to the wetlands, surface waters and/or their associated buffers;
 - 3. The impact on plants, fish and wildlife;
 - 4. The impact on the quantity and/or quality of surface and ground water;
 - 5. The potential to cause or increase flooding, erosion, or sedimentation;
 - 6. The cumulative impact that would result if all parties owning or abutting a portion of the affected wetland, wetland complex and/or buffer area were also permitted alterations to the wetland and buffer proportional to the extent of their property rights;
 - 7. The impact of the proposed project on the values and functions of the total wetland or wetland complex.
- B. The Town of Milford shall place emphasis in preserving peatlands and marshes. This priority shall be based upon the rarity of those environments and the difficulty in restoration of the value and function of those environments.

6.030 FLOODPLAIN MANAGEMENT DISTRICT (2007)

6.031 PURPOSE

It is the purpose of this Ordinance to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas of the Town of Milford by the establishment of standards designed to:

- A. Protect human life and public health;
- B. Minimize expenditure of money for costly flood control projects;
- C. Minimize the need for rescue and relief efforts associated with flooding;
- D. Minimize prolonged business and employment interruptions;
- E. Minimize damage to public facilities and utilities;
- F. Help maintain a stable tax base;
- G. Insure that purchasers of property are notified of special flood hazards; and
- H. Insure that persons who occupy areas of special flood hazard assume responsibility for their actions. To insure continued eligibility of owners of property in the Town of Milford for participation in the National Flood Insurance Program pursuant to the rules and regulations published in the Federal Register (Vol. 41, Number 207, 10/26/76).
- I. Area of Applicability
This Ordinance is applicable to the "Areas of Special Flood Hazard" which are delineated on map entitled "Flood Insurance Rate Maps, Hillsborough County, NH", and as such, zones may be amended from time to time by such administration, which map is hereby made a part of this Ordinance and is hereinafter referred to as "Flood Insurance Map". Said map is based on a document entitled " Flood Insurance Study for the County of Hillsborough, NH" prepared by Federal Emergency Management Agency (FEMA), which is part of this document.
- J. Requirement
Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations, may be made within the "Special Flood Hazard Area" only in accordance with the requirement of this Ordinance.
- K. Other Restrictions
This Ordinance is not intended to repeal, abrogate or impair any easements or other laws, regulations or ordinances, and whichever imposes the more stringent restrictions shall prevail.
- L. Interpretation
In the interpretation and application of this Ordinance, all provisions shall be considered as minimum requirements and shall be construed so as to preserve and maintain the purpose and intent hereof.
- M. Warning and disclaimer of liability
The degree of flood protection established by this Ordinance is considered reasonable for town wide regulatory purposes and is based on available scientific and engineering studies. Larger floods may occur on rare occasions, and flood heights may increase as a result of man-made or natural causes. This Ordinance does not imply that land outside of "Special Flood Hazard Areas" will be free from flooding or flood damages. This Ordinance shall not create liability on the part of the Town of Milford, any officer or employee thereof or the Federal Insurance Administration for any flood damages that result from reliance on this Ordinance or any administrative decision lawfully made hereunder.

6.032 DEFINITIONS

Certain terms and phrases used in this Ordinance are hereinafter defined and explained. Otherwise, the words in this Ordinance shall have the meaning commonly attributed to them.

Area of special flood hazard - The land in the floodplain within the Town of Milford subject to a one percent or greater chance of flooding in any given year. The areas are designated as Zones A or AE on the Flood Insurance Rate Map.

Base flood - The flood having a one percent chance of being equaled or exceeded in any given year.

Basement - Any area of the building having its floor subgrade (below ground level) on all sides.

Building - See "structure"

Breakaway Wall - A wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or supporting foundation,

Development - Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operation or storage of equipment or materials.

FEMA - Federal Emergency Management Agency

Flood or Flooding - A general and temporary condition of partial or complete inundation of normally dry land areas from:

A. The overflow of inland or tidal waters; or

B. The unusual and rapid accumulation or runoff of surface waters from any source.

Flood Elevation Study - An examination evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mud slide (i.e. mud flow) and/or flood related erosion hazards.

Flood Insurance Rate Map (FIRM) - An official map of a community, on which the Federal Emergency Management Agency has delineated both the special hazard areas and the risk premium zones applicable to the community.

Flood Insurance Study - See "Flood Elevation Study"

Floodplain or Flood Prone Area - Any land area susceptible to being inundated by water from any source (See definition of "Flooding")

Floodproofing - Any combination of structural and non-structural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Floodway - See "Regulatory Floodway"

Functional Dependent Use - A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Highest Adjacent Grade - The highest natural elevation of the ground surface prior to construction next to the proposed wall of a structure.

Historic Structure - any structure that is:

- A. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the secretary to qualify as a registered historic district;
- C. Individually listed on a State Inventory of Historic Places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
- D. Individually listed on a local Inventory of Historic Places in communities with historic preservation programs that have been certified either:
 1. By an approved state program as determined by the Secretary of the Interior; or
 2. Directly by the Secretary of the Interior in states without approved programs.

Lowest Floor - The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this Ordinance.

Manufactured Home - A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than 180 consecutive days. This includes manufactured homes located in a manufactured home park or subdivision. For insurance purposes the term "manufactured home" does not include park trailers, travel trailers or other similar vehicles.

Manufactured Home Park or Subdivision - A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Mean Sea Level - For purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's flood insurance rate map are referenced.

New Construction - For the purposes of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, new construction means structures for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and includes any subsequent improvements to such structures.

100-year Flood - See "Base Flood"

Recreational Vehicle - a vehicle which is:

- A. Built on a single chassis, and;
- B. Four hundred (400) square feet or less when measured at the largest horizontal projection, and;

C. Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use.

Regulatory Floodway - The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot at any point. These areas are designated as Floodways on the Flood Boundary and Floodway Maps.

Riverine - Relating to, formed by or resembling a river (including tributaries), stream, brook, etc.

Special Flood Hazard Area – see Area of Special Flood Hazard

Start of Construction - Includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within one hundred-eighty (180) days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; or does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

Structure - For floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

Substantial Damage - Damage of any origin sustained by a structure whereby the cost of restoring the structure to it's before damaged condition would equal fifty (50) per cent of the market value of the structure before the damage occurred.

Substantial Improvement - Any combination of repairs, reconstruction, alteration or improvements to a structure in which the cumulative cost equals or exceeds fifty percent of the market value of the structure. The market value of the structure should equal:

- A. The appraised value prior to the start of the initial repair or improvement, or
- B. In the case of damage, the value of the structure prior to the damage occurring.

For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures that have incurred substantial damage, regardless of actual repair work performed. The terms does not, however, include any project for improvement of a structure required to comply with existing health, sanitary or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a "historic structure", provided that the alterations will not preclude the structure's continued designation as a "historic structure".

Violation – The failure of a structure or other development to be fully compliant with the community's flood plain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in 44CFR §60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) is presumed to be in violation until such time as that documentation is provided.

Water Surface Elevation - The height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929 (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

6.033 PERMITS

- A. All proposed developments in any special flood hazard areas shall require a permit.
- B. The building inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a flood prone area, all new construction and substantial improvements shall (i) be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, (ii) be constructed with materials resistant to flood damage, (iii) be constructed by methods and practices that minimize flood damages and, (iv) be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
- C. Where the new and replacement water and sewer systems (including on-site systems) are proposed in flood prone areas the applicant shall provide the building inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.
- D. The building inspector shall maintain for public inspection, and furnish upon request, any certification of floodproofing and the as-built elevation (in relation to mean sea level) of the lowest flood (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement. If the structure has been floodproofed, the as-built elevation (in relation to mean sea level) to which the structure was floodproofed. This information must be furnished by the applicant.
- E. The building inspector shall review proposed developments to assure that all necessary permits have been received from those governmental agencies from which approval is required by federal or state law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. It shall be the responsibility of the applicant to certify these assurances to the building inspector.
- F. In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Bureau of the New Hampshire Department of Environmental Services and submit copies of such notification to the Building Inspector, in addition to the copies requested by RSA 482-A:3. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector, including notice of all scheduled hearings before the Wetlands Bureau. (2006)
- G. Within the altered or relocated portion of any watercourse, the applicant shall submit to the building inspector, certification provided by a registered professional engineer assuring that the flood carrying capacity of the watercourse has been maintained.
- H. Along watercourses that have a designated Regulatory Floodway no encroachments, including fill, new construction, substantial improvements and other development are allowed within the Regulatory Floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed that encroachment would not result in any increase in flood levels within the community during the base flood discharge.
- I. Until a Regulatory Floodway is designated along watercourses, no new construction, substantial improvements or other development (including fill) shall be permitted within Zone AE on the FIRM, unless it is demonstrated by the applicant that the cumulative effect of the proposed development, when combined with all existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

- J. The Building Inspector shall obtain, review and reasonably utilize any floodway data available from Federal, State or other sources as criteria for requiring that all development located in Zone A meet the following floodway requirement:
- K. “No encroachments, including fill, new construction, substantial improvements, and other development are allowed within the floodway that would result in any increase in flood levels within the community during the base flood discharge.”
- L. For all new or substantially improved structures located in Zone A or AE, the applicant shall furnish the following information to the Building Inspector:
 - 1. The as-built elevation (in relation to NGVD) of the lowest floor (including basement) and include whether or not such structures contain a basement.
 - 2. If the structure has been floodproofed, the as-built elevation (in relation to NGVD) to which the structure was floodproofed.
 - 3. Any certification of floodproofing.

The Building Inspector shall maintain the aforementioned information for public inspection, and shall furnish such information upon request.

6.034 CRITERIA

- A. In special flood hazard areas the building inspector shall determine the one hundred (100) year flood elevation in the following order of precedence according to the data available:
 - 1. In Zone AE refers to the elevation provided in the communities flood insurance study and accompanying FIRM or FHBM.
 - 2. In unnumbered A zones the building inspector shall obtain, review and reasonably utilize any one hundred (100) year flood elevation data available from federal, state, development proposals submitted to the community (example subdivisions, site approvals, etc.) or other source.
- B. The building inspector's one hundred (100) year flood elevation determination will be used as criteria for requiring in Zone AE and A that:
 - 1. All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the one hundred (100) year flood level;
 - 2. At all new construction and substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the one hundred (100) year flood level; or together with attendant utility and sanitary facilities, shall:
 - a. Be floodproofed so that below the one hundred (100) year elevation the structure is watertight with walls substantially impermeable to the passage of water;
 - b. Have structural components of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and
 - c. Be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section.
 - 3. All manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest flood of the manufactured home is at or above the base flood level; be securely anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

4. For all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted providing the enclosed areas meet the following requirements: (1) the enclosed area is unfinished or flood resistant, usable solely for parking of vehicles, building access or storage; (2) the area is not a basement; (3) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers or other coverings or devices provided that they permit the automatic entry and exit of floodwaters;
5. Recreational vehicles placed on sites within Zone AE and A shall either: (1) be on the site for fewer than one hundred twenty (120) consecutive days, (11) be fully licensed and ready for highway use, or (111) meet all standards of Section 61.3 (B1) of the National Flood Insurance Program Regulations and the elevation and anchoring requirements for "manufactured homes" in Paragraph (c) (6) of section of 60.3.

6.035 APPEALS AND VARIANCES

A. The Zoning Board of Adjustment of the Town of Milford shall hear and decide Appeals and Requests for Variances from the standards of the Ordinance. Such Board shall have the following duties:

1. To hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the town engineer or consultant in the enforcement and administration of this Ordinance,
2. To issue variances from the standards of this Ordinance under the general considerations set forth in Section 6.035.B and conditions for variance specified in section 6.035.C and
3. To issue variances for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places and the New Hampshire State Inventory of Historic Places without regard to the consideration and conditions of Para. 6.035.B and 6.035.C

B. General Considerations

In passing upon applications for variance, the Zoning Board of Adjustment shall consider:

1. The technical evaluations and studies that are the basis for this Ordinance.
2. The standards of this Ordinance and the following:
 - a. The danger that materials may be swept onto other lands to the injury of others,
 - b. The danger to life and property due to flooding or erosion damage;
 - c. The susceptibility of the proposed development and its contents to flow damage and the effect of such damage on the individual owner;
 - d. The importance of the services provided to the community by the proposed development;
 - e. The necessity of a waterfront location for the function of the development;
 - f. The availability of alternative locations for the proposed development which are not subject to flooding or erosion damage;
 - g. The compatibility of the proposed development to the plan of development for the town and the floodplain management program for that area;
 - h. The relationship of the proposed development to the plan of development for the town and the floodplain management program for that area;
 - i. The safety of access to the property in times of flood for ordinary and emergency vehicles;
 - j. The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected to the site; and

- k. The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems and streets and bridges.

C. Conditions for Variance

The following are conditions applicable to the issuance of variances by the Zoning Board of Adjustment.

1. No variance shall be issued within a floodway if any increase in flood levels during the base flood discharge will result,
2. Otherwise, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in area when the lot is contiguous to and generally surrounded by lots with existing structures constructed below the base flood elevation, provided that the following criteria are met:
 - a. Showing a good and sufficient cause,
 - b. A determination that failure to grant the variance would result in exceptional hardship to the applicant, and
 - c. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, use fraud on or victimization of the public, or conflict with other existing town laws, ordinances and regulations. Variances shall only be issued upon determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
 - d. When issuing a variance, the Board may attach such conditions that it deems necessary to further the purpose and intent of this Ordinance.

6.036 EFFECTIVE DATE AND FILING

A variance issued under this Ordinance shall become effective at such time as is fixed by the Zoning Board of Adjustment, provided a copy thereof shall be filed in the office of the Milford town clerk and in the land records of the Town of Milford in the same manner as required for filing the variances from zoning regulations.

6.037 NOTICES AND RECORDS

The town engineer or consultant shall notify the applicant for a variance in writing that:

- A. The issuance of a variance to construct a structure below the base flood elevation will result in increased premiums for flood insurance (Federal Register of October 26, 1976: increased premium rates for flood insurance may be as much as twenty-five (25) dollars for two hundred (200) dollars of insurance coverage, and
- B. Such construction below the base flood elevation increases risks to life and property. The Town shall maintain a record of all variance actions including the justification for their issuance and shall report such variances issued in his annual report to the Federal Insurance Administration.

6.038 APPEAL TO COURT

Any person or persons severally or jointly aggrieved by any decision of the Zoning Board of Adjustment acting under this Ordinance, or any person owning land which abuts or is within a radius of one hundred (100) feet of any portion of the land involved in any decision of said Board, or any office, board or commission of the Town of Milford, having jurisdiction or responsibility over flood hazards in the town, may take an appeal to the superior court of the county of judicial district in which such municipality is located in the same manner as provided under provisions of Section 8-8 to the General Statutes of the State of New Hampshire (3/10/81 - adopted by the Town of Milford).

6.040 OPEN SPACE AND CONSERVATION ZONING DISTRICT (2004)

6.041 PURPOSE

- A. To create permanently protected open space without decreasing the allowable density of the site;
- B. To promote the preservation of and to minimize the negative impact on environmental resources, including but not limited to: streams, ponds, floodplains, wetlands, steep slopes, scenic views, open fields, farmland, wildlife habitat, habitat of rare and endangered species, and historic sites and features;
- C. To enhance the quality of life with the provision of space for walking, passive recreation, and aesthetic enjoyment;
- D. To provide for low impact active recreational opportunities, where appropriate. Low impact, for the purpose of this ordinance, shall preclude formal recreation fields or structures intended for year round use;
- E. To provide greater flexibility and efficiency in the siting and design of roads and services;
- F. To discourage sprawling, land consuming forms of development.

6.042 GENERAL REGULATIONS

- A. Any plan submitted under the Open Space and Conservation Zoning District section of the Town of Milford's Zoning Ordinance (hereinafter Open Space Preservation Design or OSPD) shall mean a development in which the provisions of this Section are met.
- B. All Open Space shall be dedicated as permanently preserved from future development.
- C. The overall density shall not exceed that which would be allowed in the underlying district.
- D. Open Space set asides are ineligible as contributing land area in any subsequent development.
- E. Permitted uses are the same as those allowed in the underlying district.

6.043 LOCATION AND SCOPE OF AUTHORITY

- A. The Open Space and Conservation Zoning District is an overlay district which imposes additional requirements and restrictions to those of the underlying base district established under the powers granted under NH RSA 674:21. In cases of conflict between the requirements of this district and the requirements presented elsewhere in the Town of Milford's Zoning Ordinance, the provisions of this District shall apply.
- B. All subdivisions of land into five (5) or more residential lots, or developments of five (5) or more dwelling units, must incorporate the criteria in OSPD, except as set forth below. The Planning Board will examine the subdivision proposal using the list of resources desirable for preservation (see Open Space Design 6.044:D.1) to ensure that the proposed open space is consistent with the criteria set forth and the purpose of the District. At the discretion of the Planning Board, and if the proposed development does not meet the criteria, the development may be required to incorporate the criteria of a conventional subdivision as permitted by the underlying zoning district.
- C. Properties with subdivision proposals of four (4) or fewer residential lots or for development of four (4) or fewer dwelling units, will be examined by the Planning Board using the list of resources desirable for preservation (see Open Space Design 6.044:D.1). At the discretion of the Planning Board, these developments may be required to incorporate the criteria in OSPD.
- D. Developments of four (4) or fewer lots, or four (4) or fewer dwelling units, that have not been identified by the Planning Board as needing to comply with OSPD, are exempt from the OSPD requirement, provided there is

no potential for further subdivision or development of any lots or dwelling units therein or of the parcel from which the four (4) or fewer lots or dwelling units have been subdivided.

- E. Residential subdivisions of land in any District, where each lot is at least 5 times the size required in the underlying district, shall be exempt from OSPD requirements, provided the deed and the subdivision plan for each lot(s) contains a restriction prohibiting the further subdivision of the lot(s).
- F. When a subdivision or development is proposed which includes a lot(s) which may be capable of further subdivision or development, the Planning Board may require that a conceptual, long range plan for the entire parent parcel be presented so that the Board may consider the entirety of a parcel and its impacts. This long-range plan is non-binding. Any future development of the lot or lots will be reviewed by the Planning Board with reference to this long-range plan.

6.044 OPEN SPACE DESIGN

- A. Every OSPD shall avoid or minimize adverse impacts on the town's natural, cultural and historic resources by incorporating permanently protected Open Space into the design.
- B. The Minimum Required Open Space for all OSPD's is thirty (30) percent of the gross tract area.
- C. Of the minimum required Open Space one hundred (100) percent must consist of non-wetland soils and soils with slopes less than twenty-five (25) percent. Open Space dedicated in excess of the minimum required area may contain any percentage of wetland soils or steep slopes. If the OSPD is a Senior Housing Development, as defined in Section 7.070 of the Zoning Ordinance, the green space requirements of Section 7.074.E shall apply.

D. Design Standards:

1. List of Resources to Consider for Preservation:

- a. Open water, waterways, stream channels, floodplains and very poorly drained soils, including adjacent buffer areas as defined in 6.020 Wetland Protection District;
- b. The habitat of species listed as endangered, threatened, or of special concern by the NH Natural Heritage Inventory and/or by the NH Fish & Game Department's Non-game & Endangered Wildlife Program;
- c. Moderate slopes, fifteen to twenty-five (15-25) percent, and steep slopes, greater than twenty-five (25) percent, particularly those adjoining water courses and ponds.
- d. Prime (Federal designation) and Important (State designation) Agricultural Soils, as shown on the Agricultural Soils Map in the current Milford Conservation Plan;
- e. Historic sites and features;
- f. Existing or planned trails connecting the tract to other locations, including, but not limited to, the trails on the Town Wide Trails Map maintained by the Milford Conservation Commission of formal and informal trails;
- g. Other space or resources as required by the Planning Board for recreational use consistent with Section 6.041.

2. Design and Use considerations for preserved Open Space:

- a. The preserved open space shall include as many of the resources listed in Section 6.044.D.1 (Resources to Consider for Preservation) as practical;

- b. The preserved open space shall be free of all structures except historic sites, features, and structures related to permitted open space uses;
- c. Subsurface disposal systems may not be placed in the preserved open space;
- d. Water supplies may be placed in the preserved open space;
- e. Stormwater management systems may, at the discretion of the Planning Board, be placed in the preserved open space;
- f. Preserved open space shall, unless privately owned, be accessible to the lots or units within the development, and to the general public if publicly owned;
- g. Narrow open space strips shall not be permitted unless the incorporation of the open space strips provides a logical and practical link to, or expansion of, either existing or known planned adjacent preserved open space;
- h. Preserved open spaces shall be interconnected wherever possible to provide a continuous network of open space lands within and adjoining the development;
- i. Public access, regardless of ownership, shall be provided to trails if they are linked to other publicly accessible pathway systems.

E. Protection and Ownership:

1. All open space shall be permanently protected by a conservation easement or by covenants and restrictions in perpetuity, approved by the Planning Board after review by the Conservation Commission. The Planning Board may require further legal review of any documents submitted, the cost of which shall be borne by the applicant. Ownership of the open space may be held by:
 - a. A homeowners association or other legal entity under New Hampshire State Statutes, or
 - b. Private ownership, protected by a conservation easement and limited to not-for-profit parks, and not-for-profit recreation areas or commercial agriculture and forestry; or
 - c. A non-profit organization, the principal purpose of which is the conservation of open space; or
 - d. The Town of Milford, through the deeding process, subject to approval of the Planning Board and Board of Selectmen, with a trust clause insuring that it be maintained as open space in perpetuity.
2. Open space ownership shall be at the discretion of the Board of Selectmen, in consultation with the Planning Board, Conservation Commission and other Town Boards and Departments as deemed necessary. The Planning Board will be responsible to provide a recommendation on ownership of the preserved open space to the Board of Selectmen for its consideration and acceptance.

6.045 DENSITY AND DIMENSIONAL STANDARDS

A. Density:

1. The density of the proposed development shall be equal to or less than the density allowed in a conventional development;
2. The maximum density of the proposed development shall be established by a preliminary plan showing the number of lots or units which could be constructed in a conventional subdivision without any special exceptions and/or waivers for lot frontage, area, road and driveway grades, dead-end road length, and soil types suitable for subsurface disposal systems (if used).

B. Dimensional Standards:

1. Lot size, frontage, and setbacks will be project specific and are subject to the approval of the Planning Board. Individual lot size, frontage, building envelopes, and setbacks shall be tabulated on the plan. At its discretion, the Planning Board may waive Sections 6.045.B.2, 3, and 4 relative to frontage and setback requirements.
2. The minimum lot frontage shall be fifty (50) feet.
3. The minimum lot width with the building envelope shall be seventy-five (75) feet. For the purpose of this section of the Zoning Ordinance, the building envelope shall be defined as the building area to fifteen (15) feet outside of the proposed building footprint, including attached walkways, porches, decks, retaining walls, and other such appurtenances that are necessary or desired for construction of the building.
4. The building shall be setback at least thirty (30) feet from the front and rear property lines. The building shall be at least fifteen (15) feet from the side property lines.
5. Village Plan alternatives as outlined in RSA 674:21.VI shall be permitted. No increase in density will be permitted.
6. All lots and/or structures within the OSPD, built adjacent to a perimeter boundary of the development or with frontage on or adjacent to an existing public road shall conform to all building setbacks and lot frontages as required in the underlying zoning district.
7. The Planning Board may require site plans for individual lots containing slopes greater than fifteen (15) percent, soils rated as having "severe" limitations for septic systems if not on municipal sewer (as determined by the USDA), and very poorly drained soils.

6.050 NASHUA AND ELM STREETS CORRIDOR OVERLAY DISTRICT (2008)

6.051 AUTHORITY

- A. Title – This Ordinance shall be known as the Nashua and Elm Streets Corridor Overlay District.
- B. Authority – The Planning Board is hereby authorized to administer this ordinance under the provisions set forth in RSA 674:21, Innovative Land Use Controls.

6.052 PURPOSE

The purpose of this ordinance is to implement the Town of Milford's vision for the future as set forth in the Community Character Chapter of the Master Plan 2007 Update:

Goal No. 2: Foster the traditional character of Milford's neighborhoods by encouraging a human scale of development that is similar in setbacks, size and height, and that is comfortable and safe for pedestrians and non-motorized vehicles while allowing for an efficient and safe roadway network.

In carrying out this goal, this Ordinance is designed to accomplish the following:

- A. Promote development that reflects the intended character of Milford's residential, commercial, and industrial neighborhoods relative to height, lot coverage, and setbacks.
- B. Encourage the development of entryway corridors and gateways relative to architectural and historic heritage, landscaping, stormwater management, traffic management, and parking.
- C. Preserve and enhance the architectural and visual character of the corridors.
- D. Encourage development to reflect the historic pattern of development in Town and enhance Milford's sense of community and place.
- E. Encourage attractive pedestrian scale development.
- F. Improve the overall streetscape of major corridors.
- G. Improve transportation efficiency.
- H. Promote alternative modes of transportation, particularly pedestrian and biking.

The following standards are tools that create a flexible framework to guide the appearance of future development that is compatible with the historic nature of Milford, while allowing for innovation and architectural creativity in order to enhance a special place.

6.053 FINDINGS

- A. The Nashua and Elm Streets corridor is becoming increasingly congested due to additional curb cuts and traffic from both local and regional development.
- B. Access management will increase the efficiency, safety and mobility of the corridor.
- C. Inter-site connections are needed to reduce the potential conflict points along major corridors.
- D. Milford's historical architecture is recognized as an important element of community character.
- E. Non-residential development that is indifferent to Milford's architectural heritage constitutes a significant threat to the character and future of the community.
- F. Future development can be guided to encourage building design that is functional, aesthetically pleasing and compatible with the architectural heritage of the community.
- G. The architecture of the community is varied and necessarily will evolve as the community grows. The regulation of architectural design must allow for flexibility, creativity and innovation within the context of an articulated framework.

6.054 APPLICABILITY

The provisions as set forth in this ordinance shall apply to the following activities within the Corridor Overlay District:

- A. Applications for site plan and subdivision review.
- B. New building construction used for non-residential or multi-family purposes.
- C. Additions or alterations to buildings used for non-residential or multi-family purposes which significantly increases or decreases the square footage of a building.
- D. Additions or alterations to a site plan or buildings used for non-residential or multi-family purposes which significantly alter the visual appearance of the site or a façade visible from a public way.

6.055 DISTRICT BOUNDARIES

The Nashua and Elm Streets Corridor Overlay District boundaries include the area along Nashua and Elm Streets from Ponemah Hill Road to (and including) Granite Town Plaza, more fully depicted on the map entitled “Nashua and Elm Streets Corridor Overlay District Boundaries” dated 8/6/07, and incorporating the Tax Map lots as listed in Appendix I.

6.056 PERFORMANCE STANDARDS

A. General

- 1. Pre-Application Review. The Community Development Director, or designee, shall review all proposals to determine applicability as stated in Section IV above.
- 2. Development Review. Upon determination by the Community Development Director, or designee, that an application meets the Section IV applicability requirements, the applicant shall consult with the Planning Board using the Development Review Procedure set forth in the Town of Milford Site Plan and Subdivision Regulations.
- 3. Consistency with Plans. In addition to providing the required development review information, the applicant shall demonstrate how the proposed plan will address the specific site recommendations as well as the general principles set forth in the following studies and documents:
 - a. *Evaluation of Highway Improvement Alternatives in Milford, NH (2002)*; Prepared by Hoyle, Tanner and Associates
 - b. *Route 101A Corridor Master Plan and Improvements Program, (2002)*; Prepared by VHB and Nashua Regional Planning Commission
 - c. *Milford Transportation and Community Systems Preservation (TCSP) Plan (2006)*; Prepared by Nashua Regional Planning Commission
 - d. *Town of Milford Design Guidelines (2007)*; Prepared by Nashua Regional Planning Commission

B. Transportation Standards

1. **Access Management:**

- a. All projects subject shall construct wherever feasible interconnecting driveways to adjacent properties or provide secure future connections through easements to adjacent property boundaries. This includes bicycle-pedestrian access to adjacent residential developments, where practical.
- b. New access points onto Nashua or Elm streets shall only be created when it is not feasible to combine or share existing access points.
- c. Interior parking lots shall provide for shared use and interconnected drives

- d. Interior driveways should provide adequate throat length for vehicle stacking (queuing) and unobstructed views for exiting safely.
 - e. Interconnecting driveways shall promote vehicular and pedestrian access between adjacent lots without accessing the roadway.
2. **Transit Facilities.** The development of future transit facilities shall be incorporated within all major site plan developments that could generate high volumes of transit use, particularly senior housing or other multi-family housing as well as retail areas.
- a. Potential transit routes, access points, bus pull-outs, bus stop, signage and shelter locations may be designated along major roadways and within the perimeter of such projects, and easements reserved for such facilities.
 - b. Transit facilities shall be provided in a manner to encourage transit as an alternative mode of travel.
3. **Bicycle Facilities.** Separate bicycle facilities may be required by the Planning Board where recommended by the studies listed in section VI.A.2. or where otherwise appropriate.
- a. Bicycle routes may be provided in the form of a separate off-street path or on-street marked bicycle lanes.
 - b. Bicycle racks and other amenities may be required for all developments and shall be located in a convenient and secure location.
4. **Pedestrian Facilities.** Sidewalks shall be constructed as recommended by the studies listed in section VI.A.2. or where otherwise appropriate.
- a. Sidewalk corridors shall be easily accessible to all users, whatever their level of ability and comply with the Americans with Disabilities Act (ADA) standards.
 - b. The sidewalk shall provide for a landscaped buffer (esplanade) between the roadway pavement and the sidewalk where adequate right of way exists.
 - c. The walking route along a sidewalk corridor shall connect destinations and shall not require pedestrians to travel out of their way unnecessarily.
 - d. Buildings should be sited so as to create pedestrian-scale plazas and gathering places.
 - e. Sidewalk construction shall be in accordance with Department of Public Works specifications.
5. **Gateways.** Some locations contribute to the landscape character of the community because of their location and scenic qualities. Many such properties and approaches act as gateways, providing first impressions and reinforcing Milford's sense of place. Consideration should be given towards complementing these resources through the careful siting of new buildings, and the application of the Site Design Standards. The locations of proposed gateways are identified on the Nashua and Elm Streets Corridor Overlay District Boundary Map. In these areas, appropriate landscaping or other improvements may be required.
- Nashua Street Neighborhood Gateway – Ponemah Hill Road and Nashua Street
 - Elm Street Neighborhood Gateway – Elm Street at Granite Town Plaza
 - Oval Area Gateways –
 - Elm Street and Cottage Street
 - Nashua Street and Tonella Road
 - Other potential gateway locations outside of the District which should be considered for special treatment include:
 - Amherst Street and Souhegan Street (outside of St. Patrick's Church)

- Mont Vernon Street and Granite Street
- South Street and Lincoln/Prospect Street

C. Site Design Standards

1. **Natural Features.** Buildings, lots, impervious surfaces and accessory structures shall be sited in those portions of the site that have the most suitable conditions for development.
 - a. Environmentally sensitive areas, including but not limited to, wetlands, steep slopes in excess of 15%, floodplains, significant wildlife habitats and corridors, wooded areas, fisheries, scenic areas, habitat for rare and endangered plants and animals, unique natural communities and natural areas, and sand and gravel aquifers, shall be maintained and preserved to the maximum extent.
 - b. Natural drainage areas shall be preserved to the maximum extent. The development shall include appropriate measures for protecting these resources, including but not limited to, modification of the proposed design of the site, timing of construction, and limiting the extent of excavation.

2. **Parking Areas**
 - a. Parking lots shall be located to the rear or side of a building.
 - b. Parking shall not be permitted in front of a building or along the frontage of a lot.
 - c. Side yard parking shall be well buffered from the street.
 - d. Shared parking provisions for any combination of uses on site and adjacent sites are encouraged.
 - e. Off site parking shall be protected with a shared parking easement agreement which shall be reviewed and recorded with the approved plans, except in areas exempt from parking standards such as but not limited to the Oval Sub-district.

3. **Build-to-Zone.** Building setbacks influence the character of the street. New structures shall be constructed so as to maintain a traditional streetscape edge. The setbacks of adjacent structures and context of spacing between buildings shall be considered in determining the appropriate building setback. At a minimum, a new structure shall be constructed within a Build-to-Zone between 15’ and 35’ from the public street right of way. If site circumstances dictate a new structure may be constructed within 10’ of the public street right of way.

4. **Landscaping.** Required landscaping coverage shall be in accordance with the Town of Milford Subdivision and Site Plan Regulations, and shall be required for all proposals in the Nashua and Elm Streets Corridor Overlay District.
 - a. Trees. Required street trees should be species which are native to New Hampshire as set forth on the “*List of NH Native Trees*” (as amended) published by UNH Cooperative Extension (See Appendix II). Recognizing that site and growing conditions vary other appropriate street trees may be considered and approved by the Planning Board.
 - b. Landscaping plants. Landscaping with native plants and materials is strongly encouraged. However, recognizing the need to accommodate varying site and growing conditions, non-native landscaping plants may be permitted in accordance with published recommendations from the UNH Cooperative Extension and Hillsborough County Conservation District. See “*Alternatives to Invasive Landscape Plants*”, UNH Cooperative Extension (as amended).
 - c. Prohibited Plants and Trees. Plant species as listed on the “*NH Prohibited Invasive Species List*” (as amended) by the NH Department of Agriculture are prohibited. As of 2007, the list includes the species listed in Appendix III (*aquatic species not listed*).

C. Architectural Design Standards

1. General Criteria

- a. Plans shall show all building elevations and portray the design of all buildings and the relationship of the development to surrounding properties, buildings, natural features and built features.
 - b. The Planning Board may require that development proposals be reviewed by an historic preservation consultant or architect, and be designed by a NH licensed architect at the cost of the applicant.
2. **Building Orientation.** New structures shall orient their main entrance or storefront to a public street.
- a. New structures shall maintain an appropriate street edge in relationship to adjacent structures. (See VI.C.3. Build-to-Zone)
 - b. Buildings shall be sited so that entrances are clearly identifiable and directly accessible from a sidewalk and shall be accessible for pedestrians, bicyclists and future public transit users.
3. **Building Massing, Forms and Pedestrian Scale.** The size, mass and form of new structures must relate to the appropriate scale of neighboring buildings as well as the context of the corridor. The following architectural features and treatments should be used to enhance the character of new development and the corridor:
- a. Avoid blank walls at ground-floor levels through the use of windows, trellises, wall articulation.
 - b. Arcades, materials changes, awnings or other features.
 - c. Reduce the apparent scale of the building by introducing small-scaled architectural features, creating an irregular footprint and variations in roof forms and height of roof elements.
 - d. Enhance definition of each floor of the building through terracing, articulated structural elements, changes in materials, belt courses and horizontal trim bands.
4. **Building Heights.** Building heights shall be generally compatible with and transition from the height of adjacent development within the historic context of the corridor. The overall building height and number of floors shall comply with the dimensional requirements of the Town of Milford Zoning Ordinance; however, wall plane heights shall be “stepped back” to minimize the mass of the structure along the frontage or public way.
5. **Roof Forms and Materials.** Rooflines shall be characteristically sloped and articulated with architectural features such as dormers, chimneys, gables, cupolas, etc.
- a. Rooflines shall not run in continuous planes, and shall be broken into appropriately scaled masses.
 - b. Flat roofs are prohibited unless the Planning Board finds that a proposal can provide appropriate visual appeal and does not detract from the character of the corridor.
 - c. Where appropriate roofs shall provide adequate overhangs for pedestrian activity.
 - d. Roof materials shall be composed of high quality, durable and architecturally consistent materials, including but not limited to concrete tile, asphalt shingles and standing seam metal.
6. **Architectural Features and Materials.** Architectural features and details shall be considered in every building design.
- a. Traditional features and details such as columns, pilasters, canopies, porticos, awnings or arches associated with Milford’s architectural heritage are strongly encouraged.
 - b. Long expanses of repetitive architectural elements and flat unarticulated wall surfaces shall be avoided.

- c. Use of traditional materials or materials that have the same visual effect shall be used including but not limited to wood, brick, tile, or stone.
7. **Windows.** With the exception of retail storefronts, modestly scaled vertically proportioned windows are the most appropriate to the local building vernacular.
 - a. Building facades should have an abundance of windows that use clear non-reflective glass.
 - b. Windows on higher floors should align vertically with windows below, if possible.
 - c. Walls facing streets and pedestrian approaches shall have display windows, recessed windows, detailed entry areas, awnings or prominent sills and a pedestrian scaled lighting element. Storefronts should use windows to reveal indoor amenities, activities and displays.
8. **Building Entrances.** All building entrances shall be clearly defined and highly visible using a variety of the following details (*Please refer to the Town of Milford Design Guidelines for examples*):
 - a. Porticos
 - b. Canopies
 - c. Overhangs
 - d. Arcades
 - e. Recesses or projections
 - f. Raised cornice parapets over doors
 - g. Arches with detail (tile work or moldings) integrated with the building
 - h. Outdoor patios
 - i. Display windows
 - j. Integral planters
 - k. Wing walls with planters or seating
9. **Mechanical Equipment and Building Accessory Screening.** All rooftop air conditioning, heating equipment, other large mechanical equipment and building accessories such as dumpsters shall be screened from public view. The screening may be part of the articulation of the building.
10. **Existing Structures.** Existing buildings and structures of historic value should be preserved and if renovated or expanded done so in a manner that is respectful of the character, features and details of the existing structure.
11. **Signs.** Signs shall comply with the Town of Milford Sign Ordinance and should be designed to meet the needs of the individual uses while complementing the building, site and surroundings.
 - a. Wall signs shall be appropriately scaled to the building or surface on which it is placed and should not obscure important architectural features.
 - b. Signs shall be readable for both pedestrians and drivers approaching a site.
 - c. Consideration should be given to form, color, lighting and materials that are compatible with the building and its surroundings.
12. **Lighting.** All new developments shall include pedestrian-scaled light fixtures that are appropriate to the building and location. The use of floodlights, wall packs and tall light posts intended for lighting large areas shall be prohibited.

6.057 WAIVER PROVISION

There may be unusual or exceptional circumstances that exist where the application of one or more of the Performance Standards of Section VI would entail practical difficulty or unreasonable hardship when balanced against the public purposes sought to be achieved by this Ordinance. In such circumstances, the Planning Board may waive the applicability of some or all of the Performance Standards in accordance with the Site Plan Regulations waiver process (Section 2.012).

6.058 APPEALS

A decision of the Planning Board made pursuant to the Nashua and Elm Streets Corridor Overlay District shall not be appealed to the Zoning Board of Adjustment, but rather shall be appealed to the Superior Court as provided by RSA 677:15 and RSA 676:5, III.

6.059 SAVING CLAUSE

Where any provision of this Ordinance is found to be invalid, such determination shall not affect the validity of the remainder of this Ordinance.

6.060 EFFECTIVE DATE

The Nashua and Elm Streets Corridor Overlay District Ordinance was adopted by the Town of Milford on Tuesday, March 11, 2008 and is effective the same date.

Appendix I – Parcels included in the Nashua and Elm Streets Corridor Overlay District

Map and Lot Numbers: 19/3 thru 19/8, 19/10-19/14, 19/15-1, 19/15-2, 19/16, 19/16-1, 19/17, 19/21, 19/25, 19/25-1 thru 19/25-9, 20/44, 20/45, 20/47, 20/49 thru 20/52, 20/54 thru 20/61, 25/1 thru 25/7, 25/9, 25/9-1, 25/10, 25/11, 25/11-1, 25/12 thru 25/27, 25/32 thru 25/36, 25/38 thru 25/40, 25/42 thru 25/52, 25/56 thru 25/76, 25/112 thru 25/120, 25/122 thru 25/126, 25/126-1, 25/127 thru 25/133, 26/90 thru 26/99, 26/99-1, 26/100 thru 26/103, 26/103-1, 26/104 thru 26/109, 26/111 thru 26/166, 26/166-1, 26/167 thru 26/184, 26/184-1, 30/1 thru 30/4, 30/9, 30/10, 30/31 thru 30/37, 30/40 thru 30/53, 30/57 thru 30/63, 30/63-1, 30/64, 30/65, 30/65-1, 30/66, 31/2 thru 31/13, 31/32, 31/32-1, 31/32-2, 31/33, 31/52 thru 31/55, 32/1 thru 32/7, 32/11, 32/16, 32/17, 32/19 thru 32/24, 32/24-1, 32/28 thru 32/30, 43/46 thru 43/51 and 43/54.

Appendix II - “List of NH Native Trees”

Arborvitae	Hackberry	Poplar
Ash	Hawthorn	Sassafras
Basswood	Hemlock	Serviceberry
Beech	Hickory	Spruce
Birch	Hophornbeam	Sumac
Cherry	Juniper	Sycamore
Chestnut	Larch	Viburnum
Dogwood	Maple	Walnut
Elm	Mountain ash	White cedar
Fir	Oak	Willow
Gum	Pine	Witch-hazel

Appendix III – Invasive Species

Tree of Heaven	European Frogbit	Yellow Floating Heart
Garlic Mustard	Water-flag	Common Reed
European Barberry	Blunt-leaved Privet	Japanese Knotweed
Flowering Rush	Showy Bush Honeysuckle	Curly-leaf Pondweed
Fanwort	Japanese Honeysuckle	Common Buckthorn
Oriental Bittersweet	Morrow’s Honeysuckle	Glossy Buckthorn
Black Swallow-wort	Tartarian Honeysuckle	Multiflora Rose
Pale Swallow-wort	Purple loosestrife	Water Chestnut
Brazilian elodea	Parrot Feather	Burning Bush
Autumn Olive	Variable Milfoil	Norway Maple
Giant Hogweed	European Water-Milfoil	Japanese Barberry
Hydrilla	European Naiad	

ARTICLE VII: SUPPLEMENTARY STANDARDS

7.010 GRAVEL/EARTH PRODUCTS REMOVAL

Loam, sand, gravel and similar earth materials may be removed from a lot or land area in Zoning Districts which allow such only after a permit for earth removal has been issued by the Planning Board. All applications for gravel/earth products removal shall be in conformance with the conditions set forth in NH RSA Chapter 155-e and the Town of Milford's Gravel Removal of Earth Products Permit regulation and may be amended from time to time and shall be accompanied by a fee of fifty (50) dollars plus the cost of postage for notification of abutters. Such permit shall be renewed annually at a fee of fifty (50) dollars. (1985)

7.020 ON-SITE SEWAGE DISPOSAL SYSTEMS

7.021 No septic tank, leach field, or other on-site sewage disposal system shall be constructed or enlarged within twenty five hundred (2500) feet of any well of the Milford Town Water System subject to the following exceptions:

- A. On-site sewage disposal systems for one and two family residences shall be permitted.
- B. On-site sewage disposal systems for the treatment of organic wastes with flow not in excess of one thousand (1000) gallons per twenty-four (24) hour period shall be permitted, however only one disposal system shall be permitted on each parcel of land held in single ownership.
- C. The Board of Adjustment, after proper public notice and public hearing, may grant a Special Exception for the installation or modification of an on-site sewage disposal system within twenty-five hundred (2500) feet of a town well, when it is satisfied that no pollution of any town well shall result from the action. The application for a Special Exception shall include a written report(s) prepared by a licensed professional engineer, ground water geologist and/or hydrologist, who has been approved in advance by the Board. This report shall be based on on-site inspections, testings, and/or scientific analysis of the ground water transmigration. The report(s) shall include an analysis of the type of pollutants to be introduced into the disposal system, the maximum daily flows that are anticipated, soil types, and other relevant engineering and soils factors. All costs for the preparation of the required reports and any on-site testing shall be borne by the applicant for the Special Exception.
- D. On-site sewage disposal systems shall be permitted when the disposal system is located on one side of a river, stream or other body of water which has a year round flow and the town well is located on the other side.

7.022 However, in no case shall any on-site sewage disposal system be constructed or enlarged within four hundred (400) feet of a town well.

7.030 CLUSTER OPEN SPACE DEVELOPMENT *DELETED (2000)*

7.040 PRIVATE WAYS *DELETED (2001)*

7.050 EXISTING MANUFACTURED MOBILE HOME PARKS

7.051 ALLOWABLE USES (1992)

Additions to manufactured housing in existing manufactured home parks shall be allowed when it can be shown that adequate water and sewer facilities exist.

7.052 ALLOWABLE USES IN THE INDUSTRIAL DISTRICT BY SPECIAL EXCEPTION

Any manufactured housing park in existence at the time of the passage of this Ordinance that has a minimum of thirty (30) units may expand subject to the limitations contained herein and provided the Board of Adjustment has approved a Special Exception for such expansion pursuant hereto.

The Board of Adjustment in determining whether such a park is entitled to a Special Exception to expand shall apply the following criteria:

- A. The proposed shall only apply to a park with municipal water and sewer service or one which has received permission from the Selectmen to construct such water and sewer services at the park owner's expense;
- B. The proposed shall include a commitment to improve all existing and contemplated roads within the park to such standards as required by the Selectmen for current road improvements;
- C. The Board of Adjustment shall determine that there exists or will be provided, parks, playgrounds, open green space or other amenities sufficient to provide for existing and proposed occupants of the park;
- D. The Board of Adjustment shall determine the extent to which the park shall be allowed to expand provided that they shall not approve any expansion that will result in a total park density greater than the existing multi-family housing density in the Town;
- E. The Board of Adjustment shall consider the proposed expansion and may impose any reasonable conditions on the grant of the Special Exception which are, in the judgment of the Board of Adjustment, necessary to insure that the proposed expansion meets the above criteria, the general criteria for a special exception (set forth in article X, Para. 10.020 of the Ordinance) and also provide for the safety of existing and further occupants in terms of fire safety, flooding, traffic and any other appropriate considerations.

It is understood that once a Special Exception is granted hereunder the applicant will thereafter present a Site Plan to the Planning Board in accordance with existing Site Plan Review Regulations. All required improvements will be bonded as normally required.

A joint meeting of the Planning Board and Board of Adjustment is permissible if said boards concur. (1989)

7.060 SIGN ORDINANCE (2007)

7.061 PURPOSE AND INTENT

A. The purposes of these sign regulations are to:

1. Encourage the effective use of signs as a means of communication in the Town of Milford;
2. Retain the Town's ability to attract and encourage economic development and growth;
3. Improve pedestrian and vehicle traffic safety;
4. Respect the environment;
5. Address new technologies;
6. Minimize potential adverse effects of signs on nearby public and other private property;
7. Complement the character of the zoning districts' existing land uses, including, without limitation, the Oval Sub-District's central role in the social, political and economic life of the Town; and,
8. Enable fair and consistent enforcement of the sign regulations.

B. It is further intended that this Article will help the Town in its efforts to protect the safety and welfare of the public, implement the Town's Master Plan and reduce potential visual clutter by encouraging the effective use of signs.

C. This Article is structured on a graduated basis that allows a progressively greater variety and size of signs as the zoning districts increase in scale and minimum lot area required for development. Conversely, as the zoning districts increase in density, this Article allows progressively smaller numbers of types and sizes to reflect the corresponding intensity of mixed land uses and the density of development.

D. The "Applicability" subsection of each sign structure described in this Article provides a definition of the type of sign subject to this Article. To the extent that a provision of this Article and another section of the Zoning Ordinance conflict, the provisions of this Article shall control.

E. This Article shall be liberally construed to effectuate its purposes; provided, however, that no sign shall be subject to any limitation based on the content of the message contained in such sign.

7.062 SHORT TITLE

This article shall be known as the Town of Milford Sign Ordinance or the Sign Ordinance. The Sign Ordinance is enacted as part of the Town's Zoning Ordinance.

7.063 DEFINITIONS

The following words and phrases in this Article shall have the meaning described herein for all purposes associated with the construction and interpretation of the Sign Ordinance.

Abandoned sign: The cessation of the use of a sign as indicated by the visible or otherwise apparent intention of an owner to discontinue the use of a sign and/or structural framework; or the removal of the characteristic equipment or furnishing of the sign, without its replacement by similar equipment or furnishings; or the replacement of a nonconforming sign with a conforming sign.

Accessory sign: A sign identifying or advertising associated goods, products, services or facilities available on the premises. Accessory signs include, but are not limited to, trading stamps, credit cards accepted, brand names or price signs. Accessory signs are also known as incidental signs.

Advertising message: Copy, symbols or wording on a sign describing products or services being offered to the public.

Animated sign: Any sign which includes action or motion, such as changing electronic sign or electronic message center. For purposes of this Article, this term does not refer to flashing, changing or indexing.

Area: The space, on the largest single face of a sign, within and including a perimeter which forms the outside shape of a sign. Where signs are established back to back, the larger face shall be calculated for purposes of determining allowable area. The space of a sign having no such perimeter or border shall be computed by enclosing the entire copy area within the outline of a parallelogram, triangle, circle or any other easily recognized geometric shape and then computing the area. Where a sign is of a three-dimensional, round or irregular shape, the largest cross section shall be used in a flat projection for the purpose of computing sign area.

Awning: A removable shelter of canvas, metal or similar material extending over a doorway or window to provide shelter from natural elements.

Awning sign: A sign painted on or attached flat or flush against the surface of the awning, but not extending above, below or beyond the awning or attached to the underside. The copy area on awnings is computed as all or a portion of the allowed wall sign area.

Background area: The total area of a sign face on which copy could be placed, often referenced to in connection with wall signs.

Banner sign: A temporary sign of lightweight material (paper, plastic or fabric) hung either with or without frames. Flags and insignias containing markings of any government, corporation or business are not considered banners, and are defined as flags. Banner signs are regulated as STT and LTT signs for the purpose of this Article.

Billboard: See “off-premises sign.”

Building face or wall: All window and wall or façade areas of a building in one (1) plane or elevation.

Building frontage: The linear length of a building parallel to or closely facing the right-of-way.

Building marker sign: A sign lettered to give the name of a building and/or date of construction of the building. Such signs shall include signs recessed into the surface, cut into any masonry surface, or constructed of metallic or other incombustible material. For purposes of this Article, “building name signs” are deemed to be directional signs.

Canopy (or marquee): A permanent roof-like shelter extending from part or all of a building face over a public right-of-way and constructed of a durable material such as metal, glass or plastic.

Canopy or marquee sign: Any sign attached to or part of a canopy or marquee. The copy area on such signs is computed as all or a portion of the allowed wall sign area.

Changeable copy sign (manual): A sign that is designed so that the message, characters, letters or illustrations can be manually (as opposed to electronically) changed or rearranged without altering the face or the surface of the sign. A sign permit is required for the initial establishment of the sign. (Also, see “changing sign”, “electronic message center,” “temporary sign” and “portable sign.”)

Changing sign (electronic): A sign that is either electronically or electrically controlled to illustrate different copy changes on the same sign. This sign's message may be changed by electronic switching or automatic switching of lamps or alteration in the level of illumination or other illumination source to form words, letters, designs, figures, numerals and pictures often through the apparent vertical or horizontal movement of light. Such signs shall not include a flashing light source. In the case of a changing sign (electronic), flashing shall be defined as an interval of illumination less than five (5) minutes in duration; provided, however, that time and temperature text shall be maintained for a period of fixed illumination of not less than five (5) seconds in duration. A changing sign includes, without limitation, time, temperature, date and message centers or reader boards, indexing signs, and those known as electronic message centers. (Also see "flashing sign".)

Charitable and public service signs: These signs are typically used for the purpose of publicizing a fund raising event for a nonprofit agency or are established to provide information for the purpose of the public's welfare such as a community event, parade or festival. For the purpose of this article, charitable and public service signs are deemed "temporary signs."

Code Administrator: The term "Code Administrator" shall also include the designees of the Code Administrator.

Construction Site ID Sign – A construction site identification sign shall have the meaning set out in Section 7.065 (c)(11).

Contractor job sign: A sign which provides information about active on-site construction work including the name(s), address(es), and phone number(s) of principal contractor(s), architect(s), landscape architect(s), engineer(s) and/or lending institution(s). For the purpose of this article, contractor job signs are deemed "temporary signs" under 7.065(c)(17).

Copy: The wording or message on a sign surface in either permanent or temporary (removable/changeable) letter or organic form.

Copy area: The area in square feet of the smallest geometric figure which describes the area enclosed by the actual copy of a sign. When referring to a wall sign or fascia sign, the copy area refers to the actual message or total area within a border or area highlighted within a contrasting background, not to the illuminated background. Also see "area".

Directional sign: Signage which is necessary for on-site public safety and convenience.

Directory sign: Signs which are necessary to identify and locate occupants of a building, including office buildings and church directories.

Electronic awning sign: A fireproof space frame structure with translucent covering designed in awning form, but whose purpose and use is signage. Such signs are internally illuminated by fluorescent or other light sources in fixtures approved under national and local electrical codes. The copy area is computed as all or a portion of the allowed wall sign area.

Electric message center: See "changing sign (electronic)."

Establish: This term shall mean to attach, alter, build, construct, reconstruct, enlarge, move, hang, place, suspend, affix, erect, manufacture, and includes the painting of wall signs, but does not include copy changes on any permitted sign.

Face of sign: The entire area of the sign on which copy could be placed. Also see "copy area" and "area."

Fascia sign: See "wall sign."

Flag: Banners that represent a nation, state or other political or corporate entity.

Flashing sign: A flashing sign contains an intermittent light source or includes the illusion of intermittent light by means of animation or an externally mounted intermittent light source. Flashing signs are prohibited in all zoning districts in the Town.

Freestanding sign: See “Monument sign.”

Frontage, minimum – that continuous portion of a lot bordering on a road(s) from which access can be taken, that meets the minimum requirements of the underlying zoning district.

Height of sign: The vertical distance measured from the adjacent undisturbed grade of the sign to the highest point of the sign.

Historic marker sign: A marker that identifies an historic place, person event or date and is erected by a historical organization or by a government agency.

Illuminated sign: Any sign which emanates light either by means of exposed tubing, electrical bulbs, fluorescent lights, neon tubes or lamps on its surface, or by means of illumination transmitted through the sign faces. Any decorative lighting that is used expressly for the purpose of advertisement shall be constructed as a sign.

Incidental sign: See “accessory sign.”

Individual letter sign: Any sign made of self-contained letters that are mounted individually. See “copy area.”

Landmark sign: An older sign of artistic or historic merit, uniqueness, or extraordinary significance, as identified by the local historic commission or society. The character of landmark signs warrants their preservation in original condition, or their restoration.

Location: Any lot, premises, building, structure, wall, or any place upon which a sign is located.

Long-term temporary (LTT) sign: Any sign established for a temporary period of not more than six (6) months.

Maintain: To permit a sign, sign structure or any part of each to continue; or to repair or refurbish a sign, sign structure or any part of each. A sign shall be maintained in good repair for reasons of public safety and aesthetics.

Marquee: See “canopy.”

Marquee sign: See “canopy sign.”

Message: The wording or copy on a sign. See “copy.”

Monument sign: A sign established on a freestanding frame, mast or pole and not attached to any building. Where such signs are established back to back, the larger face shall be calculated for the purposes of determining allowable area. Also known as detached sign, freestanding sign, pole sign, ground sign and pylon sign.

Nonconforming sign: Any sign which was lawfully established prior to the date this Article was adopted, and which fails to conform to the specifications of this Article.

Off-premises sign: Any sign visible from a public right-of-way identifying or advertising a business, person, activities, goods, products or services not located on the premises where the sign is installed and maintained.

On-premises sign: Any sign visible from a public right-of-way identifying or advertising a business, person, activity, goods, products or services located on the premises where the sign is installed and maintained.

Parking signs: Signs that identify available spaces or areas for parking of vehicles. Parking signs are deemed “Directional signs” for the purposes of this Article.

Permanent sign: A permanent sign is any sign established for a period of greater than six (6) months.

Pole sign: See “Monument sign.”

Political sign: Signs that advertise a candidate, party, position or other political issue. The provisions of RSA Chapter 664 are incorporated herein by reference.

Portable sign: Any sign not permanently attached to the ground or a building. Also see “contractor job sign,” “temporary sign.”

Premises: A lot or number of lots on which are situated a building or group of buildings designed as a unit or on which a building or a group of buildings are to be constructed. The premises and the sign to which it relates must have a physical connection.

Public right-of-way: A public right of way includes the portion of a public street, road or highway dedicated to and accepted by the Town and/or the State as measured from property line to property line. When property lines on opposite sides of the public street are not parallel, the public right-of-way width shall be determined by the Code Administrator.

Real estate rider board: A typically small sign that either hangs from the base of or is established on top of a real estate sign. The area of these signs shall be included in the total allowable sign area for real estate signs. Copy on these signs typically includes but is not limited to the following examples: for sale, sale pending, sold, open house, or a directional arrow.

Real estate sign: A temporary non-electrical ground or wall sign that either:

- a. Advertises the on-site sale, rental or lease of a premises or a portion thereof; or
- b. The off-site advertising (including balloons) of an open house.

Register: The register of signs shall consist of an official record maintained by the Code Administrator as to the purpose of signage and containing the date of establishment and removal.

Roof line: The top edge of the roof or the top of the parapet, where the junction of the roof and the perimeter wall of the structure forms the top line of the building silhouette.

Roof sign: A sign established upon, against, or directly above a roof, or on the top of or above the parapet of a building.

Rotating sign: Any sign or portion of a sign which moves in a revolving or similar manner, but not including multi-prism indexing signs.

Short-term temporary (STT) sign: Any sign which is established for no more than fourteen (14) calendar days per one (1) year.

Sign: A permanent or temporary device, structure, light, letter, word, two- or three-dimensional, object or copy, model, banner, streamer, pennant, display, insignia, emblem, trade flag, presentation by figures, designs, pictures, logos or colors visible to the public from outside a building, from a traveled way or otherwise. The purpose of a sign is to convey a message to the public, to advertise, direct, invite, announce, or draw attention to, directly or indirectly, a use conducted, goods, products services or facilities available, either on the lot or on any other premises. Includes any permanently installed or prominently situated merchandise. For the purpose of removal, signs shall also include all sign structures and appurtenances.

Sign structure: Any framework, either freestanding or an integral part of the building, which supports or is capable of supporting any sign, including decorative cover.

Snipe Sign: any sign that is attached to any public utility pole or structure, streetlight, tree, fence, fire hydrant, bridge, curb, sidewalk, park bench or the location on public property.

Street: A public highway, road or thoroughfare which affords the principal means of access to adjacent lots, and measured from property line to property line. Also see “public right-of-way.”

Temporary sign: Any sign established for any period of less than six (6) months. Please see definitions of short term temporary signs and long term temporary signs.

Time and temperature sign: Signs which typically refer to the current time and temperature only.

Use: The purpose for which a building, lot, sign or other structure is arranged, intended, designed, occupied or maintained.

Utility sign: These signs are noncommercial in nature and identify the location of gas lines, water lines or phone cables, often warning of the potential hazard of digging or excavation in the immediate area.

Wall sign: Any sign attached parallel to the building wall or other surface to which it is mounted that does not extend more than twelve (12) inches from said surface and has only one (1) sign face that is intended to be read parallel to the wall or other surface to which it is mounted. This sign also includes any sign established on any other part of a building provided that the sign is on a plane parallel to the wall of the building. Wall signs may not project above the top of a parapet, wall or the roof line at the wall, whichever is highest. A wall sign is also that sign established on a false wall or false roof that does not vary more than thirty (30) degrees from the plane of the building’s parallel wall. Also, a fascia sign.

Window sign: A sign established within twelve (12) inches of window plane inside a window for purposes of viewing from outside the premises. Such sign shall not be construed to include merchandise located in a window.

7.064 PROHIBITED SIGNS

Any sign not specifically authorized by this Article is prohibited unless required by law. The following signs and conditions are prohibited:

- A. Any sign located within, on, or projecting over a property line which borders a public or private street, highway, alley, lane, parkway, avenue, road, sidewalk, or other right-of-way, except as provided in this Article. The Code Administrator may cause to be removed any temporary or portable sign erected or displayed upon, or projecting into public property; and,
- B. Any sign attached to any public utility pole or structure, street light, tree, fence, fire hydrant, bridge, curb, sidewalk, park bench, or other location on public property, also known as “snipe signs,” except as provided herein; and,
- C. Any sign placed, which by reason of its location, will obstruct the view of any authorized traffic sign, signal or other traffic control device or which by reason of shape, color, or position interferes with or could be confused with any authorized traffic signal or device; and,
- D. Any sign which is placed so as to prevent or inhibit free ingress to or egress from any door, window, or any exit way required by the Building Code or the Fire Code; and,
- E. Any flashing sign or other sign or lighting device, whether on the exterior of the building, or on the inside of a window which is visible beyond the boundaries of the lot or parcel, or from any public right-of-way, with

intermittent, flashing, rotating, scintillating, blinking, or strobe light illumination, including an electronic message device, except as provided for herein, or the regulations applicable to a particular sign structure; and,

- F. Any sign with unshielded incandescent, metal halide, or fluorescent light bulbs; and,
- G. Any sign which emits audible sound, odor, smoke, steam, laser or hologram lights, or other visible matter, including any sign that employs any stereopticon or motion picture projection; and,
- H. Any sign animated by attachment by, any means, including fixed aerial displays, balloons, including strings of flags, steamers or devices affected by the movement of the air; and,
- I. Any rotating sign; and,
- J. Any banners, pennants or temporary signs, except as provided for herein; and,
- K. Any portable sign or attention getting device including, but not limited to: sandwich, A-frame, tire rim, animated sign, stuffed animal, or vehicle used as a sign or sign structure; and/or string of lights arranged in the shape of a product, arrow, or any commercial message, except as provided for herein, or where permitted in the Oval Sub-District. A-frame signs may be used on a public sidewalk in the Oval Sub-District where approved by the Board of Selectman; and,
- L. Any sign mounted, attached or painted on a trailer, boat, or motor vehicle when parked, stored, or displayed conspicuously on the public right-of-way or private premises in a manner intended to attract attention of the public for business advertising purposes provided, however, that this section does not prohibit an individual, not engaged in business, to display a sign, mounted, attached or painted on a trailer, boat or motor vehicle, when parked for the purpose of a one-time sale of said trailer, boat or motor vehicle. Such signs or devices are considered portable signs within the meaning of these regulations and are prohibited. This provision expressly excludes business signs that are permanently painted on, or magnetically attached to motor vehicles or rolling stock that are regularly and consistently used to conduct normal business activities; and,
- M. Any unauthorized sign attached to existing signs, outdoor light poles, or other structures; and,
- N. Any roof signs; and,
- O. Any billboards.

7.065 GENERAL ADMINISTRATION

- A. Permits: No sign may be established without a sign permit issued by the Code Administrator, except as provided for in (C) below.
 - 1. The Code Administrator shall be the enforcement agent for all signs within the Town of Milford.
 - 2. The Code Administrator shall maintain a registry of all permits issued pursuant to the Sign Ordinance.
 - 3. Sign permit applications shall be submitted to the Code Administrator on such forms and contain such information as required in Section 7.065(D) of the Sign Ordinance.
 - 4. The Code Administrator shall issue a sign permit when, in the Code Administrator's opinion, the applicant has complied with the requirements of the sign ordinance; otherwise, the Code Administrator shall deny the sign permit application in writing, giving specific reasons for the denial and affording the applicant written notice of the applicant's right to appeal the Code Administrator's decision pursuant to Article 10 of the Zoning Ordinance.

5. Any permit or decision denying a sign permit application issued by the Code Administrator must be signed and dated by the Code Administrator.
- B. Maintenance: All signs must be maintained in good repair for reasons of public safety and aesthetics. Ordinary maintenance and minor repair shall not include replacement of the structural framing and supports, enlargements of the area of a sign face or relocation of the sign.
- C. Permit Not Required: The following signs are exempt from the permit requirements of this Article, but are otherwise subject to the standards contained herein. Any failure to comply with these standards and any other provisions of this Article shall be considered a violation of the Zoning Ordinance.
1. Nameplate signs giving property identification names or numbers, or names of occupants; and,
 2. Signs on mailboxes or newspaper tubes; and,
 3. Signs posted on private property relating to private parking, or warning the public against trespassing or danger from animals; and,
 4. Signs erected by or on behalf of or pursuant to the authorization of a governmental body, including legal notices, identification and informational signs, and traffic, directional, or regulatory signs; and,
 5. Signs required by Town regulation. Any sign required by Town regulation is permitted without a permit.
 6. Historic marker signs, erected by any historical organization or governmental agency, provided that said signs are no more than two (2) square feet.
 7. Official signs of a non-commercial nature erected by public utilities; and,
 8. Flags of any governmental organization when not displayed in connection with a commercial promotion or as an advertising device. No flag shall be flown from a pole that is more than fifty (50') feet in height; and,
 9. Incidental signs directing and guiding traffic on private property which do not exceed four (4) square feet each and that bear no advertising matter;
 10. One sign per lot containing the message that the real estate on which the sign is located (including buildings) is for sale, lease, or rent, together with information identifying the owner or agent. Such signs shall not be illuminated. In residential districts, such signs shall not exceed sixteen (16) square feet in area and the maximum sign height shall be six (6) feet above grade to the top of the sign and its supporting structure. In non-residential districts, such signs shall not exceed thirty-two (32) square feet in area and the maximum sign height shall be ten (10) feet above grade to the top of the sign and its supporting structure. In all districts, such signs shall be removed immediately after sale, lease, or rental; and,
 11. Construction site identification signs: Such signs shall not be illuminated, and may identify the project, the owner or developer, architect, engineer, contractor and subcontractors, funding sources, and may contain information related to sale or leasing of the premises. Not more than one (1) such sign may be erected per site, and it may not exceed thirty-two (32) square feet in area. The maximum sign height shall be eight (8) feet above grade to the top of the sign and its supporting structure. Such signs shall not be erected

prior to the issuance of a building permit and shall be removed within fourteen (14) days after the issuance of the Final Certificate of Occupancy; and

12. Permanent Subdivision Signs: Such signs shall not exceed sixteen (16) square feet in area, and shall not be illuminated. Permanent Subdivision Signs with an area not exceeding thirty-two (32) square feet may be permitted by special exception, but shall otherwise not require a sign permit.
13. Signs erected in connection with elections or political campaigns pursuant to RSA 664:14-21. No such sign may exceed the sign area permitted for other signs within the zoning district in which it is located; provided, however, that political signs must be removed within seventy-two (72) hours of the election to which they refer, unless the sign seeks to notify the public of the winner of the said election, in which case, the sign must be removed within ten (10) days of the election to which it refers; and,
14. Signs indicating that a special event such as a grand opening, fair, carnival, circus, festival, or similar event is to take place on the lot where the sign is located. Such signs may be erected not sooner than fourteen (14) days before the event and must be removed not later than three (3) days after the event. Please see section 7.067 (I) for number and area requirements;
15. Building marker signs that do not exceed four (4) square feet in area; and,
16. Signs that are located on, or are an integral part of, a property that has been placed on or determined eligible for the National Register of Historic Places, provided that such signs are recognized as contributing to the National Register status of the property; and
17. Signs that are temporary in nature and not covered in the foregoing categories, provided that such signs meet the following restrictions:
 - a. Not more than one (1) such sign may be located on any lot;
 - b. No such sign may exceed six (6) square feet in surface area; and,
 - c. The maximum sign height shall be six (6) feet above grade to the top of the sign and its supporting structure; and,
 - d. Such a sign may not be displayed for longer than seven (7) consecutive days or no more than fourteen (14) days out of any one (1) year period.
 - e. The Code Administrator is authorized to mark temporary signs in any reasonable way that does not interfere with the content of the temporary sign so as to ensure compliance with this Article.
18. The Oval is owned by the Town of Milford. Signs on the Oval are regulated pursuant to Chapter 7.16 of the Milford Municipal Code. This Article does not apply to signs on the Oval.

D. Application Procedure

1. The Code Administrator may adopt from time to time such application procedures as the Code Administrator may find efficient, provided that the procedures are consistent with the Sign Ordinance and other applicable law.
2. Initiation: An applicant for a sign permit shall submit to the Code Administrator the following:

- a. A completed sign permit application form;
 - b. A non-refundable application review fee in an amount to be set by the Board of Selectmen, which may be changed by the Board of Selectmen in their discretion. The Code Administrator shall display notice of the applicable fee in the offices of the Code Administrator in a form and manner designed to give reasonable notice to the public of the amount of the application review fee.
 - c. An illustration of the proposed sign(s), drawn to scale, that includes the following information:
 - i. The total area of the proposed sign(s) in square feet;
 - ii. The proposed support structure for the proposed sign(s);
 - iii. The proposed sign structure height;
 - iv. The setback(s) of the proposed sign(s);
 - v. The location(s) of the proposed sign(s);
 - vi. The relationship of the proposed sign(s) to the property on which the proposed sign(s) is to be located and/or the buildings thereon;
 - vii. A photograph of existing signage, including dimensions drawn onto the photograph; provided, however, for multi-unit properties, condominiums and the like, the applicant need only submit a photograph detailing existing signage for the Applicant's particular unit;
 - viii. The material from which the proposed sign(s) is to be constructed;
 - ix. Design information such as illumination, animation, function and other essential characteristics of the proposed sign(s).
3. Completeness Review: The Code Administrator shall determine whether the sign permit application is complete within ten (10) calendar days after the application is filed.
4. Decision:
- a. The Code Administrator shall either approve or deny the sign permit application within the time periods specified below after the Code Administrator determines that the application is complete. Applications found to be incomplete shall be denied.
 - b. Upon a finding by the Code Administrator that the sign permit application complies with the provisions of this Article, the Code Administrator shall cause to be issued a sign permit for installation by the applicant. The sign permit shall be issued within ten (10) calendar days of the date on which the application was deemed complete.
 - c. If the sign permit application is denied, the applicant shall be notified within ten (10) calendar days of the date on which the application was deemed complete. The notice of denial shall specifically explain any deficiencies in writing in the application and how the applicant may proceed under this Section and Article 10 of the Zoning Ordinance.
 - d. The Code Administrator shall not consider any sign permit application until the Code Administrator has determined that the application is complete.
 - e. No sign permit shall be issued in any case of an incomplete sign permit application.
 - f. No sign permit may be issued until all fees have been paid and other requirements of the Sign Ordinance have been satisfied.

5. Approval Criteria: The Code Administrator shall issue the requested sign permit if the sign permit application complies with this Article. Otherwise, the Code Administrator shall deny the sign permit application.
 6. Revised Applications: When a sign permit application is denied by the Code Administrator, an applicant may resubmit a revised sign permit application that conforms to the requirements of Section 7.04(c)(1) and specifies what changes were adopted by the applicant to remedy the cause(s) for denial. The Code Administrator may suggest alternative locations or design modifications.
 7. Appeal: An applicant may appeal the decision of the Code Administrator pursuant to Article 8 of the Zoning Ordinance within thirty (30) calendar days of the date of Code Administrator's decision.
 8. Amendments: No new sign or modification of the size, materials or design characteristics of a sign shall occur unless a new sign permit is issued in accordance with the procedures established by this Article.
- E. Variances; appeals of the Zoning Board of Adjustment: The Zoning Board of Adjustment may grant relief by authorizing a variance of this Article.
1. Variances from this Article shall be governed by Article X of the Zoning Ordinance, N.H.Rev.Stat.Ann. Chapter 677, and applicable case law.
 2. Decisions of the Zoning Board of Adjustment may be reconsidered and appealed in the manner provided for by New Hampshire law, as amended.
- F. Enforcement; Violations: The Code Administrator is authorized, empowered and directed to enforce the provisions of this Article.
1. Any person, including, without limitation, an owner of real property, who violates, suffers a violation to occur or refuses to comply with any provision of this Article may be subject to the penalty provisions as described in Article 8 of the Zoning Ordinance.
 2. By virtue of the authority contained in RSA 676:17, the Code Administrator is hereby authorized to issue warnings or citations for violations of this Article, at a fee of two-hundred seventy-five dollars (\$275) for each day the violation continues, including the day the citation is issued and the day the violation is abated for first violations and five hundred fifty dollars (\$550) for each day of any subsequent violation.
 - a. The Code Administrator shall issue a verbal warning to the property owner and/or lessee upon the Code Administrator's discovery of a violation of the terms of this Article.
 - b. If the violation is not remedied within seven (7) days, the Code Administrator shall issue a second warning, in writing, to the property owner and any applicable lessee.
 - c. If the violation is not remedied within fourteen (14) days of the Code Administrator's discovery of said violation, the Code Administrator shall issue a citation in the amounts set out above.
 3. The Code Administrator may remove or cause to be removed any sign that does not comply with the provision of this Article, at the expense of the owner of the property wherein the sign is located after written notification of the violation

4. The Code Administrator may remove or cause to be removed any sign without notice that the Code Administrator reasonably concludes is established in the right of way or that otherwise constitutes a danger to public safety.
5. The Code Administrator may remove or cause to be removed any sign not maintained in good repair for reasons of safety or aesthetics.
6. The Code Administrator may take such other and further action, civil or criminal, at law or in equity as New Hampshire law permits, and nothing in this Article shall be construed to limit those remedies available to the Town for the enforcement of the Sign Ordinance specifically or the Zoning Ordinance generally.

7.066 NONCONFORMING SIGNS

- A. Continuanace: A nonconforming sign lawfully existing at the time of adoption or subsequent amendment of this Article may continue, although such sign does not conform to the provisions of this Article. Portable signs with permanent and/or changeable copy (including trucks and trailers) are exempt from treatment under this section for continuance and shall, therefore, require sign permits and compliance with the provisions of this Article.
- B. Maintenance: A nonconforming sign must be maintained in good repair for reasons of public safety and aesthetics. Ordinary maintenance and minor repairs shall not include replacement of the structural framing and supports, enlargement of the area of a sign face, or relocation of the sign.
- C. Alteration, relocation and replacement: Alterations, relocation, and/or replacement of a legal nonconforming sign structure is permitted when damage or deterioration does not exceed fifty percent (50%) of the area of the sign and structure. A non-conforming sign that is damaged by any casualty or *force majeure* may be replaced by an identical sign in the same location that is identical to the damaged sign. The replacement sign retains its status as a permitted, non-conforming use.
- D. Removal: A nonconforming sign shall be removed within three hundred and sixty-five (365) days if any one of the following conditions exist:
 1. If the damage or deterioration of the sign structure exceeds fifty percent (50%) of the area; or,
 2. If the building to which the sign structure is accessory is damaged or demolished to an extent exceeding fifty percent (50%) of the building's appraised value and no plans have been submitted for the building's reconstruction or restoration pursuant to applicable codes and ordinances; or,
 3. If the sign has been abandoned for at least three hundred sixty-five (365) days.
- E. Any sign that has been removed due to any of the conditions listed in 7.066(D) above shall not be replaced and any succeeding sign shall conform to the provisions of this Article. If any portion of the sign structure is removed, then all parts and components of the sign shall also be removed.

7.067 SIGN REQUIREMENTS BY SIGN TYPE

- A. There are eight (8) zoning districts in the Town of Milford: Residence "A" District, Residence "B" District, Residence "R" District, the Commercial District ("CD"), the Industrial District ("ID"), the Limited Commercial-Business District ("LCB"), the Integrated Commercial Industrial District ("ICP") and the Oval Sub-District ("OSD"). The maximum cumulative number and maximum cumulative area of all sign structures permitted for any lot, parcel or business within a zoning district is set forth in following sections. This section does not apply to political signs or any other sign displaying a noncommercial message.

1. In the event the voters shall approve the creation of a second Integrated Commercial Industrial District (“ICI-2”) pursuant to the 2007 Warrant, it is the intent of this Article that the signs permitted in the ICI shall be permitted in the ICI-2. In the event the ICI-2 district is not approved by the voters, then this subparagraph (Art. 7.06.a.1) is hereby stricken from this Article.
- B. The following sections contain standards for different types of sign structures. These standards regulate the dimensions, location and design of signs based upon their structural characteristics and location. Each section follows a common format in order to enhance readability. The format for each section employs a definition of the type of sign regulated and a table summarizing the regulation in each zoning district.
- C. **Changing Signs:** The foregoing provisions notwithstanding, the following also regulates changing signs in all zoning districts.
1. **Applicability:** This subsection applies to any sign that is either electronically or electrically controlled to illustrate different copy changes of the same sign. This sign’s message may be changed by electronic switching or automatic switching of lamps or alteration in the level of illumination or other illumination source to form words, letters, designs, figures, numerals and pictures often through the apparent vertical or horizontal movement of light. Such signs shall not include a flashing light source. In the case of a changing sign (electronic), flashing shall be defined as an interval of illumination less than five (5) seconds in duration. These signs are commonly used to display time, temperature, date and message centers or reader boards, indexing signs, and those known as electronic message centers.

2. Electronic Message Center: Where electronic message centers are permitted, they shall be subject to all of the following restrictions:
 - a. The changing sign (electronic) may not exceed fifty (50) percent of the area of the sign or twenty (20) square feet, whichever is smaller; and,
 - b. All illumination elements on the face of a changing sign (electronic) shall remain at a fixed level of illumination for a period of not less than five (5) minutes; provided, however, that time and temperature text shall remain at a fixed level of illumination for a period of not less than five (5) seconds.
 - c. Changes from one message to another shall be accomplished by the change of all illumination elements on the face of a changing sign (electronic) simultaneously, with the provision that the sign may fade to complete darkness and then re-illuminate with or fade to the new message.
 - d. Changing signs (electronic) shall be equipped with down-cast lighting and the ability to adjust the brightness of the sign. No sign can be a danger to public health and safety.
 - e. The applicant for a sign permit for a changing sign (electronic) under the provisions of this chapter shall provide with the application a written statement by the land owner and/or lessee, attesting to the facts that:
 - i. The sign to be installed meets all of the criteria set forth in this chapter; and
 - ii. That the sign shall be operated in a manner consistent with the criteria set forth in this chapter; and
 - iii. That the lessee and applicant agree to be held liable, separately or collectively, if these provisions are not met, for any fines arising from such violation. This provision shall not be construed to relieve any other responsibility or remedy for such violation set forth in this chapter.

D. Awning Signs / Canopy Signs / Marquee Signs / Projecting and Suspended Signs

1. Definition:

- a. *Awning Sign*: A sign painted on or attached flat or flush against the surface of the awning, but not extending above, below or beyond the awning or attached to the underside. The copy area on awnings is computed as all or a portion of the allowed wall sign area. A minimum clearance of eight (8) feet above sidewalk level must be maintained for pedestrian clearance.
- b. *Canopy or Marquee Sign*: A sign attached to or part of a canopy or marquee. The copy area on such signs is computed as all or a portion of the allowed wall sign area.
- c. *Electric Awning Sign*: A fireproof space frame structure with translucent covering designed in awning form, but whose purpose and use is signage, internally illuminated by fluorescent or other light sources in fixtures approved under national and local electrical codes.

2. Applicability: The following table summarizes the standards regarding Awning Signs, Canopy Signs and Marquee Signs:

	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Standards								
Permitted?	Y	Y	Y	Y	N	N	N	Y
Permit Required?	Y	Y	Y	Y				Y
Number per site	3	3	3	2	0	0	0	2
Dimensions								
Area per sign	*	*	*	**				**

* = Fifty percent (50%) of the storefront’s linear measure or maximum of one hundred (100) square feet, whichever is less.

** = Seventy-five percent (75%) of the storefront’s linear measure or maximum of fifty (50) square feet, whichever is less.

3. The amount of sign area allowed is included with the total allowed square footage of the Wall/Fascia/Facade signs.
4. Copy Area: The copy area on any awning sign, canopy sign, electronic awning sign, or marquee sign is computed as all or a portion of the allowed wall sign area. Copy located on the canopy or awning sign shall not exceed one-half (1/2) of the area bounded by the edges of the canopy or awning visible from the public right-of-way. If copy is only found in fringe drip-flap portion of the canopy, the entire portion of said area may be utilized for signage.
5. Right-of-Way: An awning or canopy sign which projects into the right-of-way in the Oval Sub-District may be approved and permitted by the Code Administrator as long as the sign does not interfere with the health and safety of the public use of the right-of-way. If an awning or canopy sign projects into the right-of-way in any allowed district other than the Oval Sub-district, a special exception is required from the Zoning Board of Adjustment.
6. Electric Awning Signs: Electric awning signs shall be located on multistory buildings between the first and second story windows, or on single-story buildings above the first story windows. Electric awning signs located on multiple storefronts shall be allowed copy space no more than eighty (80) percent of the individual storefront width, in order to maintain adequate separation between tenant spaces.
7. Height/Clearance: Awning, canopy and marquee signs shall not exceed five (5) feet in height and shall maintain a minimum of eight (8) feet clearance.

E. Wall Signs (Fascia Sign or Façade Sign)

1. Definition: *Wall Sign*: Any sign attached parallel to the building wall or other surface to which it is mounted that does not extend more than twelve (12) inches from said surface and has only one (1) sign face that is intended to be read parallel to the wall or other surface to which it is mounted. Window signage shall not be included as total allowable wall sign area. This sign also includes any sign established on any other part of a building provided that the sign is on a plane parallel to the wall of the building. Wall signs may not project above the top of a parapet, wall or the roof line at the wall, whichever is highest. A wall sign is also that sign established on a false wall or false roof that does not vary more than thirty (30) degrees from the plane of the building’s parallel wall. Included within this definition are signs commonly called fascia signs.
2. Applicability: The following table summarizes the standards regarding Wall Signs:

	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Standards								
Permitted?	Y	Y	Y	Y	Y	Y	Y	Y
Permit Required?	Y	Y	Y	Y	Y	Y	Y	Y
Number per frontage (corner lot has 2 sides frontage)	1	1	1	1	#	#	#	1
Design Characteristics								
Electronic message copy	Y	Y	Y	Y	Y	Y	Y	Y
Changeable copy	Y	Y	Y	Y	N	N	Y	Y
Area per sign	*	*	*	**	*	*	*	**

= Only one wall sign is permitted in the residential zones, regardless of the frontage of the building.

= Fifty percent (50%) of the storefront’s linear measure or maximum of one hundred (100) square feet, whichever is less.

** = Seventy-five percent (75%) of the storefront’s linear measure or maximum of fifty (50) square feet, whichever is less.

3. The amount of sign area allowed is included with the total allowed square footage of the Awning/Canopy/Marquee signs.
4. One (1) directory wall sign or monument sign may be located per building entrance or driveway access with frontage on a street or parking area. Maximum area shall be one (1) square foot per tenant with a combined area not to exceed thirty-two (32) square feet. Directory signs shall not require permits if located so as not to be viewed from a public right of way or adjoining premises. If a directory sign can be viewed from a public right of way or adjoining property, the directory sign shall be included in the maximum area allowed for the premises.

F. Directional Signs

1. Definition: A “directional sign” means a sign that is necessary for on-site public safety and convenience. Examples include signs located next to a driveway and reading “in,” “out,” “entrance,” “parking,” or “exit.”
2. Applicability: The following table summarizes the standards regarding Directional Signs:

	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Standards								
Permitted?	Y	Y	Y	Y	N	Y	Y	Y
Permit Required?	*	*	*	*	*	*	*	*
Dimensions								
Area per sign	4	4	4	4			4	4
Illumination	Y	Y	Y	Y	N	N	N	N

* = No permit required in permitted district if part of site plan package; otherwise, permit required.

3. Directional information (i.e., “In,” “Out,” “Parking” must be at least sixty-five percent (65%) of the area of the sign.
4. Supplemental Standards for Directional Signs:
 - a. Directional Signs are allowed in addition to other permitted signage on-site.
 - b. A sign permit is required for directional signs that are setback less than fifteen (15) feet from a property line, or located so as to be visible from a public right-of-way.
 - c. Directional signs may be located adjacent to a driveway provided it does not impede lines of sight or visibility.
 - d. Corporate emblems or logos on directional signs must be incidental and must not exceed thirty-three (33) percent of the total area of the sign.
 - e. Directional signs shall conform to the Manual of Uniform Traffic-Control Devices where applicable.

G. Monument Sign (also known as Ground, Identification, Detached, Freestanding, Pole or Pylon Sign)

1. Definition: A “Monument Sign” is a sign established on a freestanding frame, mast or pole and not attached to any building. Where such signs are established back to back, the larger face shall be calculated for the purposes of determining allowable area.
2. Applicability: The following table summarizes the standards regarding Monument Signs:

	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Standards								
Permitted?	Y	Y	Y	Y	Y	Y	Y	Y
Permit Required?	Y	Y	Y	Y	Y	Y	Y	Y
Number per site	1	1	1	1	1	1	1	1
Dimensions								
Area per sign	75	75	75	32	*	*	*	32
Height	15	15	15	10	6	6	6	10
Design Characteristics								
Electronic message copy	Y	Y	Y	N	N	N	N	N
Changeable copy	Y	Y	Y	Y	N	N	Y	Y

* = Area per sign in Residential “A,” “B,” or “R” depends on the total acreage of the property where the sign is to be established. For properties consisting of less than five (5) acres of land, the maximum area permitted is six (6) square feet. For properties five (5) acres or larger, the maximum area permitted is sixteen (16) square feet.

- a. Any provision of this Article notwithstanding, electronic copy can change every five minutes.

H. Off-Premise Signs

1. Purpose and Findings: For the purpose of regulating excess signage, encouraging the positive economic development of the Town, promoting the safety of the traveling public, protecting existing property values in both residential and nonresidential areas, preventing the overcrowding of land, promoting a positive community appearance as part of a concerted effort in all areas of the Town, to protect and enhance the aesthetics of the Town for the enjoyment of all citizens of New Hampshire, outdoor advertising signs are herein regulated. The regulations are designed to prevent their over-concentration, improper placement, and excessive height, bulk, number, and area. It is recognized that, unlike on-premise identification signs which are actually a part of a business, outdoor advertising is a separate and distinct use of the public thoroughfare. With a view to this distinction, outdoor advertising signs are regulated differently from on-premise signs. It is intended that outdoor advertising signs be regulated to protect the character of the area wherein outdoor advertising signs are located, and to conserve property values in these areas.

2. Applicability and Definitions: This section applies to any outdoor advertising sign.
 - a. An “Outdoor Advertising Sign” means any billboard or off-premise sign.
 - b. A “billboard” means any off-premises sign on a permanent structure on which the copy is periodically changed and which is not located on the premises to which such advertising copy pertains.
 - c. An “off-premise sign” means any sign or structure, pictorial or otherwise, regardless of size or shape which directs attention to a business, commodity, attraction, profession, service or entertainment conducted, sold, offered, manufactured, existing, or provided at a location other than the premises where the sign is located or to which it is affixed (sometimes called non-point-of-sale sign).
 - d. A “short-term temporary (STT) off-premise sign” is a sign that has been established for no more than fourteen (14) calendar days out of any one (1) year period.
 - e. A “long-term temporary (LTT) off-premise sign” is a sign that has been established for no more than six (6) months.
 - f. A “permanent off-premise sign” is a sign that contains the name and location of a business and has been established for any period longer than six (6) months.
3. Permanent off-premise signs are directional in nature.
4. Regardless of zoning district, each parcel may have no more than a total of two (2) STT or LTT off-premise signs.
5. For each off-premise sign, whether STT, LTT or permanent, written permission of the land owner must be filed with the applicant’s sign permit application.
6. The maximum area for either a STT or LTT off-premise sign shall not exceed sixteen (16) square feet.
7. No off-premise sign, whether STT, LTT or permanent, may be established in any public right-of-way. The purpose of this restriction is to ensure that any type of off-premise sign does not impede pedestrian or vehicle traffic or otherwise create a public safety hazard in any area that is regularly traveled by the public on foot or by vehicle.
8. Any person seeking to establish any permanent off-premise signs must apply for and receive a special exception from the Zoning Board of Adjustment.
 - a. No more than two (2) different permanent off-premise signs shall be allowed on an individual parcel.
 - b. No person, business or other entity shall be permitted more than two (2) permanent off-premise signs within the Town of Milford.
 - c. A permanent off-premise sign shall have a maximum sign area of sixteen (16) square feet. The maximum height shall not exceed eight (8) feet from grade level to the top of the sign and its supporting structure.
 - d. The Milford Zoning Board of Adjustment may impose additional conditions or restrictions, as the Board deems appropriate to the public interest.

I. Temporary On-Premise Signs

1. Definition:

- a. A *Short-Term Temporary (STT)* on-premise sign is a sign that directs attention to a business, commodity, attraction, profession, service or entertainment conducted, sold, offered, manufactured, existing, or provided at a location on the same premises where the sign is located or to which it is affixed and is established for no more than fourteen (14) calendar days in any one (1) year.
- b. A *Long-Term Temporary (LTT)* on-premise sign is a sign that directs attention to a business, commodity or attraction, conducted, sold, offered, existing, or provided at a location on the same premises where the sign is located or to which it is affixed and is established for a period of not more than six (6) months

2. Applicability: The following table summarizes the standards regarding On-Premise Signs:

Short-Term Temporary (STT) On-Premise Signs

Standards	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Permitted?	Y	Y	Y	Y	N	N	N	Y
Permit Required?	*	*	*	*				*
Number per site	2	2	2	2				2
Dimensions								
Area per sign	50	50	50	32				16

Long-term Temporary (LTT) On-Premise Signs:

Standards	Zoning Districts							
	C	I	ICI	LCB	A	B	R	OSD
Permitted?	N	N	N	N	Y	Y	Y	N
Permit Required?					*	*	*	
Number per site					2	2	2	
Dimensions								
Area per sign					**	**	**	16

* = A STT or LTT sign with an area that is equal to or less than twelve (12) square feet does not require a permit. A STT or LTT sign with an area that is greater than twelve (12) feet must have a permit.

** = LTT signs area depends on the total acreage of the property where the sign is to be established. For properties consisting of less than five (5) acres of land, the maximum area permitted is six (6) square feet. For properties five (5) acres or larger, the maximum area permitted is twelve (12) square feet without a permit and sixteen (16) square feet with a permit.

- a. An applicant may apply no more than six (6) times in any twelve months for a permit for a STT sign. A permit for a STT sign is valid for thirty (30) days and expires without further action by the Code Administrator. The fee for temporary sign permits is waived.
 - b. An applicant may apply no more than two (2) times in any twelve months for a permit for an LTT sign. A permit for a LTT sign is valid for seven (7) months and expires without further action by the Code Administrator. The fee for LTT sign permits is waived.
 - c. An applicant in a non-residential district may apply to the Zoning Board of Adjustment for a special exception to be allowed a LTT sign.
3. No STT or LTT signs may be established in any public right-of-way. The purpose of this restriction is to ensure that temporary signs do not impede pedestrian or vehicle traffic or otherwise create a public safety hazard in any area that is regularly traveled by the public on foot or by vehicle.

7.068 SUPPLEMENTAL REGULATIONS FOR THE OVAL SUB-DISTRICT

- A. Definition. The Oval Sub-District shall be comprised of the lots contained within the perimeter defined as follows: Beginning at the intersection of Great Brook and the Souhegan River proceed east along the southern bank of the Souhegan River to the south lot line of Tax Map 25, Lot 99. Then proceed west to the west side of Pine Street and follow it to its intersection with Nashua Street. Follow Nashua Street west to the westerly line of Franklin Street. Continue south along the west line of Franklin Street to its intersection with High Street and then proceed west along the south line of High Street to the southwest corner of Tax Map 25, Lot 39. Then proceed north along the east bank of Great Brook back to the point of beginning.
- B. Findings and Purpose. The Oval Sub-District is a traditional public place, where citizens of the Town, State and Nation gather for entertainment, to purchase goods and services, to obtain information and to express opinions of every type. The Oval Sub-District is also the center of the life of the Town, and is the repository of the Town’s collective history, containing many monuments that commemorate events and people who were and are essential to the development of the Town. It is the purpose of these supplemental regulations to ensure that the essential role of the Oval Sub-District is maintained in Town life.
- C. The Oval, Map 25, Lot 32 is owned by the Town of Milford. Signs on the Oval are regulated pursuant to Chapter 7.16 of the Milford Municipal Code. This Article does not apply to signs on the Oval.
- D. General Provisions
1. Signage shall be compatible with the architecture and building materials of the structures for which the signage is designed.
 2. Signage shall be in proportion to both the buildings and the lot upon which it is placed.
 3. Signs shall not obscure or necessitate the removal of any building elements such as, but not limited to, windows, cornices or decorative details.
 4. Signs (except for free standing) shall be located within the traditional signboard area of a structure.

7.069 SEVERABILITY

If any provision of this Article or the application thereof to any person or circumstances is held to be invalid, the remainder of the chapter and the application of such provision to other persons or circumstances shall not be affected thereby.

7.070 SENIOR HOUSING DEVELOPMENT (2002)

7.071 PURPOSE:

- A. To provide standards for the location and development of appropriate sites within the Town for:
 - 1. Independent senior housing units
 - 2. Assisted living facilities
 - 3. Congregate care facilities.
- B. To serve the needs of persons sixty-two (62) years of age or older.
- C. To regulate the intensity and mix of the different types of dwelling units required to meet the needs of seniors.
- D. To provide ample outdoor and livable space.
- E. To retain a sense of personal identity, intimacy, and human scale within the development;
- F. To provide meeting rooms, function rooms and recreational facilities.
- G. To regulate the bulk, height, and spacing of buildings and the traffic circulation and parking pattern within the development.
- H. To insure adequate light, air, privacy, landscaping, and open space for passive and active recreation are provided within the development.
- I. To define an “overlay” zone, the standards of which shall supersede conflicting standards in zoning districts in which a senior housing development is listed as a permitted use.
- J. To institute the policy that Senior Housing Developments shall be an “acceptable use” in the following zoning districts:
 - 1. Residence “B”
 - 2. Commercial “C”
 - 3. Limited Commercial “L-C”
- K. To institute the policy that Senior Housing Developments may be allowed in the following zoning districts by “Special Exception:”
 - 1. Residence “A”
 - 2. Integrated Commercial-Industrial “ICI”

7.072 USES PERMITTED WITHIN SENIOR HOUSING DEVELOPMENTS

- A. Independent Senior Housing Units
- B. Assisted Living Facilities
- C. Congregate Care Facilities
- D. Ancillary Facilities as Accessory Uses

7.073 OCCUPANCY ELIGIBILITY FOR LIVING UNITS WITHIN SENIOR HOUSING DEVELOPMENTS

- A. Occupancy within a Senior Housing Development is restricted to persons sixty-two (62) years of age or older, or disabled as defined by state and federal regulations.
- B. Occupancy for assisted living facilities and congregate care facilities as determined by state and/or federal regulations.

7.074 MINIMUM STANDARDS FOR DEVELOPMENT

The following standards are the minimum standards for any senior housing development. These standards may be modified by the Planning Board only if necessary to accommodate the specific demands of a particular site or proposal; however, the Planning Board shall not grant exceptions to the minimums of the underlying zoning district.

- A. Minimum lot size:
 - 1. On lots served by both municipal water and sewer systems: one (1) acre (43,560 sq. ft.) or larger.
 - 2. On lots **NOT** served by both municipal water and sewer systems: two (2) acres (87,120 sq. ft.) or larger, depending on soil and slope conditions, as may be necessary to sustain development according to state lot-size standards.
- B. Minimum lot frontage: as allowed in the underlying zoning district.
- C. Minimum unit size:
 - 1. One (1) bedroom independent senior housing units: five hundred-fifty (550) square feet
 - 2. Two (2) bedroom independent senior housing units: seven hundred (700) square feet
- D. Minimum unit size for assisted living facilities and congregate care facilities shall be determined by state and/or federal regulation.
- E. Density
 - 1. On property serviced by municipal sewer and water systems: thirty (30) bedrooms per acre of usable land
 - 2. On property **NOT** serviced by municipal sewer and water systems: four (4) bedrooms per acre of usable land
 - 3. There shall be no more than two (2) bedrooms per dwelling unit.
 - 4. Minimum spacing between buildings:
 - a. One (1) story structures: twenty (20) feet
 - b. Two (2) or more stories: thirty-five (35) feet.
- F. Setbacks
 - 1. Any structure shall be set back at least thirty (30) feet from the front lot line.
 - 2. Any structure shall be set back at least thirty (30) feet from the side and rear property lines.

G. Buffers

The purpose of the buffer zones is to provide a transition area between adjoining land uses.

1. A minimum fifteen (15) foot wide landscaped area shall serve as a buffer on sides and rear.
2. There shall be a ten (10) foot wide landscaped area along the public right of way.
3. The buffer area shall contain year round screening. Screening may consist of shrubs, trees, fencing, as directed by the Planning Board during Site Plan Review.

H. Open Space

Open space shall consist of a minimum of thirty (30) percent of the property. No wetlands or slopes over fifteen (15) percent shall be included in the minimum.

I. Ancillary Facilities as Accessory Uses

Ancillary facilities usually associated with the living needs for comfort, health, safety and welfare of seniors shall be provided to meet the need of the proposed population of the development. The floor area of such ancillary facilities shall not be less than five (5) percent of the total floor area of the building(s). These facilities may include dispensaries, common dining, group recreation or other similar or related facilities solely for the support of the residents of the development.

J. Outdoor Recreation Facilities

Outdoor recreation facilities shall be required and may be active and/or passive in nature. Outdoor recreation facilities may be incorporated in the minimum Open Space. Allowable impermeable surface for these facilities within the Open Space shall not exceed ten (10) percent of the Open Space requirement.

1. Active Recreation shall be defined as leisure time activities, usually of a formal nature and often performed with others, requiring equipment and taking place at prescribed places, sites, or fields.

Passive Recreation shall be defined as activities that involve relatively inactive or less energetic activities such as gardening, walking, sitting, picnicking, card games, chess, checkers or similar table games. Passive recreation can also mean open space for nature walks and observation.

K. On-Site Parking

1. Minimum parking space requirement shall be one (1) space per bedroom.
2. Additional parking of one (1) space for every four (4) bedrooms shall be required.
3. Garages shall **NOT** be used to satisfy minimum parking requirements.
4. Covered parking spaces that cannot be used for or converted to storage or additional living space by the user/owner may be included in the calculation for required parking for the development.

7.075 CHANGE OF USE

If any structure erected in accordance with this section ceases to be used exclusively for senior housing, then the full zoning requirements in the underlying zone must be met for the new use. Failure to comply with the zoning ordinance shall result in a revocation of the site plan approval and/or any certificate of occupancy for the structure.

7.076 EXPIRATION

If within one (1) year after the signing of site plan approval by the Planning Board construction has not commenced, then such approval shall become null and void. This one (1) year limit may be extended with the approval of the Planning Board.

7.077 OTHER REQUIREMENTS

- A. Minimum safety standards: The development shall meet all applicable building codes and life safety codes that have been adopted by the Town of Milford, as well as other state and federal statutes and regulations.
- B. All site plans shall be reviewed by emergency service providers.
- C. Roads shall be built in accordance with Town of Milford road specifications and requirements.
- D. Drive aisles, access to parking areas, driveways, and secondary access drives, must provide sufficient width for safe and efficient one-way or two-way vehicular movement, in accordance with accepted design and engineering practice.
- E. Sidewalks and/or suitable walkways shall be provided throughout the development depending upon the type of development and/or number of dwelling units within the development.
- F. The Planning Board, upon the recommendations of the town transportation and traffic master plan, may require the applicant to provide fair-share contributions towards or construction of off-site road and/or sidewalk and pedestrian improvements that become necessary due to the development.
- G. There shall be a maximum of two (2) access points from existing or proposed public roads to the development, depending upon the type of development and/or number of dwelling units within the development. One (1) of the access points may be restricted for emergency access only, upon review of the fire department, providers of emergency services and approval by the Planning Board.
- H. Where retained as private roads, standard road signs shall be posted at the expense of the developer.
- I. The Planning Board shall require such covenants or legal restrictions they deem necessary to insure the intent of the ordinance and compliance with state and federal regulations.
- J. A performance bond as well as other legal data shall be submitted as required by the Planning Board to insure the completion of roads, buffers, and amenities in accordance with the accepted plans and the Site Plan Regulations of the Town of Milford as adopted or hereafter amended.

7.078 DEFINITIONS

Assisted Living Facility: Units for persons sixty-two (62) years of age and older where rooms, meals, personal care and supervision of self-administered medication are provided. Other services may be provided as an accessory use only such as recreational activities, financial services and transportation.

Congregate Care Facility: Units for persons sixty-two (62) years of age or older where communal dining facilities and services such as housekeeping, organized social and recreational activities, transportation services, and other support services appropriate for the residents are provided.

Independent Senior Housing Units: Dwelling units for persons sixty-two (62) years of age or older.

Usable Land: Land that does not consist of wetland and slopes over fifteen (15) percent.

7.080 STANDARDS FOR ADULT ENTERTAINMENT BUSINESSES (2000)

A. Purpose

It is the purpose of this to establish reasonable and uniform regulations to prevent the concentration of adult entertainment businesses within the Town of Milford.

B. Intent

1. It is the intent to promote the health, safety, and general welfare of the citizens of the Town of Milford; and, it is the intent of this that the regulations be utilized to prevent problems of blight and deterioration which accompany and are brought about by the concentration of adult entertainment businesses; and, the provisions of this have neither the purpose nor effect of imposing limitation or restriction on the content of any communicative materials, including sexually oriented materials;
2. It is not the intent nor the effect of this to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market; and, neither is it the intent nor effect of this to condone or legitimize the distribution of obscene materials.

C. Allowed locations and Location Restrictions of Adult Entertainment Businesses

1. Allowed Locations

Adult entertainment businesses, defined in 7.081 are permitted only in the ICI (Integrated Commercial-Industrial District) provided that all other regulations, requirements, and restrictions for the zone in which the adult entertainment business is to be located are met; and no entertainment business shall be permitted within one thousand (1000) feet of another existing adult entertainment business or one for which a building permit has been applied for; and

2. Location Restrictions

- a. No adult entertainment business shall be permitted within one thousand (1000) feet of all other zoning boundaries, except for the Industrial (I) Zone.
- b. No adult entertainment business shall be permitted within one thousand (1000) feet of any church, place of worship, parish house, convent, public, parochial, or private school, kindergarten, State approved Day Care Center, or Commercial or Not-for Profit Recreational Facilities and no adult entertainment business shall be permitted within one thousand (1000) feet of the Town boundaries;
- c. No adult entertainment business shall be permitted within five hundred (500) feet of an existing residence; and
- d. No adult entertainment business shall be permitted within one thousand (1000) feet of another existing adult entertainment business on the date of the passage of this and, no adult entertainment business shall be permitted within a building, premise, structure or other facility that contains a sexually oriented business as defined herein.

3. Measure of Distance

The distance between any adult entertainment business and a church, school, residence, etc. or another adult entertainment business shall be measured in a straight line, from property boundary to property boundary, without regard to intervening structures.

4. Additional Reasonable Regulations

The Planning Board is empowered hereunder to review and approve permit applications for adult entertainment businesses and impose reasonable restrictions for buffering, outdoor lighting, parking, adequate ingress and egress from the site off of and onto public roads, pedestrian movement, hours of operation, and to provide for appropriate landscaping and building aesthetics as required in the Town of Milford Non-Residential Site Plan Review Regulations.

7.081 DEFINITIONS

Except where specifically defined or otherwise referenced within this Ordinance, words and terms used are intended to imply their customary definition and meaning. The following words and terms are specifically defined as follows:

Adult bookstore or adult video store - A commercial establishment that devotes more than fifteen (15) percent of the total display, shelf, rack, wall, table, stand or floor area, utilized for the display and sale of the following items listed in a) and b) below. The establishment, as one of the principal business purposes, offers for sale or rental for any form of consideration, any one or more of the following:

- A. Books, magazines, periodicals, or other printed matter, or photographs, films, motion pictures, video cassettes, video productions, slides, tapes, records, CD-ROMs or other forms of visual or audio representations which depict or describe “specified sexual activities” or “specified anatomical areas” or meet the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1; or,
- B. Instruments, devices or paraphernalia which are designed for use in connections with “sexual conduct” as defined in RSA-571-B:1, other than birth control devices. A commercial establishment may have other principal business purposes that do not involve the offering for sale or rental of material depicting or describing “specified sexual conduct or activities” and still be categorized as “Adult Video/Book Store”. Such other business purposes will not serve to exempt such commercial establishments from being categorized as an “Adult Video/Book Store” so long as one of its principal business purposes is offering for sale or rental for consideration to specified material which depict or describe specified sexual conduct or activities or specified anatomical areas.
 - 1. Specified sexual conduct or activities means that the male genitals in a state of sexual arousal and/or the vulva or more intimate parts of the female genitals.
 - 2. Specified anatomical areas means and includes any of the following:
 - a. The fondling or other erotic touching of the human genitals, pubic region, buttocks, anus, or female breasts;
 - b. Sex acts, normal or perverted, actual or simulated, including intercourse, or copulation, or sodomy;
 - c. Masturbation, actual or simulated; or
 - d. Excretory function as part of or in connection with any of the activities set forth in a) through c) above.

An adult bookstore or adult video store does not include an establishment that sells books or periodicals as an incidental or accessory part of its principal stock and trade and does not devote more than fifteen (15) percent of the total display area of the establishment to the sale of books and periodicals.

Adult cabaret - A nightclub, bar, restaurant or similar establishment which during a substantial portion of the total presentation time features live performances which meet the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1, and/or feature films, motion pictures, video cassettes, slides or other photographic reproductions, a substantial portion of the total presentation time of which is devoted to showing of material which meets the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1.

Adult drive-in theater - An open lot or part thereof, with appurtenant facilities, devoted primarily to the presentation of motion pictures, films, theatrical productions and other forms of visual productions, for any form of consideration to persons in motor vehicles or on outdoor seats, in which a substantial portion of the total presentation time being presented for observation by patrons is devoted to the showing of material which meets the definition of “harmful to minors” and/or “sexual conduct as set forth in RSA-571-B:1.

Adult entertainment business - means an Adult Bookstore or Adult Video Store, Adult Cabaret, Adult Drive-In Theater, Adult Motel, Adult Motion Picture Arcade, Adult Motion Picture Theater, Adult Theater, Nude Model Studio or Sexual Encounter Center.

Adult motel - A motel or similar establishment offering public accommodations of any form of consideration which provides patrons with closed circuit television transmissions, films, motion pictures, video cassettes, slides or photographic reproductions, a substantial portion of the total presentation time of which are distinguished or characterized by an emphasis upon the depiction or description of materials which meet the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1.

Adult motion picture arcade - Any place to which the public is permitted or invited wherein coin or slug-operated or electronically, electrically or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images to five (5) or fewer persons per machine at any one time, in which a substantial portion of the total presentation of the images so displayed is devoted to the showing of material which meets the definition of “harmful to minors” and/or “sexual conduct”, as set forth in RSA-571-B:1.

Adult motion picture theater - An establishment with a capacity of five (5) or more persons, where for any form of consideration, films, motion pictures, video cassettes, slides or similar photographic reproductions are shown, and in which a substantial portion of the total presentation time is devoted to the showing of material which meets the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1.

Adult theater - A theater, concert hall, auditorium or similar establishment either indoor or outdoor in nature, which for any form of consideration, regularly features live performances, a substantial portion of the total presentation time of which are distinguished or characterized by an emphasis on activities which meet the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1.

Nude model studio - A place where a person who appears in the state of nudity or displays male genitals in a state of arousal and/or the vulva or more intimate parts of the female genitals and is observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by other persons who pay money or any form of consideration or such display is characterized by an emphasis on activities which meets the definition of “harmful to minors” and/or “sexual conduct” as set forth in RSA-571-B:1.

Nudity or a state of nudity - The appearance of a human bare buttock, anus, male genitals, female genitals, or full female breast.

Semi-nude - A state of dress in which clothing covers no more than genitals, pubic region and areola of the female breast, as well as portions of the body supporting straps or devices.

Sexual encounter center - A business or commercial enterprise that as one of its primary business purposes offers for any form of consideration:

- a. Physical contact in the form of wrestling or tumbling between persons of the opposite sex; or
- b. Activities between male and female persons and/or persons of the same sex when one or more persons are in the state of nudity; or
- c. Where the activities in a) or b) is characterized by an emphasis on activities which meets the definition of “harmful to minors” and/or “sexual conduct”, as set forth in RSA-571-B:1

7.090 TELECOMMUNICATION FACILITIES (2000)

A. Purpose and Intent

It is the express purpose of this Section to permit carriers to locate telecommunications facilities within particular areas of the Town of Milford consistent with appropriate land use regulations that will ensure compatibility with the natural and built features and character of the Town. Compatibility with these features of Milford is measured based on the change in community scale and character in relation to the height, mass, materials, contrasts, or proportion within the surrounds of a proposed telecommunications facility. This Section enables the review of the locating and siting of telecommunications facilities by the Town of Milford so as to eliminate or mitigate the visual and environmental impacts of these facilities. This Section is structured to encourage carriers to locate on existing buildings and structures whenever possible. New ground-mounted facilities are permitted but only when the use of existing structures and buildings is found to not be feasible. Co-location is encouraged for all telecommunication applications and the review of such a facility shall be on the basis of the site being built using all positions on the mount.

A. Applicability

The terms of this Section and the Site Plan Review Regulations shall apply to telecommunication facilities (hereinafter “facility(ies)”) on property owned by the Town of Milford, on privately owned property, and on property that is owned by any governmental entity that acts in its proprietary capacity to lease such property to a carrier.

7.091 DEFINITIONS

For the purpose of this Article, the following terms shall have the meaning given herein:

Antenna - The surface from which wireless radio signals are sent and/or received by a telecommunication facility.

Antenna array - A collection of antennas attached to a mount to send and receive radio signals.

Average tree canopy height - An average height found by inventorying the height at above-ground level (AGL) of all trees over twenty (20) feet in height for a defined area.

Camouflaged - A telecommunication facility that is disguised, hidden, part of an existing or proposed structure, or placed within an existing or proposed structure.

Carrier - A Company that provides telecommunication services. Also sometimes referred to as a provider.

Co-location - The use of a single mount on the ground by more than one carrier (vertical co-location) or the same carrier with multiple licenses, and/or the use of several mounts on an existing building or structure by more than one carrier or the same carrier with multiple licenses.

Environmental assessment (EA) - An EA is a document required by the Federal Communications Commission (FCC) and the National Environmental Policy Act (NEPA) when a telecommunication facility is placed in certain designated areas.

Equipment shelter - An enclosed structure, cabinet, shed, vault, or box near the base of the mount within which are housed equipment for telecommunication facilities such as batteries and electrical equipment. Equipment shelters are sometimes referred to as base transceiver stations.

Facility - See Telecommunications Facility

Fall zone - The area on the ground from the base of a ground mounted telecommunication facility that forms a circle with a diameter equal to the height of the facility, including any antennas or other appurtenances. The fall

zone is the area within the area defined by the circle, which there is a potential hazard from falling debris (such as ice) or collapsing material.

Guyed tower - A monopole or lattice tower that is secured to the ground or other surface by diagonal cables for lateral support.

Height - The height above ground level (AGL) from the natural grade of a site to the highest point of a structure.

Lattice tower - A type of mount with multiple legs and structural cross bracing between the legs, that is self-supporting and freestanding.

Mast - A thin pole that resembles a streetlight standard or a telephone pole. A dual-polarized antenna is typically deployed on a mast.

Monopole - A thicker type of mount than a mast that is self-supporting with a single shaft of wood, steel or concrete, or other material that is designed for the placement of antennas and arrays along the shaft.

Mount - The structure or surface upon which antennas are mounted, including the following four types of mounts:

1. Roof-mounted (mounted on the roof of a building)
2. Side-mounted (mounted on the side of a building)
3. Ground-mounted (mounted on the ground)
4. Structure-mounted (mounted on a structure other than a building)

Radio frequency (rf) engineer - An engineer specializing in electrical or microwave engineering, especially the study of radio frequencies.

Radio frequency radiation (rfd) - The emissions from telecommunications facilities.

Security barrier - A wall, fence, or berm that restricts an area from unauthorized entry or trespass.

Separation - The distance between one carrier's array of antennas and another carrier's array.

Telecommunication facility - A facility for the provision of personal wireless services as defined by the Telecommunications Act of 1996, as amended. Telecommunications facilities include a mount, antenna, equipment shelter, and other related equipment. Telecommunication facilities do not include private or non-commercial wireless communication facilities such as amateur ham radio and citizen band radio.

Telecommunication services - The three types of services regulated by this Section are: Commercial mobile radio services, unlicensed wireless services and common carrier wireless exchange access services as described in the Telecommunications Act of 1996, as amended.

7.092 DISTRICT REGULATIONS

- A. Location - Telecommunication facilities shall be permitted in all zoning districts. Applicants seeking approval for these facilities shall first evaluate existing structures for their siting. Only after finding that there are no suitable existing structures pursuant to Section 7.092.C herein, shall a provider propose a new ground-mounted facility.
- B. Existing Structures: Policy - Telecommunications facilities shall be located on existing structures, including but not limited to buildings, water towers, existing telecommunications facilities, utility poles or towers, and related facilities, provided that such installation preserves the character and integrity of those structures.

- C. Existing Structures: Burden of Proof - The applicant shall have the burden of proving that there are no existing structures which are suitable to locate its telecommunication facility and/or transmit or receive radio signals. To meet that burden, the applicant shall take all the following actions to the extent possible:
1. The applicant shall submit to the Planning Board a list of all contacts made with owners of potential sites regarding the availability of potential space for a telecommunication facility. If the Planning Board informs the applicant that additional existing structures may be satisfactory, the applicant shall contact the property owner(s) of those structures.
 2. The applicant shall provide copies of all letters of inquiry made to owners of existing structures, letters of rejection if received, and proof of certified mailing. If letters of rejection are not provided, at a minimum, unanswered "Return Receipt Requested" forms from the U.S. Post Office shall be provided for each owner of existing structures that was contacted.
 3. If the applicant claims that a structure is not capable of physically supporting a telecommunications facility, this claim must be certified by a licensed professional engineer. The certification shall, at a minimum, explain the structural issues and demonstrate that the structure cannot be modified to support the telecommunication facility without unreasonable costs. The estimated cost shall be provided to the Planning Board.
- D. Ground-mounted Facilities: Policy - If the applicant demonstrates that it is not feasible to locate on an existing structure, ground-mounted telecommunications facilities shall be designed so as to be camouflaged to the greatest extent possible, including but not limited to: use of compatible building materials and colors, screening, landscaping and placement within trees.

7.093 USE REGULATIONS

A telecommunications facility may require site plan review as noted below, and a building permit in all cases, and may be permitted as follows:

- A. Existing Tower Structures - Subject to the issuance of a building permit that includes site plan approval by the Planning Board, which review shall include, but not be limited to issues relating to access, bonding, and security for removal, structural integrity and appropriate camouflage of such siting. Carriers may locate a telecommunications facility on any guyed tower, lattice tower, mast, or monopole in existence prior to the adoption of this Section, or on any facility previously approved under the provisions of this Section so long as the co-location complies with the approved site plan. All the Performance Standards from this Section shall be met. This provision shall apply only so long as the height of the mount is not increased, a security barrier already exists, and the area of the security barrier is not increased. Otherwise, site plan review is required.
- B. Reconstruction of Existing Tower Structures - An existing guyed tower, lattice tower, monopole, or mast in existence prior to the adoption of this Section may be reconstructed with a maximum twenty (20) foot increase in height so as to maximize co-location so long as the standards of this Section are met and so long as this twenty (20) foot increase in height does not cause a facility previously existing at less than two-hundred (200) feet to exceed two-hundred (200) feet in height. The mount shall be replaced with a similar mount that does not significantly increase the visual impact on the community. Site plan review is required.
- C. Existing Structures - Subject to the provisions of this Section and site plan review under RSA 674:43:III and except as otherwise permitted under Section 7.093.A, a carrier may locate a telecommunications facility on an existing structure, building, utility tower or pole, or water tower. For the purpose of this section, new structures that are conforming to all other district zoning requirements shall be considered as existing structures.

D. Ground-mounted Facility - A telecommunications facility involving construction of a ground-mount shall require site plan review and be subject to the provisions of this Section.

7.094 DIMENSIONAL REQUIREMENTS

A. Telecommunication facilities shall comply with the following requirements:

1. Height Maximum - In no case shall a telecommunication facility exceed two-hundred (200) feet in height, unless the mount for the facility was greater than two-hundred (200) feet in height prior to the adoption of this Article.
2. Height, Existing Structures and Utility Poles - Carriers that locate new telecommunication facilities on water towers, electric transmission and distribution towers, utility poles and similar existing utility structures, guyed towers, lattice towers, masts, and monopoles may be permitted to increase the height of those structures no more than twenty (20) feet, or forty (40) feet at the discretion of the Planning Board, if the additional height will not materially impair the visual impacts of the site. This increase in height shall only be permitted once for each structure.
3. Height, Ground-Mounted Facilities - Ground-mounted telecommunication facilities shall not project higher than twenty (20) feet above the average tree canopy height within a one-hundred fifty (150) foot radius of the mount, security barrier, or designated clear area for access to equipment, whichever is greatest.
4. Setbacks - All telecommunications facilities and their equipment shelters shall comply with the building setback provisions of the zoning district in which the facility is located. Fences necessary for the facility shall comply with the setback provisions of the zoning district in which the facility is located if the fence is six (6) feet or more in height.
5. Fall Zone for Ground-Mounts - In order to ensure public safety, the minimum distance from the base of any ground-mount of a telecommunications facility to any property line, public road, habitable dwelling, business or institutional use, or public recreational area shall be, at a minimum, the distance equal to the fall zone, as defined in this Section. The fall zone may cross property lines, so long as the applicant secures a fall zone easement from the affected property owner(s). The area of the easement shall be shown on all applicable plans submitted to the Town, and the terms of the easement shall be provided as part of the Site Plan review. Easements shall be recorded at the Hillsborough County Registry of Deeds.
6. Fall Zone for Non-Ground Mounts - In the event that an existing structure is proposed as a mount for a telecommunications facility, a fall zone shall not be required, but the setback provisions of the zoning district shall apply. In the case of pre-existing non-conforming structures, telecommunication facilities and their equipment shelters shall not increase any non-conformities.

B. Planning Board Flexibility: Heights - In reviewing a site plan application for a telecommunication facility, the Planning Board may permit an increase in the height of a ground-mounted facility up to forty (40) feet above the average tree canopy height, if no material increase in visual or environmental impacts will result from the increased height. The visual and environmental criteria of this Section and the Site Plan Review Regulations shall be the guidelines in making this determination.

7.095 PERFORMANCE AND DESIGN STANDARDS

A. Visibility

1. Visual impacts are measured on the basis of:
 - a. Change in community scale, as exhibited in relative height, mass or proportion of the personal wireless service facility within their proposed surroundings.
 - b. New visible elements proposed on a contrasting background.
 - c. Different colors and textures proposed against a contrasting background.
 - d. Use of materials that are foreign to the existing built environment.
2. Enhancements are measured on the basis of:
 - a. Conservation of opportunities to maintain community scale, e.g. buffering areas and low-lying buildings should not be compromised to as to start a trend away from the existing community scale.
 - b. Amount and type of landscaping and/or natural vegetation.
 - c. Preservation of view corridors, vistas, and view sheds.
 - d. Continuation of existing colors, textures and materials.
3. Visibility focuses on:
 - a. Eliminating or mitigating visual impact.
 - b. Protecting, continuing, and enhancing the existing environment.
4. Camouflage for Facilities on Existing Buildings or Structures - Roof Mounts when a telecommunication facility extends above the roof height of a building on which it is mounted, every effort shall be made to conceal or camouflage the facility within or behind existing or new architectural features to limit its visibility from public ways. Facilities mounted on a roof shall be stepped back from the front facade in order to limit their impact on the building's silhouette.
5. Camouflage for Facilities on Existing Buildings or Structures - Side Mounts - Telecommunication facilities, which are side-mounted, shall blend with the existing building's architecture and, if individual antenna panels are over five (5) square feet, the panels shall be painted or shielded with material consistent with the design features and materials of the building.
6. Camouflage for Ground-Mounted Facilities - All ground-mounted telecommunication facilities shall be surrounded by a buffer of dense tree growth, primarily of coniferous or evergreen trees, that extends continuously for a minimum distance of one hundred-fifty (150) feet from the mount, security barrier, or designated clear area for access to equipment, whichever is greatest, and screens views of the facility in all directions. These trees must be existing on the subject property, planted on site, or be within a landscape easement on an adjoining site. The Planning Board shall have the authority to decrease, relocate, or alter the required buffer based on site conditions. The one-hundred and fifty (150) foot vegetative buffer area shall be protected by a landscape easement or be within the area of the carrier's

lease. The easement or lease shall specify that the trees are dead or dying and present a hazard to persons or property.

7. Color - To the extent that any telecommunication facilities extend above the height of the vegetation immediately surrounding it, they shall be of a color, which blends with the background or surroundings.
8. Equipment Shelters - Equipment shelters for telecommunication facilities shall be designed consistent with one of the following design standards:
 - a. Equipment shelters shall be located in underground vaults; or
 - b. Equipment shelters shall be designed so that the shelters are architecturally consistent, with respect to materials and appearance, to the buildings in the area of the telecommunication facilities; or
 - c. Equipment shelters shall be camouflaged behind an effective year-round landscape buffer, equal to the height of the proposed building, and/or wooden fence. The Planning Board shall determine the style of fencing and/or landscape buffer that is compatible with the neighborhood; or
 - d. If mounted on a rooftop, the equipment shelter shall be concealed or camouflaged so that the shelter either is not visible at grade or appears to be a part of the original structure.
9. Lighting, Signage and Security
 - a. Lighting - The mounts of telecommunication facilities shall be lighted only if required by the Federal Aviation Administration (FAA). Lighting of equipment structures and any other facilities on site shall be shielded from abutting properties. Foot-candle measurements at the property line shall be 0.0 initial foot-candles.
 - b. Signage - Signs shall be limited to those needed to identify the property and the owner and warn of any danger. All signs shall comply with the requirements of the Milford Zoning Ordinance.
 - c. Security Barrier - The Planning Board shall have final authority on whether a ground mounted telecommunication facility should be surrounded by a security barrier.
10. Historic Buildings
 - a. Any telecommunication facility located on or within a historic structure shall not alter the character-defining features, distinctive construction methods, or original historic materials of the building.
 - b. Any alteration made to a historic structure to accommodate a telecommunication facility shall be fully reversible.
 - c. Telecommunication facilities authorized by this subsection shall be concealed within or behind existing architectural features, or shall be located so that they are not visible from public roads and viewing areas.
11. Scenic Landscapes and Vistas - Ground-mounted facilities shall not be located within open areas that are clearly visible from public roads, recreational areas, or abutting properties. All ground-mounted telecommunication facilities shall be surrounded by a buffer of dense tree growth as per Section 7.095.A.6.

12. Driveways - If available, existing entrances and driveways to serve a telecommunication facility shall be utilized, unless the applicant can demonstrate that a new entrance and driveway will result in less visual, traffic and environmental impact. New driveways to serve a telecommunication facility shall not exceed twelve (12) feet in width. A gravel or crushed stone surface is encouraged.
13. Antenna Types - Any antenna array placed upon an existing or proposed ground mount, utility pole, or transmission line mount shall have a diameter of no more than four (4) feet, exclusive of the diameter of the mount. A larger diameter antenna array may be permitted after a finding by the Planning Board that the visual impacts of a larger antenna array are negligible.
14. Ground and Roof Mounts - All ground mounts shall be of a mast type mount. Lattice towers, guyed towers, and roof mounted monopoles are expressly prohibited, unless constructed as part of a reconstruction project permitted under Section 7.093.B.
15. Hazardous Waste - No hazardous waste shall be discharged on the site of any telecommunication facility. If any hazardous materials are to be used on site, there shall be provisions for full containment of such materials. An enclosed containment area shall be provided with a sealed floor, designed to contain at least one hundred and ten (110) percent of the volume of the hazardous materials stored or used on the site.
16. Noise - Telecommunication facilities shall not generate noise in excess of that permitted by Town Ordinance.
17. Radio frequency Radiation (RFR) Standards - All equipment proposed for a telecommunication facility shall be fully compliant with the FCC Guidelines for Evaluating the Environmental Effects of Radio frequency (FCC Guidelines), under *Report and Order*, FCC 96-326, published on August 1, 1996, and all subsequent amendments.

7.096 MONITORING AND MAINTENANCE

- A. Maintenance - The owner of the facility shall maintain the telecommunication facility in good condition. Such maintenance shall include, but shall not be limited to, painting, structural integrity of the mount and security barrier, and maintenance of the buffer areas and landscaping.
- B. Monitoring - As part of the issuance of the site plan approval or building permit, the property owner shall agree that the Town of Milford may enter the subject property to obtain RFR measurements and noise measurements at the expense of the carrier. The Town shall provide reasonable written notice to the carrier and landowner and provide them the opportunity to accompany the Town representatives when the measurements are conducted.
- C. Security for Removal - Recognizing the hazardous situation presented by abandoned and unmonitored telecommunications facilities, the Planning Board shall set the form and amount of security that represents the cost for removal and disposal of abandoned telecommunication facilities in the event that a facility is abandoned and the facility owner is unwilling or unable to remove the facility in accordance with Section 7.097. The amount of security shall be based upon the removal cost, plus fifteen percent (15%), be provided by the property owner, and the amounts certified by a professional structural engineer licensed in New Hampshire. The owner of the facility shall provide the Planning Board with a revised removal cost estimate and structural evaluation prepared by a professional structural engineer licensed in New Hampshire every five (5) years from the date of the Planning Board approval of the site plan. If the cost has increased more than fifteen percent (15%), then the property owner shall provide additional security in the amount of the increase.

7.097 ABANDONMENT OR DISCONTINUATION OF USE

- A. Notification - At such time that a carrier plans to abandon or discontinue operation of a telecommunication facility, such carrier will notify the Town by certified U.S. mail of the proposed date of abandonment or discontinuation of operations. Such notice shall be given no less than sixty (60) days prior to abandonment or discontinuation of operations. In the event that a carrier fails to give such notice, the telecommunication facility shall be considered abandoned upon such discontinuation of operations.
- B. Removal - Upon abandonment or discontinuation of use, the owner of the facility shall physically remove the telecommunication facility within ninety (90) days from the date of abandonment or discontinuation of use. "Physically remove" shall include, but not be limited to:
 - 1. Removal of antennas, mount, equipment shelters and security barriers from the subject property.
 - 2. Proper disposal of the waste materials from the site in accordance with local and state solid waste disposal regulations.
 - 3. Restoring the location of the telecommunication facility to its natural condition, except that any landscaping and grading shall remain in the after-condition.
- C. Failure to Remove - If the owner of the facility does not remove the facility upon the Order of the Zoning Administrator, then the Board of Selectmen shall, after holding a public hearing with notice to the owner of the facility, the property owner, and abutters, issue a Declaration of Abandonment. The owner of the facility shall dismantle and remove the facility within ninety (90) days of receipt of the Declaration of Abandonment by the Board of Selectmen. If the abandoned facility is not removed within ninety (90) days, the Town may execute the security to pay for this action.

ARTICLE VIII: ADMINISTRATION

8.010 ENFORCEMENT

This Ordinance shall be enforced by the Board of Selectmen, and the Board of Selectmen is hereby given power and authority to enforce the provisions of this Ordinance. The Board of Selectmen is further empowered to confer upon an administrative official appointed by the Board of Selectmen the duty of administering the provisions of this Ordinance. Upon any well-founded information that this Ordinance is being violated the Selectmen shall seek an injunction in superior court or shall take such other legal action, as they shall deem appropriate.

8.020 BUILDING PERMITS

8.021 No building or dwelling shall be constructed nor shall any structural alteration or enlargement of any existing building or dwelling or the placement of a mobile home for use as a dwelling be commenced until a permit shall have been obtained from the Board of Selectmen or their duly authorized representative.

8.022 The Board of Selectmen or their authorized representative may require of any applicant for a permit such sketches, drawings, plot plans, or other material as may be deemed necessary by the Board in connection with the issuance of the permit.

8.023 If an applicant for a permit requests a permit to undertake an activity on a lot not conforming in size and frontage as otherwise required by this Ordinance, such applicant shall file as part of his application the date of the recording and register of deeds volume and page number of the lot involved.

8.024 The International Residential Code, 2003 Edition, including Appendix Chapters, shall govern and regulate the construction, alteration, movement, enlargement, replacement, repair, equipment, location, removal and demolition of detached one and two family dwellings and multiple single family dwellings (townhouses) not more than three stories in height with separate means of egress in the Town of Milford; said Code also provides for the issuance of permits and collection of fees. (2005)

8.025 A building permit is not required for the construction of a storage shed that is one hundred-twenty (120) sq. ft. or less and does not have electricity or plumbing. A building permit is required for the construction of a storage shed greater than one hundred-twenty (120) sq. ft. or a storage shed of any size that has electricity or plumbing. (1996)

A building permit is also required for the addition of plumbing to any existing storage shed.

8.030 CERTIFICATE OF OCCUPANCY

Any subdivision approved subsequent to March 11, 1986 which requires road system layout and construction, shall have provided in accordance with the Town Road Standards the base coat of surface pavement, which shall be subject to approval by the Department of Public Works and the Planning Board, prior to the issuance of any Certificate of Occupancy for any structure whose lot frontage would include any part of such proposed road system. Private ways shall be considered exempt from this requirement.

8.040 DRIVEWAY ENTRANCE PERMIT (2008)

A driveway entrance permit is required from the Milford Department of Public Works for any construction of any new or alteration of any existing driveway, entrance, exit or approach within the limits of the right of way of any town road. This permit shall be required for new impervious surfaces over 2,500 SF applied to any existing unpaved driveway in the Level 1 or Level 2 Groundwater Protection District (See section 6.012).

8.050 2003 INTERNATIONAL PROPERTY MAINTENANCE CODE (2007)

Adopt the 2003 International Property Maintenance Code.

An Ordinance establishing the minimum regulations governing the conditions and maintenance of all property, buildings and structures; by providing the standards for supplied utilities and facilities and other physical things and conditions essential to insure that structures are safe, sanitary and fit for occupation and use; and the condemnation of buildings and structures unfit for human occupancy and use and the demolition of such structures; known as the property maintenance code.

SECTION 1: ADOPTION OF PROPERTY MAINTENANCE CODE

That a certain document, three (3) copies of which are on file in the office of the town clerk of the Town of Milford, being marked and designated as "the International Property Maintenance Code, 2003, as published by the International Code Council, be and is hereby adopted as the Property Maintenance Code of the Town of Milford, in the State of NH for regulating and governing the conditions and maintenance of all property, buildings, and structures; by providing the standards for supplied utilities and facilities and other physical things and conditions essential to ensure that structures are safe, sanitary and fit for occupation and use; and the condemnation of buildings and structures unfit for human occupancy and use, and the demolition of such existing structures as herein provided; providing for the issuance of permits and collection of fees therefore; and each and all of the regulations, provisions, penalties, conditions and terms of said Property Maintenance Code on file in the office of the Town of Milford are hereby referred to, adopted, and made a part hereof, as if fully set out in this ordinance, with the additions, insertions, deletions and changes, if any, prescribed in Section 2 of this ordinance.

SECTION 2: ADDITIONS, INSERTIONS AND CHANGES

That the 2003 International Property Maintenance Code is amended and revised in the following respects:

Section -101.1

Insert: Town of Milford

Section 103.5

Delete section

Section 302.4

Delete section

Section 302.7

Delete the word "fence"

Section 304.14

Insert: May 1 to October 1

Section PM-602.3 (page 17. third line)

Insert: October 1 to May 31

Section 602.4

Insert: October 1 to May 31

SECTION 3: INCONSISTENT ORDINANCES REPEALED

That Ordinance No. 8.050 of The Town of Milford entitled 1993 BOCA NATIONAL PROPERTY MAINTENANCE CODE and all other ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 4: SAVING CLAUSE

That if any section, subsection, sentence, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Town of Milford hereby declares that it would have passed this ordinance, and each section, subsection, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional.

SECTION 5: SAVING CLAUSE

That nothing in this Ordinance or in the Property Maintenance Code hereby adopted shall be construed to affect any suit or proceeding impending in any court, or any rights acquired, or liability incurred, or any cause or causes of action acquired or existing, under any act or ordinance hereby repealed as cited in Section {2} of this Ordinance; nor shall any just or legal right or remedy of any character be lost, impaired or affected by this Ordinance.

SECTION 6: DATE OF EFFECT

That the Town Clerk shall certify to the adoption of this Ordinance, and cause the same to be published as required by law; and this Ordinance shall take effect and be in force from and after its approval as required by law.

ARTICLE IX: BOARD OF ADJUSTMENT (1986)

9.010 AUTHORIZATION

In accordance with the provisions of the New Hampshire Revised Statutes Annotated, 1955, Chapter 31 (updated 1985, Chapter 674.33) as amended and as hereinafter a Board of Adjustment is established.

9.020 MEMBERS

The Board of Adjustment shall consist of five members appointed by the Board of Selectmen in the Town of Milford. Appointments to the board shall be for a term of three (3) years. Members of the Board shall serve without compensation. The Board shall elect one of its members to serve as chairman. The Board shall have five (5) alternate members to be appointed by the Board of Selectmen for a term of three (3) years each. (1997)

9.030 DUTIES & POWERS

The Board of Adjustment shall perform all the duties and have all the powers provided by the New Hampshire revised statutes annotated, 1955, as amended and as hereinafter provided.

9.040 MEETINGS

Meeting of the Board shall be held at the call of the chairman and at such other times as the Board of Adjustment may determine. All meetings shall be open to the public. The Board shall keep a record of all proceedings showing the vote upon every question. Every rule or regulation, every amendment or repeal thereof and every order, requirement or decision of the Board of Adjustment shall immediately be filed in the Office of the Zoning Administrator and shall become a public record. The concurring vote of three members of the Board of Adjustment shall be necessary to reverse any order, requirement, or determination of the administrative office or to decide any matter upon which it is required to pass or effect any variance from the strict application of the provisions of this Ordinance.

9.050 RULES

The Board of Adjustment shall adopt and promulgate rules of procedure for the guidance of all persons having business before the Board.

ARTICLE X: ADMINISTRATIVE RELIEF

10.010 VARIANCES

10.011 Any request for a permit of any nature required under this Ordinance which will require a variance from the prescribed standards of this Ordinance shall be made only by the owner of the property in question or his duly appointed agent and shall be transmitted to the Board of Adjustment or their duly appointed official to the Board. Upon receipt of the request, the Board shall establish a date for a public in the following manner:

- A. The Board of Adjustment shall, within thirty (30) days of receipt of the application, establish a hearing date.
- B. The applicant and abutters must be notified of the public hearing by certified mail, return receipt requested, mailed at least ten (10) days prior to the public hearing. Said notice shall include the date and time of the hearing as well as a general description of the proposal.
- C. Notice to the general public shall also be given at the same time by posting said notice in the Office of the Board of Selectmen, the Town Clerk Office, and the Planning and Zoning Office.
- D. Notice shall be placed in a newspaper circulated in the Town of Milford at least one (1) week prior to the hearing date.

10.012 Every variance granted by the Board of Adjustment shall be based upon and accompanied by a specific finding or findings that:

- A. There are special circumstances or conditions applying to the land or structure for which the variance is sought (such as, but not limited to, the exceptional narrowness, shallowness, or shape of the property in question, or exceptional topographical conditions), which are peculiar to such land or structure, and the application of the requirements of this Ordinance will deprive an owner of such property a reasonable use of it, and will impose upon such owner a hardship not shared by the owners of other property in the same district.
- B. The specific variance as granted is the minimum variance that will grant reasonable relief to the owner and is necessary for a reasonable use of the land or structure.
- C. The granting of the variance will be in harmony with the general purposes and intent of this Ordinance, and with the convenience, welfare and character of the district within which it is proposed, and will not be injurious or otherwise detrimental to the public welfare.

10.020 SPECIAL EXCEPTIONS

10.021 The Board of Adjustment may in appropriate cases and subject to appropriate conditions and safeguards as determined by the board, grant permits for such special exceptions as allowed in the various zoning districts as set forth in Article II. The Board may refer all applications for special exceptions to the Planning Board for its review and recommendations prior to holding public hearing on the application. The Board of Adjustment, in acting on an application for a special exception shall take into consideration the following conditions: (1992)

- A. The proposed use shall be similar to those permitted in the district.
- B. The specific site is an appropriate location for the proposed use.
- C. The use as developed will not adversely affect the adjacent area.
- D. There will be no nuisance or serious hazard to vehicles or pedestrians.
- E. Adequate appropriate facilities will be provided for the proper operation of the proposed use.

10.022 The Board of Adjustment shall act upon an application for a special exception in the same manner as prescribed in Section 10.011 of this article.

10.023 HOME OCCUPATIONS

- A. In all cases involving home occupations, the Board of Adjustment in addition to the criteria contained herein shall consider the following requirements:
1. The person conducting the home occupation shall reside in the dwelling unit, and there shall be no more than one (1) non-resident person employed in connection with such occupation.
 2. There shall be no evidence outside the dwelling, except permitted signs and required off-street parking, that the dwelling contains a home occupation.
 3. The home occupation shall be confined to one (1) floor of the dwelling unit or accessory buildings and not more than twenty-five (25) percent of such floor shall be so used.
 4. Accessory finished goods may be provided for sale in conjunction with the home occupation, sold and stored in allowed home occupation space only. (2008)
 5. The home occupation and the conduct thereof shall not impair the residential character of the premises nor impair the reasonable use, enjoyment and value of other residential property in the neighborhood.
- B. Any special exceptions issued hereunder shall automatically terminate when the applicant no longer resides in the dwelling unit.

10.024 SELF-SERVICE STORAGE FACILITIES (1997)

- A. In all cases involving self-service storage facilities in the residence "R" District, the following shall be minimum performance conditions of approval, in addition to any other conditions the Board of Adjustment may require:
1. The self-storage facility shall be located specifically on, and have frontage on, Rte. 13 North, Rte. 13 South, and/or the following parcels of land on North River Road: Map 8, lots 11, 11-1, 19, 48, 49, 50, 51, 53 and 53-5.
 2. In order to screen facilities and insure their compatibility with surrounding land uses, there shall be a minimum fifteen (15) feet perimeter landscaped buffer along all sides of the parcel. This buffer shall be planted and maintained with evergreen trees, minimum six (6) feet in height, at intervals fifteen (15) feet on-center, alternately staggered along the length of the buffers. The type of evergreen tree shall be subject to the approval of the Planning Board.
 3. If the Board of Adjustment determines that existing landscaping and/or topographic conditions already create an effective perimeter screen, the Board of Adjustment may waive all or a part of the evergreen tree screening requirement.
 4. There shall be no outside storage.
 5. The use shall require site plan approval by the Planning Board.
 6. Each structure shall be set back at least fifty (50) feet from the front lot line.

10.025 MANUFACTURING IN THE “C” - COMMERCIAL DISTRICT

A. In all cases involving manufacturing in the “C” - Commercial District, the following shall be minimum performance standards for approval by the Zoning Board of Adjustment:

1. The specific site of the proposed manufacturing use will be located in an existing building that is an appropriate location for the proposed use;
2. The use as proposed will not adversely affect the adjacent areas;
3. There will be no nuisance from noise, odor, hours of operation, traffic, deliveries and lighting;
4. There will be no outside storage;
5. The use shall require site plan approval by the Planning Board, subsequent to Zoning Board approval.

10.026 ACCESSORY DWELLING UNITS (2008)

A. In all cases involving an Accessory Dwelling Unit (ADU), the Board of Adjustment in addition to the criteria contained herein shall consider the following requirements:

1. The primary dwelling unit shall be owner occupied.
2. The ADU must be developed in a manner which does not alter the character or appearance of the principal use as a single family residence.
3. The ADU is intended to be secondary and accessory to a principal single-family dwelling unit.
4. The ADU shall not impair the residential character of the premises nor impair the reasonable use, enjoyment and value of other property in the neighborhood.
5. Only one ADU shall be allowed per a property.
6. The ADU shall not exceed 700 SF total space.
7. The ADU shall include no more than one bedroom.
8. Adequate off-street parking must be provided.
9. No additional curb cuts shall be allowed.
10. Any necessary additional entrances or exits shall be located to the side or rear of the building whenever possible.
11. Attached accessory dwelling units shall be designed to allow for re-incorporation into the principal dwelling unit.
12. Attached accessory dwelling units shall have and maintain at least one common interior access between the principal dwelling structure and the accessory dwelling unit.
13. An ADU shall be located in an existing or proposed single family home or detached accessory structure.
14. All criteria of the zoning district including lot sizes, frontages, yard requirements and height requirements must be met.
15. An existing nonconforming residential use shall not be made more nonconforming.
16. An ADU must meet all current local and State Building, Fire and Health Safety Codes.

B. All ADUs must apply for a certificate of compliance every five (5) years and when a change of ownership occurs, to ensure compliance with the granted Special Exception and to ensure the primary dwelling unit is owner occupied.

10.030 APPEALS TO THE BOARD (2008)

10.031 The Board of Adjustment shall hear and decide appeals in accordance with RSA 674:33 and RSA 676:5 through 676:7. The rules of the Board of Adjustment shall specify the time within which such an appeal shall be taken.

10.032 Appeals of Planning Board decisions exercising subdivision or site plan review shall be made to the Board of Adjustment in accordance with RSA 676:5,III. All other appeals of Planning Board decisions may be made in superior court in accordance with RSA 677:15.

10.040 APPEAL FROM ORDER OF THE BOARD OF ADJUSTMENT (2008)

Rehearings by the Board of Adjustment shall be conducted in accordance with RSA 677:2 and 3. Appeals from the Board of Adjustment's decision on a motion for rehearing shall be conducted in accordance with RSA 677:4 through 14.

10.050 PLANNING BOARD REVIEW NECESSARY (2008)

Whenever a variance or special exception is required for a use or structure which must also receive subdivision or site plan review by the Planning Board such required variance or special exception must be received from the Board of Adjustment prior to Planning Board final approval of the subdivision or site plan.

10.060 EXPIRATION (2007)

If within one (1) year after the granting of a variance or special exception by the Board of Adjustment, if none of the required building permit for work covered by the variance or special exception has been executed, then such variance or special exception shall become null and void except in any case where legal proceedings relative to the variance or special exception shall have caused an undue delay in the execution of the required building permit. Only one, six-month extension may be granted for any variance or special exception. The applicant may apply for the extension at a regularly scheduled Zoning Board meeting.

ARTICLE XI: IMPACT FEES (2003)

11.010 GENERAL

11.011 AUTHORITY

This ordinance is established pursuant to The State of New Hampshire RSA 674:21 (V). All references in this ordinance will refer to State of New Hampshire RSAs.

11.012 INTENT

This ordinance is intended to:

Implement and be consistent with the Town of Milford's Master Plan; and

Allocate a fair and equitable share of the cost of public capital facilities (including school construction) to new development (exclusive of existing impact fee regulations that relate to sewer and water facilities enacted pursuant to RSA 38 and RSA 149-I, currently in place); and

Require that new development contribute its proportionate share of funds necessary to accommodate its impact on public facilities; and

Apply to all forms of development identified in RSA 674:21 (V), other than the sewer and water facilities identified above.

11.013 FINDINGS

The Town of Milford is responsible for and committed to the provision of public facilities and services at levels necessary to support residential and non-residential growth and development.

Such facilities and services have been and will be provided by the Town utilizing funds allocated via the Capital Improvements Program as regularly updated pursuant to RSA 674:5.

The rate of growth experienced by the Town in recent years and projected growth rates, have and will continue to necessitate an expenditure of public funds in order to provide adequate facility standards.

New development may create a need for the construction, equipping or expanding of public capital facilities.

The imposition of impact fees is one of the available methods of ensuring that public expenditures are not excessive, and that new development bears a proportionate share of the cost of public capital facilities necessary to accommodate such development. This must be done in order to promote and ensure the public health, safety and welfare.

The fees established by the Impact Fee Schedules for the categories identified in Section 11.031 are derived from, based upon, and shall not exceed the costs of:

Providing additional public capital facilities necessitated by the new development for which the fees are levied; or

Compensating the Town of Milford for expenditures made for existing public facilities that were constructed in anticipation of new growth and development.

11.014 DEFINITIONS

The following definitions shall apply to ARTICLE XI - Impact Fees.

Accessory Structure - Non-Residential. A structure on the same lot with, and of a nature incidental and subordinate to, the principal structure.

Applicant. A person or agent applying for the issuance of a building permit, permit for manufactured home installation, subdivision, site plan or other local land use decision, permit or approval.

Dwelling Unit. One room or rooms connected together, constituting a separate, independent housekeeping establishment physically separated from any other dwelling units in the same structure, and containing independent cooking and sleeping facilities.

New Development. Any activity that results in:

- o The creation of a new dwelling unit or dwelling units;
- o The conversion of a non-residential use to a dwelling unit or dwelling units;
- o Construction of new non-residential facilities and/or accessory structures;
- o The conversion of a residential use to non-residential use.

New Development does not include:

The reconstruction of a residential or non-residential structure that has been destroyed by fire or natural disaster, provided there is no change in the number of dwelling units or size of the structure;

The replacement of a manufactured home with another manufactured home provided there is no change in the number of dwelling units or size of the structure.

Public Capital Facilities. Facilities and equipment which are owned and operated by the Town of Milford, the Milford School System, or cooperatively with other municipalities and which have a useful life of no less than five years. Public capital facilities do not include the costs associated with the operation, maintenance or repair of such facilities, or with facility replacements that do not increase the capacity or level of service, but do include reasonable costs for planning, engineering, design, land acquisition, and other reasonable costs associated with such facilities.

Total Non-Residential Area. The total area of a non-residential structure shall equal the sum of the gross horizontal area of each floor and mezzanine. Any non-residential structure with an area of one hundred twenty (120) square feet or less is excluded.

Total Residential Area. The total residential area of a residential structure shall be equal to the sum of the gross horizontal area of each floor, including attached decks, porches, breezeways, sun rooms, balconies and attached garages. Total residential area excludes basements, cellars and detached outbuildings.

11.020 OFF-SITE IMPROVEMENT

An improvement that is required by the Planning Board for either a site plan or subdivision that is necessary, in the judgment of the Planning Board, for the project to operate properly on the day that it opens shall be considered to be an Off-Site Improvement. Off-site improvements for site specific applications shall be assessed on a case by case basis and shall be in addition to other impact fees imposed pursuant to this ordinance. In a case in which it is determined that such an improvement is necessary for the proper operation of the project, the Planning Board shall so notify the applicant. The applicant shall be required to present to the Board a study that identifies the proportionate share of the cost of the required improvement. The Planning Board may, at the expense of the applicant, refer such study to a consultant of its own choosing to determine the reliability of the findings that shall be considered by the board to arrive at an amount to be paid by the applicant for the off site improvement. The applicant shall be assessed his/her proportionate share of the cost of the project. In cases where it is determined that an improvement is necessary for the proper functioning of a site plan or subdivision, but the applicant, for whatever reason is determined to contribute more than his/her proportionate share to the improvement under this section, and, therefore, that the improvement will also accommodate other future development, the Planning Board, at the request and expense of the applicant, may establish a separate, project related impact fee that assesses other future site plans or subdivisions for their proportionate share of the improvement to reimburse the applicant

for such disproportionate contribution. Such future impact fees shall provide for the payment to the original applicant, with any interest.

11.030 IMPOSITION OF IMPACT FEES FOR NEW DEVELOPMENT

Any person or agent, who after the effective date of this ordinance, seeks to undertake new development within the Town of Milford, New Hampshire, by applying for a building permit and who is not vested under RSA 674:39, is hereby required to pay the appropriate impact fee in the manner set forth in this Ordinance, in accordance with any Impact Fee Schedule adopted by the Board of Selectmen.

No new building permit for an activity requiring payment of one or more impact fee(s) pursuant to this Ordinance shall be issued unless and until the impact fee(s) hereby required have been assessed and agreed upon.

11.031 COMPUTATION OF IMPACT FEES

A. Amount of Impact Fees and Type of Facilities:

The amounts of the impact fees shall be determined using the values contained in the Impact Fee Schedules for the following types of facilities:

- * Storm water, drainage and flood control facilities
- * Public road systems and rights-of-way
- * Municipal office facilities
- * Public school facilities
- * The municipality's proportional share of capital facilities of a cooperative or regional governmental venture
- * Public safety facilities
- * Public health facilities
- * Solid waste collection, transfer, recycling, processing and disposal facilities
- * Public library facilities
- * Public recreational facilities not including public open space.

Sewer and water facilities are excluded from this list because the impacts on these facilities, as well as the fees relating to same, are addressed elsewhere in regulations arising out of RSA 38 and RSA 149-I.

B. Impact Fees Schedules shall be established and reviewed as set forth in Section 11.060 below.

In the case of change of use, redevelopment expansion or modification of an existing use that constitutes New Development, the impact fees shall be based upon the net increase of the total residential area or total nonresidential area of the redevelopment, expansion or modification

C. Assessment and Payment of Fees. All impact fees imposed pursuant to this ordinance shall be assessed prior to, or as a condition for, the issuance of a building permit or other appropriate permission to proceed with development. Impact fees shall be collected as a condition for the issuance of a certificate of occupancy.

D. Appeals. If an applicant elects to dispute the amount of the impact fee(s), the applicant may prepare and submit to the Planning Board an independent fee calculation study for the new development activity that is proposed. The Planning Board shall review such study and render a decision within sixty (60) days of the receipt of the independent fee calculation.

All cost(s) incurred by the Town for the review of such study shall be paid by the applicant.

The decision of the Planning Board regarding any disputed fee calculations may be appealed to the Superior Court as provided by RSA 677.15.

11.032 ADMINISTRATION AND CUSTODY OF FUNDS COLLECTED

Any impact fee collected shall be properly identified and promptly deposited in the appropriate Impact Fee accounts and used solely for the purpose for which it was collected. Impact fee accounts shall be special revenue fund accounts and under no circumstances will impact fee revenues accrue to the General Fund. Each fee collected under a specific Impact Fee Schedule shall not be commingled with any other impact fee accounts or any other funds.

The Town Treasurer shall have custody of all accounts and shall pay out the same only upon written orders of the Board of Selectmen.

At the end of each fiscal year, the Town Treasurer shall prepare a report, showing a full account of all impact fee transactions during the year and deliver same to the Board of Selectmen, the Planning Board, and shall make the report available to the Public.

11.033 REFUND OF FEES PAID

A refund shall be owed only when the Town has failed, within the period six (6) years from the payment of a fee, to expend or encumber a fee for public capital facilities intended to benefit the development that had paid the fees.

The Board of Selectmen shall notify the owner of record by certified mail, return receipt requested, that a refund is due.

The current owner of property on which impact fees have been paid may apply for a full or partial refund of such fees, together with any accrued interest.

In the event that the owner elects to apply for a refund, such application shall be submitted in writing to the Board of Selectmen within sixty (60) days from the date of receiving notice from the Board of Selectmen. Payment of a refund will be made within sixty (60) days after receiving the written request for a refund from the current owner of record.

11.034 CREDITS IN EXCHANGE FOR PUBLIC CAPITAL FACILITIES

The Board of Selectmen may grant a credit to an impact fee in exchange for public capital improvements. Said public capital improvements may be offered by the applicant as total or partial payment of the required impact fee. Such credit shall be determined to represent an identifiable dollar value computed in a manner acceptable to the Planning Board. The Board of Selectmen shall act on a request for credit only after receipt of a recommendation on the request provided by the Planning Board.

Any claim by the applicant for credit must be made prior to the Planning Board vote on subdivision or site plan approval.

Credits shall not be transferable, and apply only to a specific subdivision or site plan approval.

Credits shall not be transferable from one impact fee to any other impact fee.

Any decision by the Board of Selectmen pursuant to the credit provision of this section may be appealed to the Superior Court in accordance with RSA 677:15.

Under no circumstances shall this section imply that the Board of Selectmen has an obligation to accept any credit offer that is proposed.

11.040 ADDITIONAL ASSESSMENTS

Payment of an impact fee does not restrict the Town or the Planning Board from requiring other payments from the applicant, including without limitation such payments relating to the cost of the extensions of water and sewer

mains or the construction or improvement of roads or streets or other infrastructure and facilities specifically benefiting the development which are required by the subdivision or site plan review regulations or as otherwise permitted by law.

11.050 PREMATURE AND SCATTERED DEVELOPMENT

Nothing in this Ordinance shall be construed so as to limit the existing authority of the Milford Planning Board to provide against development which is scattered or premature, which requires an excessive expenditure of public funds, or otherwise violates the Town of Milford's Site Plan Review Regulations, Subdivision Regulations, or Zoning Ordinance.

11.060 ESTABLISHMENT, CALCULATION, REVIEW & TERMINATION OF IMPACT FEES

11.061 ESTABLISHMENT OF IMPACT FEES

In order to establish an impact fee, the Capital Improvements Plan Citizens Advisory Committee as established by the Planning Board shall identify and recommend to the Planning Board projects eligible for impact fee funding. If such recommendations are accepted, the Planning Board will then prepare an Impact Fee Schedule in accordance with RSA 674:21 and this Ordinance.

The Planning Board shall conduct a public hearing on the proposed Schedule, and shall consider all comments received prior to finalizing the Schedule. The Planning Board, upon such finalization, shall then submit the Schedule to the Board of Selectmen for its consideration. The Board of Selectmen at a regular meeting shall either accept or reject the proposed Schedule. The Impact Fee Schedule shall become effective when a majority of the Board of Selectmen approves the schedule. Should the Board of Selectmen fail to approve the schedule, it shall state its reason(s) for doing so in writing and shall forward these comments to the Planning Board within 60 days of the receipt of the Impact Fee Schedule. The Planning Board may reconsider the adoption of such a Schedule.

11.062 IMPACT FEE SCHEDULE CALCULATION

The Impact Fee Schedule shall be prepared in accordance with RSA 674:21 and based upon the most recent data available. The Impact Fee Schedule shall be calculated using the following factors:

The size of the capital facility;

An estimate of the proportion of users from future Milford commercial, industrial or residential development subject to the impact fee that will use the facility when it has reached its capacity;

Projections of future users based upon new building permit projections;

Estimates of the cost to the Town of Milford for the proposed facility, including financing and excluding non-municipal funding sources;

Credits for property taxes to be paid by the proportion of the project to be financed by impact fees;

A fee assessed for new development based upon the total residential area or total non-residential area;

A determination of the number of building permits that will need to be issued in order to finance the impact fee;

An accounting of the number of permits issued, with a maximum number of permits to be assessed an impact fee prior to the fee's termination;

Exemptions, if any;

Impact fee schedules will be available in the Department of Planning and Community Development and the Building Department.

11.063 REVIEW OF IMPACT FEES

The Planning Board shall review all established Impact Fee Schedules on an annual basis.

The Planning Board shall modify the Impact Fee Schedule if it finds that new data is available that may change the schedule. This may include the replacement of factors used in the Impact Fee Schedule with more accurate or recent projections, data and figures. The Planning Board shall submit the Impact Fee Schedule to the Board of Selectmen if modifications are recommended. The Board of Selectmen shall vote to affirm or deny the modifications within sixty (60) days of the receipt of recommendations from the Planning Board. If the Board of Selectmen fails to affirm the modifications, the impact fee schedule in effect shall remain in place.

11.064 TERMINATION OF IMPACT FEES

Impact fees shall terminate in accordance with the Impact Fee Schedule, which shall set forth the number of building permits to be issued prior to its expiration.

The Board of Selectmen may terminate a specific impact fee schedule in effect by majority vote. This may be done only after soliciting recommendations from the Planning Board, and after conducting a public hearing. The Planning Board shall be given sixty (60) days notice prior to any such vote to provide written recommendations to the Board of Selectmen.

11.070 SEVERABILITY

If any section, phrase, sentence or portion of this Ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision, and such holding shall not affect the validity of the remaining portions thereof.

11.080 EFFECTIVE DATE

This ordinance shall become effective on the date of its passage, subject to the limitations imposed by RSA 676:12.

ARTICLE XII: GROWTH MANAGEMENT AND INNOVATIVE LAND USE CONTROL (2006)

12.000 GENERAL

12.001 AUTHORITY

This section is enacted pursuant to RSA 674:16, 674:17, 674:21, and 674:22.

12.002 FINDINGS

Based on, among other things, the Milford 1999 and 2005 Master Plan updates, current Capital Improvements Plan, the 2004 Milford Buildout Analysis, the 2005 Cost of Community Services Study, NRPC data and data developed by the Planning Board on Milford's population, building permits, taxation, school enrollment and other demographic and land use trends, the Town hereby finds that:

- A. **Introduction** – Increased development is having rapid and adverse effects on Milford's land use patterns, population size, adequacy of public facilities and services, tax base, tax burden, congestion, traffic, open space, and community character. While the Town's overall objective, reflected in the *1999 Master Plan Update*, is "to develop a pro-active, organized and deliberate approach to enhance and protect the character and resources of the Town and Community for both the present and the future", unmanaged residential growth presents a clear and substantial threat to this objective. There is an immediate need for action to regulate and manage the rate of residential development and adopt innovative land use controls to further the Town's objectives.
- B. **Land Use Patterns** –
1. **Available Land Resources** - Milford's land resources are sufficient to support substantial and extensive new residential development. The 2004 Milford Buildout Analysis estimates that there are 8,856 developable acres of land in Town available for residential uses, based on current zoning.
 2. **Developable Acreage & Zoning** - Of the available developable acreage 8,435 acres are zoned single-family and 421 acres are zoned multi-family. This developable acreage, according to the assumptions in the Buildout Analysis, will support 6,866 new single-family and multi-family dwelling units, double the amount of dwelling units of all types that currently exist.
 3. **Build-Out Potential** - At an average household size of 2.5 people per unit, Milford's population at ultimate build out would be over 34,000.
 4. **Single-family Unit Growth Rate – Comparison to Regional Average** - Milford's single-family dwelling unit growth rate is substantially higher than the regional average. From 1991 to 2003, based on data obtained from the US Census, New Hampshire Office of Energy and Planning, the Nashua Regional Planning Commission (NRPC), and the Town of Milford Department of Planning and Community Development, Milford's annual growth rate of new single-family home construction was 2.7%, approximately twice the regional average of 1.4% and the fourth highest in the 12-town NRPC region. Looking at the most recent period, from 2001 to 2004, Milford's annual single-family home growth rate remained at 2.7%, well above the regional average of 2.2% and the fourth highest in the region.
 5. **Single-family Home Percentage of Milford Overall Growth** - The rapid growth in Milford's single-family homes has resulted in a substantial shift in the Town's residential housing stock. In 1981, single-family homes constituted only 36% of Milford's housing stock. By year-end 2003, single-family homes had grown to 52% of the Town's total dwelling units.

6. **Multi-family & Manufactured Housing Growth in Milford** - Milford's housing stock consists of single-family, multi-family (2 or more units per building), and manufactured homes. In comparison to the region, Milford has a disproportionately high share of multi-family and manufactured dwelling units. At year-end 2000, 40% of Milford's total dwelling units consisted of multi-family units, almost double the average of 22% for the NRPC region (excluding Nashua). In the period from 2001-2003, Milford's rate of growth for new multi-family units was 2.5% per year. Currently, Milford's manufactured housing accounts for 8% of the Town's total dwelling units, 267% greater than the regional average of 3%.
 7. **Development Approvals Since 1995** - Additionally, since 1995 approximately 1,392 acres of land has been approved for new residential development, an approximate 13% reduction in available land for development.
- C. **Population Increase** - Milford's population increased approximately 1.8% per year during the period 1995 - 2004, from approximately 12,500 residents to an estimated 14,675 (through 2004). The annual growth rate during the period 2000 through 2004 was 1.7% (from 13,535 to 14,675) nearly 170% of the region's growth rate as the NRPC region grew at an estimated 4.1% during the period 2000 through 2003, or 1% annually. The New Hampshire Office of Energy and Planning estimates Milford's population to be 18,350 in the year 2025, a predicted annual increase of approximately 1%.
- D. **Tax Base & Tax Burden** - As indicated in the Master Plan, residential development in Milford is substantially tax-negative – that is, on average, the cost of public services required for each unit of housing substantially exceeds the property tax revenue generated by each unit. The result is that the cost of new residential development is spread among existing residents and property owners in Milford at a rate that increases faster than the revenue increases, resulting in an upward tax spiral. Furthermore, this spiral is exacerbated by multi-family and manufactured homes, in which the gross amount of the assessment, when compared to the number of persons requiring service, is much lower, per capita, than the single-family dwelling unit experience. While this characteristic is common among many towns, the larger than average proportion of residential development in Milford, as well as the larger than average proportional share of multi-family and manufactured homes, makes Milford's experience disproportionately high by comparison to the rest of the region.

The 2005 Cost of Community Services Study analyzed school related expenditures and revenues in relation to residential uses. The study found single-family residences are tax negative, funding only 83% of the school related public services generated by single-family residences. The disparity between school related expenditures and revenues is further exacerbated by multi-family residences which were found to fund only 50% of school related public services generated by multi-family residences. The scope of this impact and the disparity between revenues and expenditures of school related public services is a critical element to address in any public policy.

Milford's rapid growth of tax-negative residential development has inevitably led to sharp increases in Milford's tax burden, with the average annual operating budget increases of 5.7%. In 2004, Milford's fully-equalized property tax rate was \$18.52 per \$1000 of equalized value, 107.5% of the regional average of \$17.23 and the fifth highest in the region. These increasing tax burdens are becoming more and more difficult for Milford citizens to bear and represent, in substance, a subsidy from existing taxpayers to the beneficiaries of new residential development.

- E. **Adequacy of Public Facilities and Services** - Milford is straining to meet current and projected facilities and services demands created by new residential growth. It is anticipated, based on a Facilities Master Plan being developed, that there will need to be significant expenditures made within the next five years for

ambulance, police, and fire emergency services, school building upgrades, library expansion, public works facilities, and new and upgraded recreational facilities.

F. **Community Character, Traffic, Congestion & Facilities** –

1. **Community Character** - New residential development is having a rapid and adverse effect on traffic and open space, and there is a perception that the community is losing its sense of character. Results of the “community vision” survey, distributed by the Milford Planning Board in May 2005 found that people live in Milford because of its rural and historic character and community feel, and that it is important to preserve and protect the Town’s natural resources.
2. **Traffic** - Traffic counts in many areas of Town continue to increase reflecting both local and regional population growth, development patterns, and commuting routes. Improvements to the main traffic arteries linking Southern New Hampshire to Massachusetts (Route 3 and Route 93) will likely speed up regional integration, making Milford more accessible as a residential “commuter” community.
3. **Congestion**- Increasing tax burdens in neighboring states will likely continue to make Southern New Hampshire relatively more attractive as a residential location. Milford, in comparison to many communities in the region, has lower cost land, a more streamlined development process and, as a result, lower cost housing. Milford has a full compliment of stores, restaurants, health care facilities, schools, and other services that facilitate residential uses. These and other factors make Milford attractive on a relative basis for new residential development.
4. **Facilities** - In light of the specific characteristics of Milford’s undeveloped residential land, failure to manage residential growth could result in “shocks” to the Town that could create unacceptable pressure on already overburdened facilities and services while further altering the quality of life. There are certain large undeveloped parcels of residentially-zoned land in Milford that, individually or consolidated, could support developments of up to several hundred new dwelling units. Looking just at the school system, at the average of 0.76 school age children per single-family dwelling unit (see 2005 Cost of Community Services Study), Milford’s school enrollment could suddenly expand by 10% or more if three hundred new single family homes are built, putting an unworkable strain on school facilities and services.

G. **Future Growth** - Milford’s above average rate of residential development is likely to continue. Milford increasingly stands out as an attractive Town for residential development that, in contrast to its neighbors, does not manage the rate of residential growth. In New Hampshire, 40 towns, most of them in the southern tier and including eight towns in Hillsborough County, have adopted growth management measures. Six of the twelve towns in the NRPC region have implemented growth management and or phasing ordinances. As the surrounding towns in the region and across Southern New Hampshire take pro-active steps to manage growth, Milford will likely come under even greater residential development pressure unless it also effectively manages its rate of growth.

H. **Citizen Concern** - The Town citizens support the establishment of a growth management regulation. In March 2005 the Town warrant article for the establishment of an interim growth management ordinance was supported by over 85% of those voting.

I. **Existing Approved ‘Phased’ Subdivisions** - As of December 31, 2005, there were 8 approved subdivisions with a phasing plan required as a condition of approval. These subdivisions have a potential to create a combined total of 250 additional dwelling units over the next three to five years assuming buildout proceeds according to the approved plans. This represents a 3.8% increase in the number of dwelling units in the Town. In recognition of the fact that the requirement that these approved subdivisions be phased represents a form of

growth management already applicable to these properties, the Board finds that these lots would have to be exempt from any growth regulation with a corresponding increase in the number of available units.

- J. **Necessity for Growth Management** - Based on the above data, information and considerations, and based upon and consistent with the Master Plan Updates and the annually updated Capital Improvements Plan, the Town finds that it is necessary, appropriate, and in the public interest to adopt this growth management and innovative land use control ordinance to assess and balance community development needs and consider regional development needs.

12.003 PURPOSES

The purposes of the Growth Management ordinance, which is a part of the Milford Zoning Ordinance, are as follows:

- A. To protect the health, safety, and general welfare of the Town's residents.
- B. To promote the development of an orderly, economically, and environmentally sound and stable community, with appropriate consideration and balancing of local and regional development needs.
- C. To guide efforts by the Town to monitor, evaluate, and establish a rate of residential growth in Milford that is consistent with the Town's capacity for planned, orderly, sensible and financially responsible expansion of its municipal and school services and facilities to accommodate this growth.
- D. To provide a mechanism when public services are strained or overloaded, or may become so, to reduce the rate of residential growth to allow the Town time to correct the deficiencies that have developed.
- E. To achieve a residential growth rate that does not exceed the NRPC's regional residential growth rate by allowing for both the build out of existing approved residential lots and developments and a mechanism for providing additional new residential lots and developments.
- F. Growth management is intended to smooth out the spikes in future growth so that growth is balanced with the ability of the community to provide adequate and cost-effective facilities and services and maintain the quality of life.

12.004 ESTABLISHMENT OF MAXIMUM ANNUAL RESIDENTIAL DWELLING UNITS AND OTHER DETERMINATIONS

- A. The Planning Board shall establish Milford's maximum annual allowable number of dwelling unit building permits for the twelve-month period beginning March 1st of that year, and shall make the other determinations provided in this section, pursuant to the following provisions. The Planning Board shall publicly post the number of allowable dwelling unit permits and other information deemed necessary prior to March 1st.
- B. Except as modified by 12.004.C, the maximum annual allowable dwelling unit permits shall be 1% (one percent) of the total number of dwelling units in the Town of Milford as of December 31st of the year prior to the year the number is set. The maximum annual allowable dwelling unit permits may be waived by the Planning Board in a special case, so that justice may be done and the public interest secured, provided that such waiver will not have the effect of nullifying the intent and purpose of the Zoning Ordinance, Regulations or the Master Plan. (2008)
- C. The permits which are available for issuance under this ordinance will be available to eligible applicants regardless of the number of permits which may otherwise be issued to applicants who are not subject to the

ordinance as a result of phasing agreements or conditions previously approved (See Section 12.006.B.10 and 12.008). (2008)

- D. Residential dwelling units that are federally or state subsidized or are built for the disabled as defined by federal or state guidelines, shall be exempt from the provisions of the Growth Management ordinance.
- E. Taking into account the purposes of this ordinance, the Planning Board shall have the authority to establish the number of annual residential dwelling unit permits, where necessary or appropriate to ensure that the projected demands of new residential development in Milford can be adequately met with the Town's existing and planned municipal facilities and services at a prudent level of sound fiscal management.

12.005 PLANNING BOARD DETERMINATION OF RESIDENTIAL DWELLING UNIT GROWTH RATE

- A. It shall be the responsibility of the Planning Board (directly or through its designated agent) to monitor and assess, on an annual basis, residential growth in Milford and the NRPC region so as to develop the data necessary to set the maximum annual dwelling unit growth rate and make the other determinations provided in this Section of this Ordinance.
- B. The dwelling unit growth rate and related information shall be made public on or prior to February 1st of each year, in a form deemed appropriate by the Planning Board.
- C. On or prior to February 15th of each year, after the occurrence of Section 12.005.B above, the Planning Board shall hold a public hearing to seek input from the public relative to the dwelling unit growth rate.
- D. All municipal and school district departments, agencies, boards, committees, officials, and employees, shall cooperate actively, fully, and in a timely manner with the Planning Board to assist the Board in gathering the information necessary pursuant to this Ordinance.

12.006 ALLOCATION OF BUILDING PERMITS BY PHASING

- A. As provided in Section 12.004 and 12.005, on or prior to March 1 of each year the Planning Board shall determine, with respect to the subsequent twelve months beginning on March 1st the maximum number of allowable dwelling unit building permits available for development of single-family, multi-family, and manufactured dwelling units.
- B. Allocation of dwelling unit building permits shall be by the following method:
 - 1. Each subdivision or site plan of land for a residential use producing less than four (4) lots or dwelling units shall not be subject to a phasing plan.
 - 2. Each subdivision or site plan of four (4) lots or dwelling units and not more than six (6) lots or dwelling units shall be phased over a minimum of two (2) years.
 - 3. Each subdivision or site plan of seven (7) lots or dwelling units but not more than nine (9) lots or dwelling units shall be phased over a minimum of three (3) years.
 - 4. Each subdivision or site plan of ten (10) lots or dwelling units but not more than nineteen (19) lots or dwelling units shall be phased over a minimum of four (4) years.
 - 5. Each subdivision or site plan of twenty (20) lots or dwelling units but not more than thirty-nine (39) lots or dwelling units shall be phased over a minimum of five (5) years.
 - 6. Each subdivision or site plan of forty (40) or more lots or dwelling units shall be subject to an allocation of building permits and a phasing schedule as determined by the Planning Board. In no case shall phasing be less than five years.

7. In no case shall any subdivision or site plan of 40 or more lots or dwelling units be allowed more than 35% of the overall allowable building permits per year unless a waiver is granted by the Planning Board in a special case, so that justice may be done and the public interest secured, provided that such waiver will not have the effect of nullifying the intent and purpose of the Zoning Ordinance, Town Regulations or the Master Plan.

Phasing Schedule	
<u># of New Dwelling units</u>	<u>Phasing (Years)</u>
2-3	N/A
4-6	2
7-9	3
10-19	4
20-39	5
40+	Minimum of 5

8. It is the intention of the phasing schedule to evenly distribute the number of building permits over the required number of years. However, if the Planning Board determines it is in the public’s best interest (i.e. through-road connection, etc.) to allow an applicant to have a greater number of permits in the beginning or end of the allotted phasing period, the Planning Board may grant an allowance for more permits in a single year as long as the project remains phased over the entire phasing period.
- a. It shall be the responsibility of the applicant to provide a phasing schedule for allowable number of building permits per year for Planning Board review and approval that demonstrates that the purposes of this regulation will be met.
9. A minimum of ten percent (10%) of the allowable building permits per year (but no less than five (5) individual permits) shall be allocated for lots not subject to the phasing established by this Ordinance.
10. There shall be a limit on the number of allowable new multi-family dwelling unit permits. The limit shall be set at no more than twenty percent (20%) of the maximum allowable annual dwelling unit permits, until such time as the Planning Board determines that Milford no longer has a disproportionately greater share than the other communities in the NRPC Region.
11. The requirements shall apply to all forms of residential subdivision of land and site plans, as defined in RSA 672:14 (I), except as provided below:
- a. A phasing plan shall not be required for units that are a part of an assisted living facility or a congregate care facility as defined in Section 7.078 of the Zoning Ordinance; or federally subsidized dwelling units as defined in Section 12.004.D. above.
 - b. The Planning Board may require any subdivision to adhere to a longer phasing plan if such phasing is deemed necessary to protect the health, safety, welfare, character, and environment of the Town of Milford.
 - c. Building permits for new dwelling units shall be granted as allowed by the approved subdivision phasing throughout the year beginning March 1 until such time as the number of maximum allowable of new dwelling units, as determined in Section 12.004.B above, is reached.
 - d. If the Town does not issue the full number of allowable dwelling units within the year beginning March 1, there shall be no carry-over of the remaining unissued permits to subsequent years.

- e. Residential building permits that do not have a foundation in within one year of issuance shall lapse, unless renewed prior to the date of expiration. Said building permit shall not be entitled to more than one renewal.

Allocation of available building permits pursuant to this ordinance in no way ensures or guarantees the actual issuance of a building permit, which is subject to the normal standards and procedures. (2008)

12.007 ISSUANCE OF BUILDING PERMITS

Building permits shall be issued on a first-come first-served basis beginning on the first business day on or after March 1st. No application for a building permit shall be made until all applicable (local, state, federal or other) regulatory obligations have been met.

12.008 APPLICABILITY

- A. Building permits for non-residential construction, or the expansion, alteration, renovation, or improvement of an existing dwelling unit, which does not create an additional dwelling unit, are not limited by this ordinance.
- B. This ordinance applies to all residential lots or dwelling units approved and signed by the Planning Board through either subdivision or residential site plans subsequent to the effective date of this ordinance. (2008)
- C. New dwelling units shall be subject to the requirements of Article XI, Impact Fees, of the Milford Zoning Ordinance.

12.009 IMPLEMENTING REGULATIONS

To the extent necessary or appropriate, the Planning Board may adopt administrative regulations to guide the implementation of this ordinance by staff and/or agents of the Planning Board.

12.010 SUNSET (2008)

This ordinance shall expire on December 31, 2011 unless amended to remain in effect beyond that date.

12.011 EFFECTIVE DATE (2008)

This ordinance is effective as of January 1st 2006 and as amended March 11, 2008.
